

PHYSICAL LIFE OF WOMAN.

OPINION OF S. W. BUTLER, M.D.,

*Editor of the Philadelphia "Medical and Surgical Reporter."*

I have carefully examined "The Physical Life of Woman," and find it a work at once thoroughly representing modern science, and eminently adapted for family instruction. It is well suited to female readers, to whom it is specially addressed, both in the matter it contains and in the delicacy with which points relating to their physiological life are mentioned.

FROM REV. GEORGE ALEX. COOKE, D.D., D.C.L.

PHILADELPHIA, Sept., 1869.

DR. GEO. H. NAPHEYS,—

*Dear Sir:* I have carefully read your work entitled "The Physical Life of Woman," and as the result, I must candidly say that I believe the information it contains is well calculated to lessen suffering and greatly benefit the human race. I know there are some falsely fastidious persons who would object to any work of the kind, but "to the pure all things are pure." You have done your part fearlessly and well, and in a popular manner, and I trust that your work may be productive of all the good you design by its publication.

Very faithfully,

GEO. ALEX. COOKE.

DR. GEO. H. NAPHEYS,—

*My Dear Sir:* I have perused with considerable care and pleasure the work on the "Physical Life of Woman," and feel no hesitation in pronouncing it admirably composed, honest, succinct, refined and worthy the companionship of every lady of this age. I hail its appearance with gratitude, and look upon it as a valuable contribution to those efforts which are making in various directions to elevate the tone of morals of the nineteenth century, and to enable mothers to discharge faithfully the duties they owe to their children.

Sincerely yours,

GEORGE BRINGHURST.
