CABLE TELEGRAMS.

[Specially Reported for and taken from THE MONTREAL DAILY POST]

LONDON, Nov. 6.—The United States Government having thought proper to send Sackville a safe conduct, to use Secretary Bayard's expression, the representation of Great Britain at Washington passes abruptly from a diplomatic to a political character...

England is represented at Washington by a Charge d'Affaires, the interests of the United States here probably being entrusted to Henry White, acting in a similar capacity.

MISS PHIPPS, Miss Cavendish, Miss Drummond and Miss Moore have no intention whatever of renouncing the fortunes left them by the late Lord Sackville.

LONDON, Nov. 7.—When the Parnell Commission resumed yesterday Attorney-General Webster solemnly complained that certain newspapers had been commenting on his witness in a manner tantamount to intimidation.

PARIS, Nov. 8.—The fair women of Paris seem to be going mad over Prado and his schemes of being guillotined. The court room was crowded with stylishly dressed women.

solidity was invincible. The object of yesterday's evidence and of much of a similar character to come, is to connect the Land League directly with specific crimes. The nearest approach to proof was made to-day, when it was shown that a man arrested in connection with the Land League masked murders was paid money by a leading member of the Ladies' Land League.

LONDON, Nov. 10.—From yesterday's proceedings of the Parnell Commission it seems likely that the inquiry hereafter will go on in a cloud of sparks knocked out by partisan conflicts.

WHY DOCTORS SO SELDOM SUCCEED IN CONTACTING DISEASES.—People sometimes express wonder how it is that doctors so seldom take contact with epidemic diseases, although they are constantly exposed.

A MAN OF A THOUSAND. When death was hourly expected, all other remedies having failed, and Dr. H. JAMES was experimenting with the many herbs of Calcutta he accidentally made a preparation which cured his only child of Consumption.
