AGRICF ENLIGHTENMENT .- In an age of anlightenment like the present, the value of electricity, and of compounds containing an electric principle as remedial agents, is widely appreciated. Foremost among the latter, both as regards the thoroughness and safety of its effects, and the rapidity of its action, is THOMAS' ECLECTRIC OIL, a widely popular external and internal remedy for coughs, colds, sore throat, asthma, croup, and other affections of the breathing organs; an invaluable outward specific for lame back, soreness and contraction of the muscles, and every variety of sore or hurt; a prompt source of relief for pain, and a medicine upon which the public can also implicitly depend in cases of rheu. matism, neuralgia, piles and kidney complaints, inflammatory affections, dysentery, and many other ailments. Its persistent use eradicates the most obstinate of the disorders to which it is adapted. Physicians speak or it in the highest terms. Moreover, horsemen and stock raisers administer it with the greatest success for diseases and hurts of horses and cattle. Sold by all medicine dealers. Price, 25 cents. TRUE WITNESS OFFICE, TUESDAY, October 21. Financial.

The continuous flow of gold drawn from the The continuous flow of gold drawn from the Rank of England, to America, continues to decrease the proportion of reserve to the Hability of this great institution. During the past week the reserve was reduced from 51 to 51 1-18 percent, and on the list Sept., it stood at 52 It is reliably stated however, that the decrease in the bullion is only what is usually experienced at this season of the year; not with tanoing the heavy sulpmen s, the amount of bullion in the Bank on the 1st Oct. was fix,00,000 more than at the corresponding date of last year. state of the money market it is not likely that any enange will be made in the rate of discount at present,—unless business should very materially improve, to case an active demand.

The local financial situation has not undergone any essential change since our last reference, and offers but little scope for comment. The attention of financial circles has been largely directed during the week to the trial of Sir Francis Hincks, which lasted four days, a report of which appears on another page. The jury, following the judge's unfavorable charge, returned a verdict of 'guilty" against the venerable financier, much to the surprise of almost everybody acquainted with the evidence, and who had closely read the indictment. The indictment seemed to us a rather foolish one from the beginning, inasmuch as the Director's of no Bank in the world, are or can be held directly responsible frithe accuracy of the items set forth in Government statements, and especially when so many agencies are involved. The responsibility, so far as any criminal action is concerned, at all events, must rest upon the General Manager and acconditants. If the indictment had charged the directors with falsifying statements of the affairs of the bank, made to the shareholders over their own signatures, both at the astannual meeting and since through the public prints then we think there would have been some grounds for a thorough legal investigation, and it might have met the case before the shareholders and the public generally. As it is, leading backers and all well-informed financial meuregard the verdict as largely the result of popular feeding and intignation, and it is understood that efforts will be made by the able counsel for the defence to have the conviction quashed.

-The Great Western Railway's half-yearly report has been issued. The half-year's net revenue exhibits a deficiency of over £10,000. The credit balance from the previous half-year reduces this to £6,000, which forms a charge against future revenue. The dividend on the preference stock was also carried forward to the debt of the next half-year. The Directors look hopefully on the prospects of the current six months.

WEEKLY REVIEW OF THE CITY

WHOLLSALE TRADE.

TUESDAY, October 21. Nearly everything in this market is "booming." If we are to judge from the activity of demand, the unsettled but advancing tendency in values, the jubilant spirits, and firm and coufident feeling of holders, which characterize nearly all leading lines of business, we may safely state that the long-looked for good times are being feit once more. This is but the beginning and what the end shall be rests to alarge extent with our importers and business men themselves. If they are content now that the trade of the country is once again in a healthy condition, and established for the most partupon a sound basis, to do simply a legitimate and prudent business instead of entering into wildeat schemes to make money, we may ere long, one and all, again enjoy p osperity. It is now of the grea est importance that Canadian farmers should market their grain crops. There has been comparatively little

GROCERIES.—The demand from both jobbers and the retail trade continues active, with a fair and upward tendency in prices. There is still a brisk, heatiny trade being done in teas of nearly all kinds, and prices are steadily advancing During the last lew days an advance of 2d per 1b was established in London, rng., and prices went up again 4c per 1b in New York, where slocks of Young Hysons and Japans are reported to have been almost cleared out. There are no grades at under 50c to be had in New York to day, and we are advised that there are prospects of still nigher prices every day. We refrain, therefore, from giving quotations. The demand for sugars in this market at present is very active, at advanced prices. Large sales of the was gars have taken place at \$2c to \$1c per 1b. A cargo of 100 tons Javachanged hauds, besides 600 hogsheads of Cuban, Porto Rico and Barbados at \$6c for dark and 7/2c for cnoice. Anadvance of from 1c to \$1c per 1b. has also taken place in refined yellows. Granulated too sold last Friday at an advance of 1c, at \$1c to \$1c at 14 das by refuers. The advance is due to a rise of 2s to 3s in values in Great Britch. We quote: Cut loaf, \$1c to \$1c

