Sir Robert Borden is to Represent Toronto Soldiers From Wrecked Troop Canada at Preliminary Peace Session Train Will Arrive in the City Tonight

PEACE CONFERENCE A MILLION DEATHS FIRST OF FEBRUARY

Sir Robert Borden Will Represent Canada at the Allied Nations' Conference at Paris This Month.

Special Cable from John W. Dafoe. London, Jan. 2.—The conference of representatives of the allied nations which was to begin at Paris on Jan-uary 6, has been postponed for one week, owing to the development of the cabinet crisis in Italy. It is now expected to meet on January 13 and arrangements to that end are now being completed.

The character and scope of this conference is not likely to be defined until it actually meets. There is the view that it should be a formal gathering with a definite agenda to be considered, and offering a public report of conclusions to be reached, and an alternative proposal is that this conference should be completely informal and given up to the freest possible consideration of all questions of peace as they affect the attitude which the allied nations will take at the peace conference. The probabilities are that the latter course will be followed as lending itself more readily to the purposes in view; the adjustment of all differences between the allies so that they can go into the peace congress with an agreed program. There is no difficulty about the representation at this conference, as all the allied countries will have ample opportunity of presenting

their views by their representatives.

Headed by Lloyd George.

The British delegation will be headed by Eloyd George, Bonar Law and tached an extensive retinue of cials from the foreign office and from the various services.

The Canadian mission will proceed to Paris in time for this conference and the prime minister, Sir Robert Borden, will represent Canada in

The date for the official peace congress has not yet been fixed. It can be called in short order, as the delegrates who are to attend it are now fend their alleged rights, then they statement: "The Germany from which sire so that they may so the German doctors fled, makes the recognition from the allies. in Paris or on their way there. The length of time which will be necessary to bring results at the peace | Union in Toronto, rose to say that conference is a subject of speculation, the spirit of class contention had but the opinion is daily growing that the world necessities will force a speeding up of the negotiations. So great is the complexity of the innumerable questions to be dealt with that It is apparent that a final and definite settlement of them all would involve at least a session of six months. The conomic and political conditions in all of the belligerent countries forbid that war conditions should prevail for so

long a period of time. The need for an early termination of the state of war in the allied countries in order that the readjustment of peace should begin is very great. It is therefore freely conjectured that the conference will lay down the terms of peace on broad general lines, embodying these in a document which will operate as the peace treaty, and cal). sitate reconvening the peace congress (radical), Wm. at a later date, or the calling of a Hagen and Jas.
