Mr. Gordon Potter and brother Owen have gone to work at Bloomfield.

Mr. and Mrs. Albert Wamboldt, of Clementsvalle, spent Sunday with her sister, Mrs. John Riley.

HOBO WAS MILLIONAIRE

Arrest in Paris Led to Vindication of Story.

Paris.—Arrested at Bordeaux as a vagabond and sentenced to three months' jail, a man of Spanish nationality, having every appearance of a real hobo vigorously protested, saying he was a millionaire from Madrid. "I am called de la Torre," he said, "I possess a bank account of more than a million pesetas in Madrid." An investigation proved this correct. The "hobo" possessing a fortune at the present exchange rate, worth 2,500,000 francs, was released with apologies by the magistrate.

CAUGHT SETTING HIS NINTH FIRE.

Escaped Lunatic Planned Big Blaze For Chicago.

Chicago.—William Mollermer, said to be an escaped inmate of the state hospital for the insane at Kankakee, was caught today after his ninth fire in the course of a few hours.

The youthful fire fiend—only 19 years old—readily admitted to the police that they got him just in time. Tomorrow, he said, he had intended to crown his career by watching a large loop retail store go up in flames. "I tried to do some shoplifting in that store," he explained. "They would not let me get away with it. It is a big rich store like that can let a poor fellow like me take something for nothing, they ought to be burned out."

He was captured as he fled from the alley at the rear of the Chicago Daily Journal office. A small blaze, which he had kindled was making headway when a watchman saw Mollermer running and became suspicious.

ESCALLOPED MACARONI WITH CHEESE.

1½ cupsful Borden's St. Charles Milk
3 cupsful cooked, drained macaroni cut in two-inch lengths.
1¼ cupsful grated American cheese
1½ tablespoonsful flour
1½ tablespoonsful butter or butter substitute.
½ teaspoonful salt, scant
½ teaspoonful pepper
Few grains paprika
Make a white sauce of the flour, butter, seasonings and the milk undiluted. Stir in the macaroni, thoroughly oil a rather shallow baking dish, put in a layer of the macaroni, then one of the cheese, continuing in this way until all is used and making the last layer one of cheese. Bake in a moderate oven until browned, about thirty five minutes.

Spanish Cream.

1¼ cupsful Borden's St. Charles Milk diluted with 1¼ cupsful water
½ teaspoonful salt,
½ cupful sugar
3 eggs
1½ tablespoonsful granulated gelatine
1 tablespoonful vanilla.

Let the gelatine stand in the milk for five minutes, then scald the mixture. Combine the egg-yolks, sugar and salt with the scalded milk, and cook until slightly thickened like a custard. Then stir the mixture into the egg whites beaten stiff; add the vanilla. Turn into individual moulds which have been dipped in cold water and when set unmould and serve with light cream, or any preserved fruit.

Mirard's Linctant for Dandruff.

ELIMINATE THE NON-PRODUCER. GAME LAW AMENDMENTS, 1924.

(Experimental Farms Note.)

Probably the greatest hindrance to the profitable keeping of poultry on the farm is the retention of a lot of birds that are poor layers, due either to their being too old or of a type to produce meat rather than eggs.

The production of eggs is the end of the poultry business in which the most profit can be made, so that a heavy egg producing type in the type that is best suited to ordinary farm conditions.

Generally speaking, the pullet year is the most profitable period of a hen's life. It is advisable, therefore, either to mark the chicks when hatched, using a different mark for each year, or to band the pullets when they are put into winter quarters, so that at culling time the age of the different birds may be seen at a glance and only those that are required for breeding purposes retained after the first year's production.

For the careful breeder the use of the trap-nest is the logical means to cull the flock but the ordinary farmer does not use trap-nests so that reliance must be placed on physical characteristics. The high producer will be found to be of an active disposition, early of the roost in the morning and late to go to roost at night and always busy. Her head will be clear cut, face smooth and free from wrinkles, with bright prominent eyes, skin soft, pliable and of fine texture and a general appearance of health and vigour.

