

MEXICAN GENERAL OPPOSES REVOLT

Has Started With Army of Unknown Numbers to Join Bandit Brothers.

Juarez, Mex., June 3.—General Carranza, backed by an "army" numbering, according to various estimates, from 2000 men down to five, is the latest military problem for the revolutionists who have just come into power in Mexico.

Oaxaca, according to Colonel Claudio Fox, commander of the garrison here, rebelled against the revolution while on a drinking bout at Gomez Palacio, when he waxed loudly sympathetic over the fate of President Carranza. He then started toward Durango with his "army." It was said, to join the Arietta brothers, who were reported holding out against the new government. It was officially announced here today that the Arietta brothers, in consideration of 100,000 pesos cash and the promise of amnesty, had joined the De la Huerta government.

Col. Fox has announced 10,000 men are being sent to Gomez Palacio to tempt the capture of Francisco Villa and Oaxaca.

BRITAIN SELLS FAMOUS DESTROYER TO CHILE

London, June 3.—It is announced that the Chilean government has purchased the British torpedo boat destroyer Broke.

The destroyer Broke and the destroyer Swift made themselves famous in 1917, when they defeated six German torpedo boat destroyers in a battle in the English channel off Dover. The Broke torpedoed two of the enemy's vessels and rammed another. While locked with the vessel rammed, the men on board the Broke and the German destroyer fought furiously in hand to hand encounter. Also disabled in the combat, the Broke steered toward disabled German, the crew of which was appealing for help. The German opened fire on the Broke which first used its gun against the destroyer and then torpedoed it amidships. Both the Broke and the Swift were badly damaged in the fight but returned to port.

ONE EVERY MINUTE By BILLY SCOTT

SELINA'S FRIEND PUTS HERSELF NEXT SOME DUDS

Hill was some unbecomingly blonde this mornin' when she edged back from her piffage—mean pilgrimage—of the stores, slingin' a mean package and a skinny purse. She's a style-hound and every week that dame's gotta take on somethin' new. If it's only a yella hair net, else she goes blaugh. Shore, she's right! I'm not much of a fairness, in fact I'd almost say I'm a brunette. That's why Hill and me goes to good together, and together, we get along elegant. I wear one of them new waisits what gives me a certain style, you know—less and alinsky, so that I can watch a ball game or crank a fliv. I'm gone on simple stuff and I never go in for frills same as most molls.

But as I was sayin' Hill come spreadin' in and after leavin' against a glass of lemonade she gave me a spill about the awful cost of originality. She cozy with First of all she starts good. She's got lines and a bunch of technical knowledge about clothes, same as a farmer has about agriculture, and it's a crime how she's been savin' her jits to buy a V-shaped bustin' suit or a pair of 'Spanish in one' shoes at her favorite ten-a-day mess-kitty resort, only to be met with this new taxes on necessary luxuries.

"Lift any bargains?" I cuts in.

"Not much," she comes back, stampin' an impatient pump. "Might as well try to get a shot in the arm. And believe me she was all set for murder.

"How'd you get along in the stores?" I sneaks again.

"Not so good," she says, "that is, unless you are fond of fruit," and she threw down a package of onion seeds and a copy of "Spanish in one" lesson."

"What I paid for them two articles woulda dressed a whole family in 1912," she says, wistfully.

"So you could now, dearie," I says, draggin' out a magazine, and showin' her a picture of a big modern family—a Russian ballet, "and I ask you, am I right?" There's lots of room, don't crowd.

RAILWAYS PLEDGE FULL CO-OPERATION

President of Executives' Association Thus Informs Interstate Commission.

Washington, June 3.—Full co-operation was promised the Interstate Commerce Commission in relieving the freight jam by Daniel Willard, president of the Association of Railway Executives car service, in replying today to the commission's telegram of yesterday declaring that its orders were not being carried out by the carriers.

Mr. Willard telegraphed the commission from New York that he has called the commission's orders designed to relieve the freight congestion to the attention of all railroad executives. He added that he felt sure that it would be unnecessary for the commission to carry out its threat of invoking the penal provisions of the interstate commerce act.

The orders which the commission asserted were not being complied with by the railroads related to interchange of freight, the routing of freight from customary channels, and the abrogation of contracts between the various railroads and with shippers as to freight routes.

Marked improvement in relieving the congestion is shown in the report of the American Railroad Association to the commission on the number of cars loaded with freight during the week ending May 22.

A total of 750,978 cars were loaded during the week more than at any time since the general strike of railroad employees, and greater than the total of 741,502 loaded during the week of March 27, just before the strike began.

MERCHANTS BANK SHOWS EXPANSION

All-Round Progress Reported at Annual Meeting in Montreal.

At the meeting of the Merchants Bank shareholders in Montreal on Wednesday, it was shown that during the year ending April 30 deposits, loans, note circulation, number of branches and shareholders have all increased considerably.

