

ELECTRO-THERAPEUTIC INSTITUTION,

231 JARVIS STREET, TORONTO,

For the Cure of Diseases Not Cured with other means (or other Electrical Appliances.)

This Improved Family Battery is beyond a doubt superior to any made for the cure of diseases, because it produces currents of a quality that takes kindly to the nervous system, and anastomoses readily with the nerve currents, thus appropriating to its purpose a vast power of directly increasing the vital principle in the patient. So perfect is the control thus established that a fatal crisis or collapse may be, so to speak, bridged over and a cure effected when all other means have failed.

Send for a long list of testimonials of recent cures, and references such as these:

PROFESSOR VERNOV.

DEAR SIR,—I consider it my duty to you and to the public generally to give a short history of my case. I found myself gradually failing physically, although my mental powers, so far as I or my friends could judge, remained intact and undisturbed. Soon I began to recognize the alarming fact that I was gradually sinking into the grave, having lost forty pounds of flesh in four months. I suffered severe neuralgia in one or both temples, shooting down into the shoulders occasionally, of the most excruciating character, accompanied by morbid sensations in my extremities. After other means had failed I thought I would try electricity, knowing it was a powerful remedial agent when cautiously and skillfully applied, and having ascertained that you were the most successful electro-therapist in Ontario, I thought I would, if possible, obtain your services, and you very kindly and promptly visited me, and proved on that occasion your complete mastery of nervous diseases. Through your instructions as to the application of the battery, and from several treatments received at your office after I was able to visit you, I am now in very good health. I remain, as ever, thankfully yours,

L. D. CLOSSEN, M.D., Toronto.

THE QUESTION SO OFTEN ASKED. (From *The Empire*.)

Does electricity cure disease, and how? Professor Vernov, the electrician, who has spent a valuable life in the development of electrical appliances, has thoroughly demonstrated by practical tests that electricity can and does cure disease, and often in cases where the ordinary medical sciences have failed. The electrical appliance constructed upon the latest scientific principles, invented by Professor Vernov and operated by improved medical batteries, combined with a thorough system of electropathic treatment, are at least fifty years in advance of all other apparatus known at the present day, and in many practical tests upon critical cases the value of the advanced instruments has been thoroughly proven. That the knowledge of the forces and value of electricity as a medicinal curative property is yet but imperfectly known is conceded by all scientists, yet to Professor Vernov is due the credit of having advanced this practical science to a very great extent.

LESSONS IN PHRENOLOGY.

Examinations, Oral or Written.

MRS. MENDON, 236 McCaul Street, Toronto.

THE HIGH SCHOOL

Drawing Course.

Authorized by the Minister of Education.

The course is now complete:—

No. 1—Freehand.

No. 2—Practical Geometry.

No. 3—Linear Perspective.

No. 4—Object Drawing.

No. 5—Industrial Design.

These books are all uniform in size and style, and constitute a complete uniform series. The same plan is followed through them all—the Text, the Problems, and opposite the Problems, in each case, the Exercises based upon them. The illustration is upon the same page with its own matter, and with the exercise, in every case, is a space for the student's work. Each copy, therefore, is a complete textbook on its subject, and a Drawing Book as well, the paper on which the books are printed being first-class drawing paper. The student using these books, therefore, is not obliged to purchase and take care of a drawing book also. Moreover, Nos. 1, 4 and 5 are the only books on their subjects authorized by the Department. Therefore, if the student buys the full series, he will have a uniform, and not a mixed series covering the whole subjects of the examinations, and edited by Mr. Arthur J. Reading, one of the best authorities in these subjects in this country, and recently Master in the School of Art.

Price, Only 15 Cents a Book.

The Retail Trade may place their orders with their Toronto Wholesale Dealers.