Cull all birds that show a lack of vigour, a sluggish lazy disposition, a coarse rough head with overhanging eyebrows, an inclination to break down behind, or that show heavy deposits of internal fat, as evidenced by a thick skin and an abdomen that is hard and firm to the touch. In contrast to this the heavy layer will have skin that is fine in texture and the abdomen will be soft and pliable. This last feature is one on which great weight should be placed, but in calling reliance should be placed on a combination of features rather than on any one feature.

WOOD-CUTTER KILLED BY UPROOTED TREE

New Germany.—Near Nine Mile Lake on Saturday, Albert Frank of Parkdale, was killed instantly in a most peculiar accident. In the recent heavy windstorm a large beech tree was uprooted. Embedded in its roots was a huge stone weighing about seven hundred pounds, while across the trunk and lying at right angles was a similar tree.

The victim of the unfortunate accident was, with some other men of the district, obtaining a supply of firewood. While his companions were sawing Frank was down in the spacious cavity in the ground left by the large tree and was cutting away some of the roots. In some manner, probably from the lopping off of the heavier branches of the tree bearing on large trunk, the latter became unbalanced and the weight of the stone brought the large tree into a nearly upright position as it fell back into the hole, crushing under its immense weight the body of the unfortunate man. His body was with some difficulty extricated and was carried to his home in Parkdale.

The funeral service was held Monday and was largely attended. He is survived by his wife and four young children. Mr. Frank was about forty years of age.

TEN MILLION CIGARETTES SEIZED

A few days ago the Custom officials at Brockville forwarded to Ottawa about ten million cigarettes of American manufacture, which had been seized at that point.

This large quantity was collected in the space of a little over two months.

Those best informed on the subject claim that there are from five hundred million to seven hundred million cigarettes smuggled from the United States into Canada annually, replacing an equal quantity of cigarettes of Canadian manufacture.

The seizure made at Brockville during the past two months would seem to indicate that this estimate is, if anything, below rather than above the mark.

Five hundred million cigarettes brought unlawfully into Canada represents a loss in tax to the Dominion Government of the huge sum of \$3,655,000.

OBITUARY.

Rev. S. C. Ingersoll.

Berwick.—Rev. S. C. Ingersoll, a retired minister of the Pentecostal Church of the Nazarene, Stamford, Conn., passed away quite suddenly here on Friday morning, Sept. 5. Mr. Ingersoll, who was eighty years of age, came here to reside in the early part of the summer, and a little over a month ago, married Mrs. R. Bligh. He seemed in good health for a man of his age, but on Thursday had a slight shock of paralysis, which resulted in his death.

Mr. Ingersoll was twice married and has sons and daughters living in the United States. A brief service was held at the home on Monday morning by the Rev. F. M. Webster after which the remains were forwarded by the morning express to Stamford for interment. Mrs. Ingersoll accompanied them.

SAWMILL FIRE LOSS \$5,000; NO INSURANCE

Aylesford.—Early Tuesday morning the saw mill belonging to Roy Meister, in the Woodworth Road, was totally destroyed by fire. The fire was discovered by Mr. Crocker, who was sleeping in the cook-house close by, but when first seen it had such a hold on the buildings that nothing could be done to save them, and the mill was soon reduced to a heap of ashes. Vigorous efforts were made to save as many barrel staves as possible, but in spite of all that could be done, several thousands were destroyed, although the efforts of the few men who were on the spot, resulted in rescuing a large number of staves, as well as a good number of logs, and getting them into a place of safety.

Much of the machinery was destroyed and the remainder considerably damaged. The loss is probably about \$5,000, and there is no insurance. This is the second mill in the district to be destroyed by fire within a fortnight.

The Mothers

of this community are the buyers of most of the goods required for the home, themselves and the children—and, in large measure, for the men as well.

These women are the closest readers of the local newspaper. A message in "THE WEEKLY MONITOR" is certain to be read by the very people the home merchant must reach with his "store news."

ADVERTISING is the bond of confidence that ties your store to the homes of the community. The homemakers expect to be invited to your store. Are you willing to be shown that?
