## TINNED WIRE

We have just bought a large lot of Tinned Wire, No. 30, which seems to be the number best suited for wiring frames and we are able to sell it very low:

Spools holding one pound, each 300 one-half pound, each 180 

The spooled wire is much more convenient than thatnreels as there is no danger of tangling. These prices will supersede those in our price list.