Profits of \$1,656,156 represent a fraction over 10 per cent. on average capital and reserve, and a gain of \$802,556 over the preceding year.

The Merchants Bank has, in common with other financial institutions, aimed industriously at the extension of its business and the expansion of Dominion trade during recent years. During the period under consideration 65 new branches were established, and this is looked upon as a splendid achievement on the part of the management.

Capital Increase.

To a capital increase of \$1,400,000 last year, there is being added another \$2,100,000, bringing the total up to \$3,500,000, supplemented by a reserve of \$9,450,000 out of undivided profits and premiums on stock issues.

In some respects, the popularity of a bank is attested by the number of its proprietors, which, in the case of Merchants, has grown to 2822, or nearly 300 more than two years ago, and these have been given of late appreciably higher dividends warranted by larger earnings.

In the addresses on Wednesday of both the president and the general manager warm tribute was paid to the loyalty and efficiency of the staffs.

The general manager, Mr. Macarow, alluded briefly to the annual statement, which tells its own tale, pointing out that the deposits have risen \$24,000,000, despite the purchase during the year of nearly \$42,000,000 of Victory bonds by the bank's clientele, and that a survey of progress during the last five years, he was able to show a gain of 161 per cent. in deposits, of 128 per cent. in loans and discounts, a remarkable expansion.

"Unsettled continues," said Mr. Macarow, "labor and other difficulties abound, and the dominant need of the time, production, is palpably inert and backward."

High Prices.

It was the general manager's opinion that prices of commodities would continue to be high as long as production continued to lag. This condition was aggravated by the increase in wages and the shortening of the work-

ing hours of employees, and this was a point which labor unions did not seem to appreciate.

Mr. Macarow expressed no fears as to the future of Canada commercially. A policy of "selective curtailment," in the apt phrase of Mr. Macarow, is being adopted towards borrowers, and in his opinion such policy applied with due judgment, discrimination and consistency, cannot but prove a beneficial corrective and an important factor towards restoring, with a minimum of dislocation and disturbance, healthy and normal conditions.

CANNOT BRING UP IRISH RESOLUTION

Speaker of U. S. House Says There is Not Time for Discussion.

Washington, June 3.—Irish supporters in the house were confronted today with a refusal by Speaker Gillett to grant the floor to any member for the purpose of calling up the resolution expressing sympathy for Ireland, because of lack of time. The resolution had been favorably reported by the foreign affairs committee and had been turned over to Representative Mason, Democrat, Illinois, who was to handle it on the floor.

Mr. Mason in a letter to Chairman Porter of the foreign affairs committee, returning the resolution, said the Speaker had informed him that he or nobody else would be recognized, to bring up the resolution. The house is speeding up business under suspension of the rules, and as a result, the Speaker is in absolute control of the situation.

ONE-MAN CAR WILL MEAN ST. JOHN STRIKE

St. John, N.B., June 2.—Following a suggestion made by the management of the New Brunswick Power Company that one-man street cars might be used in future, the motormen and conductors decided today to call a general walkout of all workers in the street car service, electric power house and the gas house, if the one-man cars were put in operation here. About 120 motormen and conductors and 110 other workers would be affected by this walkout, which would tie up nearly all the power, fuel and lighting services of the city.

HUNDRED ORPHANS TO ENJOY CIRCUS

World Invites Little Ones of Protestant Orphans' Home to Hagenbeck Show.

Nearly a hundred little ones who experience few of the ordinary joys of childhood will be guests of the Toronto World today thru arrangements made with the Hagenbeck Wallace circus. A drawing of lot made the treat free to the Protestant Orphans' Home, 344 Dovercourt road, all of whose youngsters are to be given the time of their lives at today's matinee.

The circus management will cooperate in every way to make the affair as enjoyable as possible for the little ones, who were taken completely by surprise last night at the fun promised them.

They will see the elephants dance old-fashioned quadrilles, keeping time to music of the big circus band, the funny clowns and the beautiful horses that perform. The bareback riders, the aerial artists, boxing kangaroos, big bears that stand on barrels and roll them about the arena; the girl who rides "the highest jumping horse in the world."

And the menagerie! All the animals will be there to be gazed at, among them two puma kittens and their mother, Albe, the big hippopotamus, who will, if asked to do so, kiss any person who will feed her a handful of lettuce. Lettuce is the "hippo's" favorite food, altho she does not get much of it now. She also likes carrots.

The paper, after hearing how good the show was, wanted these orphans to see it, too, and the arrangement was quickly made when the circus management was seen about it.

The circus, itself, is playing host today, for it is entertaining about 200 disabled returned soldiers from the hospitals of the city, including 150 from Davisville, 20 from Euclid Hall and 36 from Spadina hospital.
