

Coquitlam (Miss Jewett) would like me to elaborate slightly on the speech of the Member for Kingston and The Islands, who said, as reported on page 824 of *Hansard*:

The Government is willing to endanger the future of the young people in this country, and in many others presently in the workforce who are going to be needing retraining or re-education in one way or another.

So very clearly the Hon. Member for Kingston and The Islands when in opposition wanted to tell all Members of the House how important it was for the Government to increase funding to post-secondary education. She obviously wanted to

do that. I am sure that is exactly what she would want to do today. I just cannot wait for her to commence her speech, which I am sure she will want to do immediately after I resume my seat because she was very much in favour of what I explained to you today, Mr. Speaker.

Mr. Deputy Speaker: It being five o'clock p.m., this House stands adjourned until Monday at 11 a.m., pursuant to Standing Order 3(1).

The House adjourned at 5 p.m.
