Te-Ri Products manufactures the FUFEL line of Canadian collector dolls. Designed by a talented Finnish artist, there are more than 70 different and delightful characters in our line. Each figure is made from felt, felt and foam rubber stuffing, trimmed with reindeer hair to create wildly imaginative beards and hair styles.

Measuring 15 to 18 inches tall, FUFEL dolls come in both hanging and the increasingly popular standing styles. A group of 25 different mini-doll characters is also manufactured by Te-Ri to compliment our larger items.

Te-Ri uses the tanned legs and hides of reindeer to create door knockers, chimes and Christmas hangings that have gained wide popular appeal amongst giftware retailers.

Recently, we have commenced manufacturing a wooden reindeer night light with a Rudolph-like flashing nose. Approved by the Canadian Standards Association, it comes in two sizes and is a truly distinctive Christmas ornament.

*Wildly imaginative hair styles make these collector dolls lovable additions for any home.*

1987 was a milestone year for Tilley of Canada Ltd. because it marked our Golden Anniversary as a quality Canadian leathers goods manufacturer. Almost any firm can exist for 50 years, but it is a truly significant achievement when a company shows outstanding growth, diversification and improvement in each year since its inception.

At Tilley of Canada, we combine useful design, the latest technology and dedicated craftsmanship to create some of the finest leather wallets, portfolios, travel kits and brief cases available. We are especially proud of the award winning TILLEY ALTERNATIVE brief case, a truly unique answer to the traditional attache case, and winner of the Design Canada Award of Merit.