HIDES AND SKINS.—Trade has been rather active here during the past week, within which period prices have advanced about 50 per cent. Green hides, which are very scarce, are stilling from first hands at \$10 for No. 1, \$8 for No. 2, and \$8 for No. 3. Shrepskins rule steady at about 70c t-75c each; lambskins 60c, Calfskins are worth 12c to 14c per 1b.

HOPS.—There is not much business to report yet, but the outlook seems better bo h for old and new crop. In New York there is some excitement over an advance of from 2c to 3c per lb, and brewers seem more inclined to purchase. Sale, here have been made as high as Suc for this season's growth, and as low as 2cc.

this season's growth, and as low as 220.

LEATHER.—Trade has continued steady; a fair amount of business has been done at firm, but generally unchanged prices. Manufacturers boucht so largely recently while prices were advancing that for the moment the demand is not quite so active as a week ago, and no sales for speculation are reported. The market both here and in New York is quiet but firm, with a slightly increased activity in lower grades. We quote fine, cheese here at lic to 12 c. In butter there is a quiet movement and business is about steady. Fine butter is scarce and a much better trade could be done if the supply was more equal to the demand. Good to fine Eastern Townships may be quoted at 170 to 190, Brock ville and Morrisburg do, 16c to 17c; Western 13c to 14c. Fancy lots are worth from 1c to 2c higher. of the state of trade or current prices.

WINES AND LIQUORS.—The demand for all kinds has increased, and prices, especially for brandles, have also participated in the upward movement which character zes other lines of business. There will be no crop of 1879 brandles, consequently prices of old brandles have advanced 3 francs per case in Cognac within the past week or 10 days. In this market Hennessy's brandy now sells in large lots at \$10 50 to \$11 per case, and Martel's at \$10 to \$0.50; other minor brands have advanced in proportion. Buyers of sparkling wines are not purchasing largely at present as they are daily expecting the extra duty of \$2 per case to be removed.

LUMBER—

duty of \$3 per case to be removed.

LUMBER—

Owing to the short crop of timber in the States, there has been a marked improvement in the demand for lumber at the mills throughout our lumbering districts this fall to supply the Amelican markets; but dealers in the city here report that the seneral retail trade has not improved much as yet; that there has not been much building going on, nor much increase of manufacture. Large stocks were brought into the city jan's last year, prior to the change of the city jan's last year, prior to the change of the city jan's last year, prior to the change of the city jan's last year, prior to the change of the city jan's last year, brief to the change of the city jan's last year, brief to the change of the city jan's last year, brief to the change of the city jan's last year, brief to the demand for lumber at the yards about \$1 to \$150 per M. during the past month. The present fine weather is also mentioned as a drawback to the demand for lumber at the yards riolders here are confident of a still further rise in values, and accordingly are not trying to decrease their stocks.

THE FARMERS' MARKETS. Bonsecours and St. Ann's-Prices at Farmers' Waggons, Rtc. Tussday, October 21.

The supply of either cereals, vegetables, fruit, or dairy produce at the farmers' markets this morning was not quite so large as usual of late, still the offerings were more than sufficient to meet the wants of buyers, for more than half were yet unsold at noon. Many of the market gardeners are still busy at home now taking up root crops. Prices for grain, mests, fish, and vegetables of all kinds remain as quoted last Friday. New yarn of various colors was offering to-day at 10c per lb; farmers' woollen socks sell at 25c to 30c per pair, and mittens at 30c do.

The apple export trade continues brisk at advancing prices. Over 4,000 brls were shipped from this market to Liverpool and Glasgow last week, and advices received yesterday from Liverpool are very encouraging. The St. Lawrence apples are not as much liked in England as the various kinds of Pippins and Montreal Fameuse. Pippins recently shipped sold at 23s to 30s per bri, and the Fameuse brought 20s. Prices current here range from \$2.50 to about \$2.75 per brl for winter, and \$1 to \$1.50 for full fruit. The following are the prices, corrected up

THE CATTLE MARKETS. St. Gabriel.

