Revulsion of Feeling Against Submitting to the Ferry Co's. Terms

on the Part of Council in Conduit Break-

is claimed by the Ferry Company is damaged by the brenkwater which protects the conduit pipe near the Point. The Assessment Commissioner, Engineer and Corporation Counsel were also present. The drie party came away convinced, if not that the company should be fought in the courts, at least that the concessions required in the agreement drawn up should not be acceded to. They took upon it as a "hold-up" on the part of the company. The general feeling was that the breakwater provided a convenient harbor, a consideration sufficient to counteract any inconveniences from accumulations of fifth or obstruction to navigation, which the work is alleged to have caused. The day was favorable. A strong east wind was blowing and yet no scum or fifth collected. The company want the city to fill in two acres of water, between their property, north of the bicycle track, and the piling, and enstward to a point where the latter if continued would meet the former. The Engineer estimates that this work would cost nearly \$4000, but other opinious place the amount much higher. The company want to pay no rent on the land thus made in spite of the fact that it would create for them a splendid park, or permit of their enlarging their bicycle track. The disposition to yield to the company seemed to be confined only to Ald. Leslie and Denison, although 15 members of the Council were present. Corporation Counsel Fullerton recounted the history of the case when up before Parliament, and afterwards denitted that the resulting agreement is about the condition of the council were present. Corporation Counsel Fullerton recounted the history of the case when up before Parliament, and afterwards denitted that the resulting agreement is about the connection in his room at 57 covered unconscious in his room at 58 covered unconscious in his room at 58 covered unconscious in his room at 58 covered unconscious in his room at 50 narcotic poison. Wrs. Chambers, wife when up before ruthaneau, and arter wards admitted that the resulting agreement man been drawn up by D'Alton McCarthy, Q.C., the company's counsel, though revised by himself. The Board of Control will arrange for a conference with representatives of the company to endeavor to agree on a seem balls.

Keep off the Grass. The Legislation and Reception Committee held a 10-minute session at 2.30 p.m. and hustled through three bylaws. One permitted persons living at corners to put up fences or hedges to prevent people cutting across and tramping down grass, and defined and regulated use of boulevards. Another provided for the enforcement of the Maternity Boarding-houses Act in Toronto, and the third made technical changes in the license bylaw.

The sub-committee on the removal of wires yesterday morning authorized the Engineer to collect information preliminary to a conference with the wire companies. The other committee, appointed to airrange for cheaper fares on the Metropolitan Kallway to Mount Pleasant Cemetry, delved deeper into the subject than had been intended. They initiated a radial fallway policy, their first efforts to be directed towards securing an arrangement whereby produce cars might be hauled into the centre of the city over the Metropolitan and Toronto Railways at cheap rates and without transhipment. Aid. Lamb says it is to be a "live committee," too.

Benefit Cencert.

The combined lodges of L.O.L. 496 and Court Ivanhoe, 168, C.O.F., gave a benefit concept last evening in Broadway 11ah in ald off Mr. Alex. Ranney. The entertainment was in every particular a success. The following contributed to an excellent program: The Misses Graham, Nelson, Haliday and Fanny Morrell, and Messrs. Martin, Crane, Bennett, Blight, Simpson, Garty, Corin, Willard, Gorrie and Pickett.

To Maintain the "Finest." The Chief of Police has forwarded to the Mayor the estimates for the Police Department for 1898. The Chief asks for \$231,-045.35, whereas \$223,769.29 was spent during 1897. Following is a summary of what is

Expenditure, Estimate 1897. 1898.

the brick pavement recommended for Nas-sau-street, between Bellevue-avenue and Lippincott. The work on Arthur-street and Brock-avenue will begin in a few days. Street Commissioner Jones expects to finish the plank blcycle path at the Island before May 24.

THE CATTLE TRADE.

Briskness in the Export of Thoroughbred Catile Buyers From the Northwest and the States.

