Coal Users and the Strike. This morning a reporter of this paper had an interview with Mr. F. V. Clisdell, man-ager of the People's Coal Company, regard-ing the coal situation. Mr. Clisdell, when asked as to how it would effect his company, replied that it gave them no concern what-ever, as they dealt only in hard coal, and the strike was confined to producers of soft coal. In fact, continued Mr. Clisdell, it has been very favorable to us, as we are selling grate sizes of hard coal at special figures to cover the present situation. Manufacturers and others who have pur-chased from us speak very highly of our coal for steam bullers. No smoke, and is the highest evaporating coal that can be used. Besides, said Mr. Clisdell, it will burn in almost any kind of grate bars. Asked as to price, the manager replied that the company were prepared to make special quotations for steam users.
