

Church and Sunday School Music.

Of course in a book business that is just developing, one is not expected to carry a large stock of all books published. The dealer must feel his way. Find out what books are likely to be demanded then keep those. The Evangelist Pub. Co. have found that for our Canadian trade, the church music that is demanded is the new "Christian Hymn and Tune Book," complete in three parts. For Sunday School music, the only book we keep in stock is "Gems and Jewels," the latest and best book yet published by Fillmore Bros.

For church music we have only had one order as yet for any book other than the "Hymn and Tune Book," and for Sunday schools we have only had two or three orders for any books other than "Gems and Jewels." So for this reason the only music books we intend keeping in stock are those mentioned above. Of course we will get our customers any books they wish, but they will have to send us their orders early and wait till we can get them from the States. Now it will be a favor to us and a benefit to all the churches and Sunday schools in Canada if they get these books. We will always have them ready for you, and every church will be using the same books. In this way parties moving from one congregation to another will not need to be getting new books. We, who plead that all should be one, should use one book.

Every one using the "Hymn and Tune Book" should get it complete in three parts. This is likely to be the book that will be used for years. In that this is true it is wise to get the books in good strong cloth binding. They are now sewing the board binding just as well, but it is our judgment that cloth binding is cheaper in the end. Let all the churches get well supplied with books and it will add greatly to every service. Some places we have been there are so few books that strangers have to do without any. Or if there are any, some of the leaves will be torn out. Or perhaps the hymns sung will be out of part third when a number of the books in the seats have only the first two parts. All these things tend to injure the work, whereas we should do everything in our power to help it.

The Mammoth "Cyclopaedia."

Orders are continually coming in for these books. They have assisted us very much in increasing our subscription lists. Also many of our subscribers have sent us a dollar extra and got these books. We have yet to learn of one who got them who was not satisfied; many were delighted with them. It is remarkable how so much good reading matter can be sold for so little money.

Some have written asking if they could still get them. Yes we will give them as long as there is a demand for them. Also some who have paid their subscription in advance have asked if they could get the "Cyclopaedia" by sending one dollar. Yes, every subscriber can have them for one dollar. We will have another shipment on hand in a day or two. Send at once before they are all gone.

facto which has also a sign that should be seen: "But that ye may know that the Son of man hath power on earth to forgive sins (then saith He to the sick of the palsy) Arise, take up thy bed, and go unto thy house. And he arose, and departed to his house."

He also asserted, what no one else on earth ever could assert, that He had power to raise the dead, and proved by the appropriate miracles of raising the damsel who had just died; the young man who was on the way to the grave, and Lazarus who was already in the grave, having been dead four days.

It was of the utmost importance, in that all mankind might be saved of salvation through the work of Jesus, that it should be demonstrated that He had ascended into heaven, and that both Lord and Christ, and was
