ST PROCEED WARILY.
LANDSOWNE DECLARES

Age About Armistice Seems
Spectacularly Obscure—Allies
Have to Avoid Pitfalls.

Oct. 21.—Lord Lansdowne
of the opposition in the house,
and noted for his cautious
policies, considers that the German
leaves the door open for a
discussion of the armistice
passages in it, in his opinion
a mediation.

Regarding the situation
whole as hopeful, his view was
we must proceed warily, leaving
nothing to chance.

must trust President Wilson
and his policy, he added. "Above
all it is necessary that we make
no concessions impairing the strong
dominant military position
for us by the expenditure of naval
and military forces."

passage about the armistice
is likely to accept the
and sea outrages caused
and exterminated by the
of war."

Landsdowne agreed with
the expressed opinion of
Milner, secretary for war, that
is in progress in Germany
the transformation in
which should not be hurried
at any attempt to impose upon
German people rulers not of
might conceivably lead to
where Germany would find
without a government.

DEEPLY TOUCHED
BY CHILDREN'S PRAYERS

more, Oct. 21.—Speaking at the
tion today in honor of Cardinal
a fiftieth anniversary as
Mr. William Barnes, Catholic
of Oxford University, thanked
the cardinal for his address to
the children of America, in
communion for the intention
of St. Poch and how that had
one by the English children who
looked darkest for the allied
armies.

aid that Marshal Foch had
him as follows:
act of faith which the children
of Britain have made for my in-
has profoundly touched me
express my gratitude to them
them to continue their pray-
the victory of our just cause,
that said Mr. Barnes, Mar-
ch had sent the following:
still depending upon the pray-
be children; ask them to go to
tion for me again and again."

S MISTAKE MADE
IN APPEAL TO WILSON

Oct. 21.—Regarding disap-
over the outcome of negotia-
with the United States, a
journalist writes to the
Zeitung of Basle that Ger-
mistake has been to con-
sident Wilson, and that
ing herself driven him from
is believed.

in Germany, the
declares, she is
to appeal to President Wil-
forthwith a satisfactory
ise. It evidently was expect-
impossible that President
to refuse his mediation when
heved better terms could be
ore, and then when the game
to believe that President
would patiently await the
men it pleased the Germans to
peace.

REME COURT JUDGMENT.

FOURTH LIBERTY LOAN NOT FULLY COUNTED

U. S. Treasury Officials Uncertain as to Exact Amount of Subscriptions.

Washington, Oct. 21.—After reading a number of late reports on the outcome of the Fourth Liberty Loan campaign which closed Saturday, treasury officials declared tonight there is little certainty at this time either of the total volume of subscriptions or the number of subscribers. They still felt no doubt that the loan had been oversubscribed, but explained that many earlier measures appeared too optimistic in the light of actual figures now being compiled by every bank and local committee which at first reported they were heavily over-subscribed.

There was good ground, however, for the estimate that 22,000,000 or more individuals had subscribed to the greatest war loan ever floated by any government. The fact that many of these reported lump subscriptions by corporations which would later re-sell bonds to their employees led to belief that the number of actual bondholders would be considerably higher.

Owing to the present uncertainty, the treasury expects to make no further announcement concerning the results of the loan until definite and official figures are received from each

RECONSTRUCTION WORK TO BEGIN IN BELGIUM

Ottawa, Oct. 21.—Information that the Belgian cabinet is losing no time in making its plans to resume the government of the re-occupied territory is conveyed in a cable received by the Belgian consul-general. It states that at a meeting of the cabinet held towards the week end, steps were taken to restore the normal circulation of Belgian money in the freed territory. After considering the military and political situation it was decided to accept once more the reconstruction measures. As a token of admiration and gratitude to the army it was decided to make more favorable allowances to the relatives of Belgian soldiers. The cabinet also determined the manner in which compensation for damages caused by the war will be ascertained and adjusted.

TO SEEK RELIEF SHIP

Melbourne, Oct. 20.—A government training boat has been sent to search for the boat which sailed, under command of Capt. Chuzers, from Malden Island late in July, to secure assistance for the crews of the Annie Larsen and John Murray, which were marooned there. The men on Malden Island have since been rescued.

U. S. SCOUT BOAT'S CREW RESCUED FROM WATER

An Atlantic Port, Oct. 21.—The five members of the crew of a small gasoline-propelled scout patrol vessel attached to the second naval district, were rescued today after their craft had burned and sunk. The back firing of the engine started the blaze, which the men fought with hand extinguishers until the vessel began to sink. Meanwhile they had sent a wireless call for assistance and shortly after they had been forced to jump into the water several patrol boats arrived and picked them up.

