THE MORNING DID THE CITY COUNCIL OF 1887.

ment for their share of improvements, all which have been bitterly resisted and only after a hard fight. We have also succeedin obtaining an entrance for the Canadian side Railway on our Esplanade front, and I at have laid the foundation of an agreement at the Windmill line which, settling the struction of a new street, will enable the chueded overhead bridges to be built from interest to the water's edge, so ending the at risk of life, and rendering once more our ter side easily accessible to our people, whilst mentioning railway matters, I desire emphasize once more the fact that the rithern Railway Company are holders of a tion of the city property for which they renever paid one cent, and that, principal interest, there can be \$150,000 recovered them if persisted in, and that they can be paid transfer of such properties, exherged the city consent of the city.

"Under this decision it becomes necessary for all banks in this district to render returns to the Collector and Commissioner of Internal Revenue of the average amount of such notes as have been paid out by them for whatever period such notes have been omitted from the returns made under the provisions of law requiring returns from banks and payment of certain taxes by banks.

-Those twin foes to bodily comfort, dyspectal and biffunness, yield when war is waged against them with Northrop & Eyman's Vegetable Discovery and Dyspectic Cure. Its use also insures the removal of kidney and userine maladies, and promotes unobstructed action of the bowels. The purity of its ingredients is another point in its favor. As a blood purifier it has no equal. It is also a great favorite with the ladies. X

Work for Tramps.

At a meeting yesterday afternoon at the Grange of the committee appointed by the Conference of Associated Charities to devise means for giving work to tramps, Prof. Goldwin Smith was appointed to confer with Mayor-Elect Clarke in relation to the scheme.

Cossip of the Turf.

It is said that Jockey Garriann receive a \$10 anight for appearing in a "Run of Luck" at Niblo's, New York.

Two thousand and seven horses raced in England last year, of which 903 were 2-year-olds. These engaged in 1549 races, 732 of which were at distances under six furfongs.

The Charter Oak Park Association of Hartford Conn., has completed arrangements for the three great guaranteed slake races, to be trotted during the Grand Circuit meeting the first week of September next. Distinctive I names have been given the three races with the idea of making them special greatness. The \$10.00 race of the 2.20 class will be known as the Charter Oak Stakes, the \$300 race for the 2.20 pacers as the Insurance Stakes.

A New York exchange speaking of the racing dramm "A Run of Luck" now being presented at Niblo's, New York, says: The climax is reached when the start and finish of an actual race are represented on the stage. Six horses take part in the contest, headed by old Trouble and Daisy—late Netroms—the equine hero of the play, and when at the finish Daisy passed the post first, with the Sanapper in his favorite position upon her withers and whipping with his left hand, the house went wild.

The Farkdale Water Drive and Boulevard.

Editor World: I am pleased to see you have drawn public attention to the above, and trust that now (when, I am told the property owners on the lake shore will give a right-of-way seventy feet in width along the lake front) the matter will not be allowed to drop. Such a drive would be unique and handsome, and could be made part of or in connection with the city's scheme of drives.

With such a large and beautiful lake shore it seems a great pity that at no part of it is there an opportunity for the public to enjoy the fresh and exhiliarating lake breeze. This boulevard, while it would enable us to show visitors the real beauty of the neighborhood, would be an especial boon to the workingman, giving him a lounge and walk free from the impurities of city dramage and smoke. I hope all interested will push the matter to a speedy and satisfactory conclusion.

Oh, what is the use of borrowing trouble
When life's but a span!
How foolish is he who carries wee double
A comfortless man.
