With 1877 the Government issued a new set of a new design. The values were:—

1 cent, brown.	25 cents, rose.
2 cents, lilac.	50 " green.
5 " orange.	85 " violet.
10 " blue.	100 " black.

1882 brought out another type in new values, the design was the figure of value in oval, values were:—

2 cents, green.
3 " red.
6 " blue.

These last two issues will be found without surcharge, surcharged with date and number only, with date and name of town, and with name of town only.

In 1884 the familiar large green stamp was issued in fifteen values.

1 centavo, green.	20 centavo, green.
2 " "	25 " "
3 " "	50 " "
4 " "	1 peso, blue.
5 " "	2 pesos, "
6 " "	5 " "
10 " "	10 " "
12 " "	

As may be imagined the difficulty in distinguishing between the values was very great, and they thus remained for only about a year, when a new issue took place. Same plates were used for printing but different colors for each value were used:—

1 cent, pale green.	6 cent. brown.
2 " carmine.	10 " orange.
3 " red brown.	12 " olive brown.
4 " red.	25 " blue green.
5 " blue.	50 " vermilion.
