At a meeting yesterday afternoon of the civic works committee the Leaside Munition Co. made application for permission to build a three-phase transmission line of 12,500 volts from the Leaside power house to the city of Leaside. The company proposes to derive electric supply from interlocking electric interests identified with the Toronto & Niagara Power Co., the Electrical Development Co., the Toronto Electric Light Co., the Toronto Railway Co., and the Toronto Power Co.

"It is essential that the Leaside Munition Co. Ltd. be supplied with power," said Commissioner Harris, "but having regard for the circumstance that they are to derive such power from the electric interests who so seriously menace the highway of this city and Dominion, I strongly recommend that the consent requested be denied."

The committee agreed with Mr. Harris and refused the company's application. It was decided to send back to council the recommendation that the committee provide \$7100 to repave Gerrard street from River street to the bridge.

A recommendation was passed that the bylaw authorizing the grading of Castlefield avenue from a point 900 feet west of Yonge street to the western city limits, be rescinded.

A new concrete sidewalk was recommended for the north side of Danforth avenue from Broadview to a point 418 feet west.

The mayor has given instructions to city hall employees to obey all requests of the judges sitting in the various courts to prevent all unnecessary noises.

It was remarked about the city yesterday that Street Commissioner Wilson and his staff had done good work in so quickly restoring the streets to

their usual clean appearance after the previous day's celebration. The inquest on the death of Cadet Davidson, said Mayor Church yesterday, had done a great deal of good and would result in something being done towards reforming the medical service.

Mrs. D. M. Willis, 49 Ulster street, in a letter to Mayor Church, complains that her husband, Lance-Corporal Willis, who died from influenza at the Base Hospital, had not received prompt medical attention and when taken to the hospital "I begged to have him wrapped in our own blanket, knowing what a chill it would mean after getting out of a warm bed, but they paid no attention to me, telling me it would be all right."

The letter further says that she feels that her husband would have lived if he had received proper attention and prompt treatment.

Sir Robert Borden has been requested by the mayor to make arrangements whereby the municipalities will be notified when postage is declared thus preventing a repetition of premature celebrations.

May Examine Books.

Permission has been given to the city to examine the books of the Bell Telephone Company as a preliminary to application to increase rate to telephone users which the city is opposing.

WAR TROPHIES COMING FROM TORONTO UNITS

Sir John Hendrie stated yesterday that the consignment of war trophies sent to him by the Toronto regiments of the third brigade had not yet arrived. The war trophies include machine guns. The lieutenant-governor said, on his request, the militia department had ordered a search for the missing trophies, but there were no results. He had heard that some of the trophies were in Quebec, but the bulk of them might be still in France or in England.

## The Reasons Why—

THIS is what war-time conditions have done in the case of the telephone business:

Increased the cost of new telephone construction from 50 to 100 per cent or more—

Doubled the price of steel, copper wire, platinum and lead—

Increased the cost of all labor that goes into telephone plant and equipment—

Made higher wages necessary for telephone employees—

Increased the traffic so that a larger number of employees is necessary—

Drawn to the colors a large proportion of skilled male employees, making ordinary upkeep both difficult and expensive.

Made it necessary to give the subscriber more service to take care of his thriving business—

And made it necessary also for us to get some increase in rates to cope with mounting costs.

We are therefore asking for what is necessary. We can see no other solution.