Monday, October 20. There is a lull in our cattle export trade at near future. Of course the chipments to Europe are expected to fall off at this season

would still command prices, but these are very difficult to obtain here now. He further stated that in many localities throughout Lancashire the wheat was still green in the fields, with no more signs of ripening than two months ago, and where it has been reaped, the grain is shrivelled up and is little better than common chicken feed. He also reports the hay, oats and other crops damaged to a like extent with the wet weather, and that it is impossi-

at 4%c per 1b. The remainder were unsold, at noon. We hear of only one shipment as yet to be made this week-a leading exporter will forward to Liverpool on Friday next 106 head cattle and about 140 sheep per the s.s. Phouician.

The 200 head of cattle left over from last Thursday remain on the pastures, waiting for the export demand to spring up.

Viger. TUESDAY, October 21.

A very fair business in five stock was done at this market yesterday. The attendance of local butchers was good, and under a fairly good de-mand, sales were made at steady, and in some butchers was good, and under a fairly good demand, sales were made at steady, and in some cases, good prices. Receipts were:—#60 head of cattie, of which fully one half were driven from St. wabrie! Market; *00 sheep and lambs, nearly all lambs; 10 rough hogs and a like number of calves. A few head of cattie changed hands at 4c., but the range of prices generally paid was 2c to 3jc per lb. Lambs sold at \$2 to \$3.50, as to size; calves from \$3 to 8 each as to size and quality, and hogs, which were all rough, from \$4 to 8 each. RJ Hopper & Co sold 9 cattle at \$2 each, or at 3c to to 3jc per lb; W Jac v, of Linds-y, sold 16 cattle at 3jc to 4c per lb; L Soper of Brock ville, sold 15 small cattle at \$14 each, or at 2c per lb; Mr N Taillefer bought a carl had of cattle from W Mc-Clanagan at \$19 50 each, and a carload from R Balderson, of Perth, at about the same figure; weighing 2.550 lb; Alvin Wiltse, of Delta, sold 32 cattle at about \$19.50 each, or at \$2c per lb.

10-day there were about 40 head cattle, including a few mi'ch cows, under offer The cattle were the leavings of yesterday and sold at the same prices. One milch cow brought \$52.50; for first-class the range was from \$35 to 45, and for seconds from \$20 to about \$30 each. About 40 lambs changed hand-at yesterday's prices, and lincalves, of better quality than those mentioned above, were disposed of at \$4 to 10 each.

Montreal Horse Warkst.

Monday, October 20. A better trade in horses is reported to have been done in this city during the past week than during any previous week for over two months past. The supply of good working horses for business men and of heavy draught horses has improved considerably and was fairly large, so that the majority of American buyers were able to fill their orders by Thursday last and return home. Prices are also better than for some time As observed from the weekly past. list of shipments published in Saturday? Post the totals show an increase of 52 horses and of \$3,017 30 compared with the shipments during the week previous. From the American House yards there were 6 carloads shipped during the week, as follows :- E Snow, Boston, 2 cars; J F Baker, Boston, 1 do; Messrs Fuller and Mason, of Mass., each 1 car; Adam & Austin. Hartford, 1 do; and W H Smith, Louisville, N Y, will ship 1 carload this evening. There are to-day about a dozen American huyers at these yards, and the demand continues good for all kinds, but especially large draught horses. At the City Corporation market 3 horses were sold

privately during the week at \$12, \$42 50 and \$80 each respectively. At the weekly suchorse at \$42.

Following is the list of horses shipped from this city to the United States through the American Consul during the past week :-October 13-22 horses at \$1,488 80; 2 at \$117. October 14-20 at \$1,725 50; 21 at \$1,727.50. October 15-10 at \$758. October 16-12 at \$766.50; 10 at \$650; 19 at \$1,520. October 17-3 at \$120; 21 at \$1,637; 2 at \$95; 2 at \$85; 6 at \$212. October 18—4 at \$236. It may be seen from the above that the total present which does not promise well for the number of horses shipped was 154, at a total value of \$11,138.30, against only 102 horses, costing \$1,121, for the week previous, show

ing is reported good, with the supply equal to the demand; prices rule steady and un-changed at \$3 to 4.50 per 100 bundles. Occasionally \$5 is paid for a choice lot. Yesterday (Friday) about 60 loads of hay and straw were brought to market. Prices for pressed hav and straw are nominally unchanged; quoted at \$8 to 9 per ton for the former, and \$5 to 6 do. for straw.

One party purchased four rafts about a week ago but the transaction only came to light within the past few days. Prices paid vary from 12;c to 20c, according to quality and size. Some red pinhas changed hands at 15c per foot. There is very little doing in oak and other woods as holders are holding out for advanced rates, which the market of Great Britain will not warrant being paid at press it. There have been some transactions in pipe staves, 1 at \$2.25 to \$2.30 per mill.

