New York C. P. R. Building

Great interest is being taken by New York transportation and real estate men in the decision taken by the Canadian Pacific Railway to concentrate its various offices into one building close to the Grand Central Station.
The Canadian Pacific deal, which has required an entire year to close on account of its elaborate ramifications, involves a lease from the Madison Avenue Offices, Inc., the holding corporation for the Fifth Church of Christ Scientist, of a large store, basement and almost the entire second floor of the 44th Street portion of this twenty-one story building; and also involves an investment of considerable proportions by the Canadian Pacific Railway Company in the building itself, in consideration of which the name of the building will be changed from "Madison Avenue Offices," or, as it has sometimes been referred to, the "Christian Science Building," and will be re-named the "Canadian Pacific Building."
The area of the plot on which the building stands covers over 31,000 square feet, and is situated directly opposite the Hotel Biltmore on the east, Brooks Brothers' building to the north and the old Hotel Manhattan to the south.
The Canadian Pacific Railway will occupy the store, basement and second floor, all that part of the building on which only a year ago stood St. Bartholomew's Church, demolished last April, to make way for the great uptown trend of business.
The negotiations just closed provide, in addition to the investment mentioned above, a lease for 21 years at an aggregate rental of something approaching \$3,000,000. It was said by F. R. Perry, General Agent, Passenger Department, in New York, for the Canadian Pacific, that it will give up its railway offices at Broadway and 30th Street and its branch at Broadway and 33rd Street, and will combine its railway, steamship, and colonization departments in its new home on Madison Avenue.
The plans of the Canadian Pacific Company are particularly significant in that they will provide the largest consolidated ticket offices in New York, for, in addition to their own occupancy, it is said by the agents of the new Canadian Pacific Building, that negotiations are pending with several of the largest trans-continental railroads for representation in the same store. This arrangement is similar to the Railroad Administration during the war.
The store has a frontage of 81 ft. 6 in. on Madison Avenue and 146 ft. 6 in. on 44th Street. The Canadian Pacific Building will contain over 400,000 square feet of rental area and will be the most up-to-date office building in the Grand Central District. Many offices and much space have already been leased to influential corporations, and it is said by the agents that other important leases are now pending.
