

*Proceedings on Adjournment Motion*

clerks or whatever it might be, are being reintegrated into the department, and a group of those employees are still surplus. The board has ruled that they shall be represented by the Public Service Alliance, and we have no quarrel with that as such, except that it does raise some very considerable problems. If the Alliance acts for both, we will have the situation where probably red circled employees will be performing the same jobs as employees represented by the council, who receive different rates of pay and of course have different fringe benefits and other conditions of work.

Therefore, I would hope that most of this matter can be cleared up on Wednesday without any accusations of bad faith being imputed to anyone.

Motion agreed to and the house adjourned at 10.16 p.m.

[The following items were passed in Committee of Supply this day:]

REGIONAL DEPARTMENT  
20, 25, L90, L95.