Cean Frights—The fail fleet is going to be short of the usual average, and any seeking ton mage coming this way now would be certain of a paying freight. We may quote nominally:—Liverpool, 25s 6d for timber; London, 28s for timber, 75s for deals; Plymouth, 27s 6d for white pine, 28s for deals; Plymouth, 27s 6d for white pine, 28s for deals. Plymouth, 27s 6d for white pine, 28s for deals. Plymouth, 27s 6d for white pine, 28s for deals. Plymouth, 27s 6d for white pine, 28 for d

Summerlee No 1, worth \$20 per ton; very little in the market.

Fire brick—Carr brand selling ex-wharf at f-on \$26 to 7 per M; inferior quality selling at \$24 to 25 per M.

Fish—During the past week arrivals were about 400 tariels green codfish, which were sold at \$4 15 to 4 25 for No 1; \$250 for No 2. Salmon is coming in slowly, a small parcel from the North Shore was readily taken up at \$15 50 to 14 50 and \$13 per barrel for No 1, 2 and 3. It table fish we have no receipts to report, Labrador herrings are wanted, and so far no ve sels have arrived from the coast. The Esquimaux Point vessels, which were fitted out for the herring fishery, have returned without any fish.

Olls—The receipts are very light, and consist of c d oil only, which has been taken up at 35c to 340 per gallon.

order of the day, but notwithst-nding prime a d selected animals have been sold fairly readily. The sheep market has been very quiet, all classes with the exception of very choice drooping in value.

Liverpool, October 6.—Cattle at market, 4,05; sheep at market, 13,857. Best beef, 5d to 7d per 1b; best mutton, 5d to 8jd per 1b. The supply of stock larger than on last Monday. The demands very slow and prices of every description much lower, the decline affecting midding and inferior quality more than the best.

1-LASGOW, Thursday, October 9.—Cattle at market, 1,760. Best beef, 8d to 8jd per 1b; inferior and secondary, 7d to 7jd per 1b. Butter, 8d to 8jd per 1b; inferior and secondary, 7d to 7jd per 1b. Butter, 8d to 8jd per 1b; inferior and secondary, 7d to 7jd per 1b. There was an ordinary number of cattle at market, generally of middling and inferior quality. Anything good in demand and sales readily effected at prices ra her higher than last week Inferior very dull. Fair supply of sheep. Good lots source and in demand at last week's prices. Inferior dull.

GENERAL REMARKS—The supplies have been [From Hodgson Bros.' Circular, October 4.]

Last Friday's Liverpool grain circular says -The wheat markets this week have been wild and excited in all the leading centres. and an extensive business was done in all positions for consumption, speculation, shipment and on passage at rates two shillings per quarter over the quotation of a few days ago. On the spot corn suddenly advanced from fourpence to fivepence. To-day millers have taken wheat of all descriptions freely at an advance of sixpence on Tuesday's quotations. A number of parcels were purchased for holding over, and several cargoes of Californian on passage were taken at a similar improvement. Flour was in considerable request and two shillings per sack higher. Corn maintained the previous advance, and a fair business was done.

Among the Luxuries of Life.

But a brief period has passed since when a But a brief period has passed since when a month's time was necessary to accompain a lorney of few hundred miles and then we went lumbering over the rough country highways on springless stats. Now the same journey is made in sumptuous drawing room cars, with all the comforts and invurted brought to us by servants. Once upon a time when we found it necessary to our health we set apart a brief period to "doctor up" and then came as ruggle with that awful Castor Oil. Now we slip it from the bottle while we continue regularly at our yoza. bottle while we continue regularly at our voca-tions. But it is Scott & Boune's Palausble Chastor the we take. It is one of the luxuries of life that is afformed at 25 cents.

DEVINS' VEGETABLE

WORM PASTILLES

29-L

Approved of by the Medical Faculty.

Are now acknowledged to be the safest, simplest, and most effectual preparation for the destruction of worms in the human system.

They are Purely Vegetable,

They are Agreeable to the Taste, They are Pleasing to the Sight. Simple in Administering and Sure and Certain in their Effect.

In every instance in which they have been employed they have never failed to produce the most pleasing results, and many parents have, unsolicited, testified to their valuable properties. They can be administered with perfect safety to children of most tender years.

CAUTION-The success that these Pastilles have already attained has brought out many spurious imitations; it will be necessary, therefore, to observe when purchasing that you are getting the genuine, stamped "DEVINS."

To Mothers.—Should your Druggist not keep them, I will send a box of DEVINS' WORM PAS-TILLES by mail, prepaid, to any address on receipt of 25 cents.
