### NOTE AND COMMENT

**Peterboro' Review**—One of the new words born of the war is "defeatist", which means a man in any line of endeavor who quits before he starts.

(Buffalo Commercial.)  
Something of Great Britain's effort may be realized in the statement by Premier Lloyd George that if the United States called out as many soldiers proportionately as Great Britain has an army of 15,000,000 mop would take the field.

A report reaches Switzerland that Allied airmen destroyed the poison-gas factory at Mannheim, Germany. The release of the gases when the works were wrecked sent seventy eight persons to hospitals. It is a wonder the Kaiser does not protest against this inhumanity.

Mr. Eli Thompson, of Mud Creek, threshed 103 bushels of alsike clover seed from 14 acres.  
An Oneida Indian and two young sons, 9, 11 years old pulled 284 acres of flax for the Ontario Flax Company in 28 days. Eight acres were pulled in the Tibbury fields and 29 acres for the Parkhill mills. He received for his labor \$427.50, a pretty good month's wage.

### \$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and this is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### IDEAL PLACE FOR SOLITUDE!

Bird Island, in Gulf of St. Lawrence  
One of World's Most Desolate Spots.

Bird Island, most northerly of the Magdalen Islands, holds the world's record for wrecks. The whole group in the Gulf of St. Lawrence, is exceedingly dangerous, but Bird Island stands first. It is like a huge rock than an island its walls rise grim and gray in the path of the mariner. The island has no beach or coast, only a steep irregular cliff rising abruptly from the water. The top is a barren plateau of about five acres.

The principal inhabitants are birds. Gulls, gannets and murres come in thousands to nest and rear their young. The roar of their thousands of wings drowns the noise of the waters. The Indians say that they are the souls of shipwrecked sailors.

The human tenants of the plateau are the lighthouse keeper and his wife, doomed to solitary existence except about once or twice a year when a ship brings provisions. Sometimes, perhaps in about every three or four years, an enterprising naturalist comes to study the bird life on the island.

Ships can approach Bird Island only in the calmest weather. The slightest ripple and the craft keeps a respectful distance. The lighthouse is reached by a rope and windlass. The hardest mountain climber would hesitate before attempting to scale its rough gray walls.

The keepers of the light have been singularly unfortunate. The first went insane and had to be kept confined by his wife and assistant until the provision boat arrived. The second was borne away by a floating piece of ice when seal hunting in the early spring. His wife maintained the lighthouse alone until help came from a neighboring island.

### FAD WELCOMED BY ARTISTS

Painted Designs on Lingerie Give Opportunity for Unlimited Display of Originality.

Now that the hard-hearted hosiery manufacturers have decided to reduce their manufacturing costs by cutting out the fancy colors and startling designs of the ladies' lines and limiting the output to plain somber shades that cannot be heard coming, that portion of femininity that demands novelties in dress that fairly scream will have to fall back on the new fad in underwear. Oil paintings, done to suit the individual taste, on the lingerie, each piece to follow the same design and make up the set, and a mosquito net overdress will put a spiderweb stocking in the shade when it comes to startling scenic effects.

Imagine a set with a lifelike representation of the execution of Marie Antoinette on the back of the corset cover and a panoramic sketch of the taking of the Bastille running around the bottom of the undershirt, with other sidelights of the French Revolution sandwiched in where opportunity presents.

Possibilities? Why! A pair of silk ones never began to offer the possibilities for effective display of the artistic temperament that this new fad does. All struggling artists whose productions are not in demand since the war economics have put a quietus on the picture market will rise en masse and call the originator of the new idea blessed.—Brookton Times.

### French Labor Shortage.

The lack of labor has become more acute in almost all the vital industries of France. There are many soldiers of the old classes in the French army, men 40 years of age or more, whose usefulness at the front is a question open to debate. Agitation has been going on since the time when American participation in the war made the demand for men less acute at the battle front to relieve the old Pollus. Early in 1917 the doubtful privilege of an honorable discharge was granted to carefree fathers of six or more children. The real problem before the chamber of deputies is whether to take up the question of the old classes in a large spirit or whether to continue to make slight concessions to the demands of their constituents.

### Adjustable Support for Broken Limbs.

"Tests of a new limb support which have been made in a hospital in this country have proved so satisfactory that a Red Cross unit will take one of the devices to France, together with specifications for making others, if desired," says Popular Mechanics Magazine. As described and illustrated, it consists of "a hammocklike sling suspended from a steel arm that can be attached either to a bed or a wheel chair. Its special feature is the freedom of movement that is afforded the patient. By means of a rope and pulleys the sling can be raised or lowered, while the supporting arm permits it to swing from side to side."

### WHEN HE MADE RECORD JUMP

Youngster Was Trying to Escape Dog He Thought Was Mad, So There Was Abundant Reason.

Commander C. B. Fry, who has temporarily relinquished athletics in order to train boys for the navy, described to me the other day how he first came to discover his ability as a jumper.

"When quite a youngster," he said, "I was one day strolling along close to our house, when there came bounding along the road in my direction an exceedingly wicked-looking terrier I had recently become possessed of.

"The animal was foaming at the mouth and showed other unmistakable signs of excitement and distress. Hydrophobia was rife in the district at the time. A horrid fear gripped me. Turning swiftly aside, I took the ditch and hedge bordering the road in one wild leap, landed safely in an orchard on the other side, and was up a plum tree a few seconds later.

"The dog, however, followed through a gap in the hedge and sat at the bottom of the tree, but he brought a toad in his mouth, and I perceived he was not mad beyond the degree of trying to eat the toad. So I came down, and went to have a look at the hedge I had jumped over.

"It was much higher than my head, not to mention the ditch. It was many years before I jumped as high again." —Pearson's Weekly.
