Dr. Sebring states that he has discarded inhalers, sprays and washes, and depends entirely upon Stuart's Catarrh Tablets in treating nasal catarrh. He says: "I have had patients who had lost the sense of smell entirely, and whose hearing was also impaired from nasal catarrh, recover completely after a few weeks' use of Stuart's Catarrh Tablets. I have been equally successful with the remedy in catarrh of the throat and catarrh of stomach. I can only explain it on the principle that catarrh is a constitutional disease, and that the antiseptic properties in these tablets drive the catarrhal polson completely out of the system."

Some citizens say that members of the Public Library Board are shirking their duty in the board's hour of distress. At the meeting this afternoon only five members were present, namely, Messrs. Lee (chairman), Lyle, Burton, Walter and Kenrick. The meeting was a special one, called to receive the report of the Finance Committee, and the opinion of the City Solicitor regarding the appointment of a treasurer. The committee, on the advice of the Solicitor, appointed Alex. Stewart, City Treasurer, treasurer of the board. The estimates for the year were passed at \$14,300. pecially to escape the workings of a feudal system that the people referred to removed to the new country. They were the few who had the manhood to face trial for their convictions, and when their descendants from Canada are now able to beat the Boers at their own game, it may be worth remembering that Canadians are not among England's subject races, and do not like the expression "only colonials," which has done more to separate Canada from England than any political mistakes. Americans who are of better family than their sometimes plebeian critics do not like being regarded as nobodies, and it seems that the world would be a good deal more harmonious if other people's reasons for being "stuck up" were more fully understood. A due respect for the vanities of others is an ingredient in friendship which will have to be more fully considered politically than it has ever been before.
