SPUN ABOUT FOR 3 HOURS IN GRASP OF WHIRLPOOL

Bobby Leach Was More Dead Than Alive When Rescued After Trip Thru Rapids in Barrel—Beachy Has Narrow Escape in Second Day's Flight—Wire Artist Stuck Midway Over Gorge.

BLAZING SHIP SENT OVER THE HORSESHOE FALLS

NIAGARA FALLS, N.Y., June 28.—(Special.)—Lincoln Beachy, the fearless aviator, who yesterday afternoon performed a feat hitherto declared impossible, when he flew over the Horse Shoe Falls and under the upper steel arch bridge, narrowly escaped death in his second flight over the Niagara River, to-day.

Bobby Leach, who shot the whirlpool rapids in a barrel, was almost suffocated before he was taken from the whirlpool.

To-day, which marks the closing of Niagara's great international carnival, was hard on all three star performers whose exhibitions were witnessed by three hundred thousand people, the great Houdini being marooned for half an hour on the wire over the falls, he slid across the gorge. Leach is in a serious condition at his home here to-night, but Beachy and Houdini are none the worse for their experiences.

When Leach entered the whirlpool rapids in his steel barrel, he was caught by a giant wave, and hurled twenty feet into the air. With a splash that could be heard above the angry roar of the rushing water, the staunch red-painted barrel re-entered the rapids and was carried on to the whirlpool, buffeted from wave to wave, and severely shaking up the man slung on the canvas hammock within its dark interior.

The barrel was caught by the outer current when it entered the whirlpool, and carried around the mighty maelstrom for over three hours before it was brought ashore.

Exhausted, Leach was dragged through the small opening through which he had escaped, apparently carrying with him the day. Those who took him from the barrel thought that Leach was dead, but he soon revived and was carried on the wire over the falls, he slid across the gorge. Leach is in a serious condition at his home here to-night, but Beachy and Houdini are none the worse for their experiences.

Leach's barrel was tossed on end many times in the air, and he was hurled about in a most terrifying manner. Despairing of ever again seeing the man alive, hundreds of those watching the barrel bob about on its merry-go-round like course, left the scene.

After the barrel had been held in the middle of the whirlpool for two hours by the swirling water it suddenly shot out towards the outer edge of the pool. Several times it circled around within twenty or thirty feet of the shore before the expert swimmers, reversibly awaiting a chance to bring its human freight ashore, could grasp it.

Leach's flight, which was described in his own words to The World correspondent to-night.

A Perilous Flight.

"More than once during the half hour that I was in the air to-day, I feared that I might possibly meet with mishap. The wind was strong, almost a gale. As I rose into the air, it would have carried me had it not been for the control of my machine," said Beachy. "My first attempt to cross the gorge would surely have brought me to grief had I not used every atom of power my six-horsepower motor possessed, and turned as quickly as possible.

"As I neared the gorge there was a strong suction pulling my machine down towards the river flowing in the chasm twenty-five hundred feet below. When I noticed this, I turned my machine higher into the air and turned my machine directly around. The staunch little craft I have driven so long, in which I have so many times been rocked terribly, but I escaped being dragged into the gorge.

"When I saw that it would be impossible to fly across the river at such an altitude, I shot my machine higher into the air. I was almost five thousand feet above the ground as I soared over the river. Even at this height my machine rocked badly. It rolled and pitched; I had my hands full in managing it.

"I am glad I have accomplished what others thought impossible, but never again will I attempt to fly under the bridge.

"I want to thank The Toronto World for the manner in which my own story of my flight was handled. I consider it one of the best stories published anywhere on a flight. The World was one of the few papers that did not 'break up' what I had to say of the trip," concluded the man who has been named the King of aviators, "since it was wonderful trip yesterday."

Marooned on a Wire.

The great Houdini, who really is Oscar Williams, two-to stepelchad, was within a hundred feet of the American shore on the wire when he was sid from Canada, when he was marooned. The wire was too slack to allow him to reach shore. There he stayed until hauled ashore by ropes. When Houdini made similar trip during last year's carnival, he was marooned in the middle of the wire for forty-five minutes. He was to have made the slide to-day, hanging suspended from the wire by his teeth, with his wife suspended from his body on a trapeze, but the woman failed to make the trip, because of the dangerous footing at the landing stage.

A great grotesque and industrial parade, over five miles long, took place this afternoon. The carnival closed to-night with a reproduction of the burning of the steamer Caroline, which was destroyed by the British in 1837. A sixty-foot steamer was sent over the Horseshoe Falls ablaze.

The Toronto World

FOURTEEN PAGES—THURSDAY MORNING, JUNE 29, 1911—FOURTEEN PAGES

Merchandise by Aeroplane

NEW YORK, June 28.—The first piece of merchandise ever delivered at sea by aeroplane fell on the upper deck of the giant White Star liner Olympic to-day, as she steamed thru the Narrows, outward bound, on her maiden eastward passage.

W. Allee Burpee, of Philadelphia had contracted for delivery before sailing, of a New York and Philadelphia department store, which in turn engaged the services of Thomas Sopwith, the English aviator. With Richard R. Sinclair, secretary of the Aero Club, holding the package, Sopwith rose from the aviation grounds at Garden City, sped out the Olympic as she bore down the Hudson, timed his flight to meet her in the Narrows, and set his course over land and sea.

Even from the pier end, passengers on the Olympic are no more than animated dots of white and black to those on shore. Presently there was to be seen among those dots a scurrying to and fro, as bits of paper blown by the wind. Sopwith had been sighted bearing down on them from aloft. Working nearer and nearer, he circled the ship as low as he dared, hovered overhead for an instant, and then made back for shore, landing safely on the grounds of the Crescent Athletic Club at Bay Ridge.

While Sopwith controlled the aeroplane, Sinclair dropped the package at the given signal. No word came from on board of whether it had landed or not, but to those in nearby craft, and to the aviators it seemed certain that it had fallen true.

"We descended to a height of about 250 feet, I should think, above the Olympic," said Sopwith after landing, "and I am positive the package reached its owner. We felt no disturbance worth speaking of from the ship's hot breath pouring from her great funnels—only a slight rarification of the air—what we call a 'wille-waw,' or pocket, that caused us to dip perhaps 20 feet."

POLITICAL INTELLIGENCE

HARTLEY DEWART LIBERAL CANDIDATE IN C. YORK

NORTH ONTARIO CONS. A UNIT AGAINST PACT

Defends Reciprocity in an Appeal Directed Entirely to the Farmers.

More Than a Thousand Present at Uxbridge Picnic—Present Members Renominated.

THORNHILL, June 28.—(Special.)—Hartley H. Dewart, K.C., was to-day chosen as Liberal candidate for Centre York in the next Dominion elections. Mr. Dewart was not opposed in the convention. Six other names were offered, but all subsequently withdrew except George W. Verrall of Weston. A ballot was taken and the count stood: Dewart 81, Verrall 25.

The convention was fairly representative of the Liberal party in the riding, and had it not been for counter attractions in the way of several barn raisings, the attendance would have been larger. The meeting was somewhat restive and for a time there was a strong feeling of feeling that a local man would prove stronger in the campaign than Mr. Dewart. In this respect it was made clear that the nomination of Mr. Dewart was not the result of a local man's influence, but the result of a local man's influence.

There was plenty of filibustering, and when the demand for a local man seemed to be the strongest, Mr. Dewart, who was not a local man, was elected. President, J. T.