Secretary Hodgson of the Stock Breeders' association stated yesterday to a World representative that in all the years of his experience he had never seen the export business in Ontario thoroughbred cattle as brisk as it is at present. The buyers are from the Northwest and the States. Prices, though fair, are not high though fair, are not high. Sir Roderick Cameron has recently ordered 2200 yearlings to be purchased in Ontario for his Nort. west ranch. The annual cost of feeding these animals is computed at 50 certs per head and they will be sold in a couple of years at a net profit of from 50 to 75 per

KELSO'S VIEWS. He Would Cherish the Children and Banish the Chinese,

Mr. J. J. Kelso, Provincial Superintend Mr. J. J. Kelso, Provincial Superintendent of Neglected Children, has returned to the cliy after a trip to the Pacific coast and California. The special purpose of his western voyage was to furnish the Manitoba and British Columbia Governments with information regarding the working of the Neglected and Dependent Children's Laws of Ontario. Mr. Kelso report that both the Governments probably will pass enactments similar to that in force in Ontario.

ario.
Mr. Kelso held a conference with officers of the Children's Ald Society of San Francisco. He also visited Scattle, and states that the moral forces in that community ar at a very low ebb. After studying the Chinese question, on its own ground, he is of the opinion that Canada should at once adopt restrictive measures to keep out the Celestials.

Progress of the Wabigoon District. A pamphlet giving information about the Wabigoon district as an agricultural country has been issued by the Ontario Department of Agriculture. It states that the Government has sold 25,000 acres of land in that district, indicates the progress that has been made, tells of new townships that are being surveyed, and prophesics a large influx of farming population.

DOMINION ALLIANCE.

Conference Held in Toronto Yesterday-Discussed the Pichiscite, But

Passed No Resolutions. The Dominion Alliance Conference held a large meeting in the office of the secretary, F. S. Spence, on Wednesday afternoon, Among others present were: J. J. Maclaren, W. H. Orr, J. A. Paterson, Miss Pheips, St. Catharines; Mrs. Thornley, London; Mrs. Rutherford, Toronto; Mrs. Wyley, Richmond Hill; Mrs. McKee, Barrie; Mrs. Carone, Galt. water Matter—The Police Estimates—

SIMPSONS Canada's Modern WEAK

DIRECTORS-H. H. Fudger, J. W. Flavelle, A. E. Ames.

Let Us "Talk Shop."

"A time for everything" is wisdom permissive as well as prohibitive, and the time when we can press our one topic without being obtrusive, without provoking your resentment, is when you're quietly looking over the paper.

May we tell you that those who think the Simpson Store has reached its full measure are going to be mistaken? Without boasting, without even giving way to the enthusiasm that comes with accelerated motion, we may assure you that what progress has been made is merely the start—the sailing, so to speak, of the good ship, while the broad ocean of possibility and adventure lies before us.

It's enough to say now that there's a new feeling all through the store, a new appreciation outside the store and such generous good-will in the country at large as brings us business almost beyond our expectation. Everybody likes Simpson's, and people generally have confidence in the Simpson name. The result is that we are preparing to serve you even better. The architect is busy and the artist is designing, and we are on such close and confidential terms with our brethren of the trowel and the hammer that we expect soon to be eligible as Knights of Labor.

That means there are surprises ahead, and while you're guessing we're working away along new lines, and making it possible to sell such goods as these at such prices as

Men's Clothing

REACHES MUSKUKA LAKES

In the Highlands of Ontario.

The Muskoka region, with its many hundreds of lakes and streams, is undoubtedly the best place on the continent for Fishing, Shooting or Campling. The fishing, consisting of brook and saimon trout, black bass, imaskalonge and pickerel, is unequalled; partridge (ruffled grouse) abound, and deer are plentiful, As a health resort it cannot be surpassed. These lakes are among the highest ou the continent, being about 500 feet above Lake Huron, and 188 feet above Lake Huron, and 188 feet above Lake Huron, and 188 feet above Lake Superior. There can be no Hay Fever in so pure an atmosphere. A glance at our map will show how easy of access they are, and the fine equipment of the GRAND TRUNK RAILWAY and the Muskoka Steamers ensures comfort in the highest
