
"PERFECTION" Adjustable Dress Forms

The "Patricia"

No. 66

No. 66. (Patented)
Illustration shows the
"Patricia" covered in
Black Jersey Cloth.

THE woman who makes her own dresses or sews for the family, as well as a professional dress-maker, will find the Patricia a valuable assistant. It is a twelve section independently adjustable form, each part being provided with separate adjusting slides, which enables the user to procure a larger variety of adjustments than is possible with any other twelve section form.

We have sold thousands of these forms and have never had one complaint, which speaks very well for the practicability of the Patricia.

It is covered in black jersey cloth, with black enamel base and standard and nickel-plated collar and knob. All the working parts of the form are in the inside so as not to interfere with fitting over the form.

Made in 2 sizes:

Size 1 bust adjusts from 32 to 41.

Size 2 bust adjusts from 35 to 46.

This form can be covered in linen canvas at an additional charge.

See special Price List enclosed.
