

HOW TO GET AN ARTICLE IN A NEWSPAPER

"**W**RITER" has requested the Compiler of the Almanac to inform her of the easiest way to get an article in a newspaper.

We offer the following rules which we trust will prove of value:

Take the newspaper and, opening it, lay it on the floor. Smooth out the creases with the hand. Having selected the article place it in the center of the paper and carefully turn the edges over, folding them so as to make a neat package. Now, with a strong cord, take a turn about the parcel lengthwise; then one crosswise. Knot securely with a square, round, oval, or conical knot and the task is completed.

These directions, of course, apply only to small articles, such as curry-combs, sandwiches, shoes, and nursing bottles. You cannot get large articles like lawn mowers, baby carriages, and beer kegs in a newspaper.