BRITISH LABOR BACKS PRESIDENT WILSON

London, Oct. 21.—In the situation created by the German peace offer British Labor ranges itself solidly behind President Wilson, declares Arthur Henderson, the British Labor leader, in a speech at a Labor meeting Saturday night. Labor men should continue to support President Wilson because his peace program embodied the war aims of organized labor. "The British democracy sought a peace of impartial justice and the destruction of the arbitrary power in Germany which planned the war and had carried it on with ruthless fury. It had become increasingly clear," Henderson said, "that unconditional surrender on the part of the rulers of Germany was necessary in order that the vital interests of the German people themselves could be safeguarded."

GOVERNMENT REGRETS DEATH OF ITS AGENT

Col. Richard Reid, Who Died in England, Was Held in Highest Esteem.

In a cable received by the Ontario Government, it was announced that Richard Reid, agent-general of Ontario in the British Isles, died yesterday morning. A short time ago he was operated on for appendicitis. On Sunday, Hon. Dr. Coyle cabled that septic poisoning had developed and another operation was necessary.

Richard Reid was born at Millbank. He was a leader in both educational and agricultural circles, being an ex-president of the Provincial Teachers' Association and a founder of the Canadian Jersey Cattle Club. His appointment as agent-general was made in 1913. He was a Fellow of the Royal Colonial Institute and honorary colonel of the 104th Battalion. His second wife (married in 1913) was Miss Alice Mulholland of Toronto. Three of his four adult sons were in the army. One has been killed. The other two, officers, are still serving.

"Mr. Reid has given excellent and whole-souled service to Ontario in England," said Hon. G. H. Ferguson, acting premier, yesterday. "He has been indefatigable at all times in his assistance to Canadian soldiers in England, and will be remembered by thousands with gratitude for his kindly offices extended on behalf of the

RUTHENIANS WOULD BECOME NATION ALSO

Washington, Oct. 21.—President Wilson was asked today by representatives of the American National Council of Uro-Russians to take into consideration the national aspirations of their people, the Ruthenians, in any peace discussions with Austria-Hungary.

The members of the delegation, who said they represented 500,000 Ruthenians in the United States, urged the president to use his influence to secure for them opportunity to join one or the other Slavic nations as a federal unit, if complete independence is found to be impracticable.

PEACE THRU VICTORY STAYS DUTY OF ALLIES

Boston, Oct. 21.—The Rt. Rev. Charles Gore, Bishop of Oxford, England, speaking here today at a meeting of the Boston Federation of Churches, sounded a warning against over-development of the military system, but said, nevertheless, it was the duty of the allies to bring peace thru victory.

"There is a fascination for all the world in the raiment of a soldier," he said, "and the self-sacrificing qualities which have been shown in the last few years make this even more keen. But if mothers of men are fed on this idea, future generations may come to feel that there is no occupation so inspiring and noble. We must not suffer this to be."

BUILDINGS BLOWN UP BY ENEMY IN OSTEND

Washington, Oct. 21.—The Belgian legation was advised today that, before evacuating Ostend, the Germans blew up the maritime station, the principal public squares and many public buildings.

The first allied soldier to enter the city, the message said, was a French aviator, who was injured in making a landing. As the Germans still held the town, he was hidden until they departed.

NORTH BAY RAISED \$4000

North Bay, Oct. 21.—The Navy League campaign closed on Thursday, the amount raised being \$4000.

HURLED OVER LYS AT THREE PLACES

Attempt of Germans to Make Stand Was Overwhelmed.

London, Oct. 21.—The Germans have been hurled back over the Lys River at three places and the allies are driving close to Ghent and Tournai. Field-Marshal Haig reported today in a special statement on the Flanders offensive. His report made it evident that the attempt of the Germans to make a stand on the line of the Lys River has been overwhelmed and that the allies are already in touch with the next defence line along the Escaut River.

Marshal Haig declared the enemy had been forced to withdraw on its whole front in Belgium. The allies have reached Aire, 11 miles west of Ghent, the greatest road centre in western Belgium, and have occupied several villages on a line running northward to the Dutch frontier.

The French have established bridgeheads on the eastern side of the Lys between Gramme and Petteghem, 11 miles southwest of Ghent, and at a point near Oyghem, a few miles further south.

Beyond Lille, the British have driven the Germans across the border from France into Belgium and have reached the outskirts of Pecq, six miles north of Tournai.
