

NINETY FIVE MILLIONS FOR U. S. ARMY

Appropriation Bill up in Congress on Saturday and Debated

THE CANTEN

Missouri Representative Will Offer Amendment Providing for Its Restoration—Texan Denounces Tariff Bill While Payne Smiles at Severe Thrusts

Washington, Jan. 8.—General debate on the army appropriation bill consumed the entire time the house was in session today and as there seemed to be no disposition to discuss that measure, members took advantage of the opportunity to make speeches on a variety of subjects.

Representative Hull, of Iowa, chairman of the committee on military affairs, explained that the bill carried an appropriation of \$95,212,718 for the maintenance of the army during the fiscal year 1911 and urged its passage as represented, saying that the estimates had been pared to the bone.

Representative Barbood of Missouri indicated that he would offer an amendment to the measure providing for the restoration of the army canteen when it is taken up for amendment.

A lengthy speech in opposition to ship subsidies legislation, and directed particularly against the Humphrey bill recently introduced was made by Representative Kustermann, of Wisconsin.

Representative Oldfield, of Arkansas and Representative Smith of California also spoke. Representative Goulet of New York spoke in favor of deeper waterways and had resolutions adopted at the recent Norfolk Atlantic deep waterways convention read.

Representative Henry, of Texas, denounced the tariff bill passed at the special session. The father of the measure, Representative Payne, of New York, sat in dignified silence in the middle of the sea of empty seats on the Republican side paying close attention to the speaker, and smiling broadly and incredulously now and then at the severe thrusts of the Texas representative.

A delegation from the Exhibition Association waited on Premier Hazen and Hon. R. Maxwell on Saturday and were assured that a grant of \$3,000 would be forthcoming from the provincial government for the fair, provided that the city would grant \$3,000, and with the understanding that any deficit would be shared by the government and city equally.

D. C. Jones, of the U. N. B. will address the Canadian Club at a luncheon on Friday next.

AMUSEMENTS FOR OURSELVES AND OTHERS

INDIAN PICTURE AND BIOGRAPH AT NICKEL

The Daughters of the Sioux is criticized as the best of Selig Company's Indian pictures. The scenic detail and appropriateness thrown in the dramatic story is wonderfully fine, being genuinely Nebraskan. This is to be the Nickel's premier feature for today and Tuesday, although the Biograph Company will continue to show domestic drama entitled The Rocky Road. Close followers of Nickel programmes will observe how gradually the Biograph company of stock players are being changed, new faces appearing from week to week and familiar ones dropping out. There will be a whole reel of additional pictures for matinee patrons. Musically the Nickel has a dainty bill. Miss LeRoy, who made such a favorable impression last week with her old-time homestead songs, will jump into the whirl of popular numbers and render the novelty. It's the Pretty Things You Say. She has a fetching encore bit too. Master Packer will sing an illustrated song and the orchestra will play the latest and best.

BARBEAU FAMILY AT THE ORPHEUM

The Orpheum is to the front this week with an attraction said to be of extraordinary merit and variety. It is the celebrated Barbeau Family, of ten people, six adults and four clever children who are not only a whole brass band in themselves but have an endless variety of high class vaudeville turns. In singing, dancing and musical selections, the Barbeaus have won reputations as entertainers from coast to coast, and their engagement at the Orpheum represents, it is said, the most expensive act yet engaged in motion picture vaudeville. The Barbeau Family will arrive in the city early, and give their first entertainment at the matinee today. As this big act will doubtless draw immense audiences it will be well for patrons to attend early and avoid the regular Monday evening rush.

NEW SHOW AND ANNIE EDWARDS AT "STAR"

That the Star management is always willing to bow to the expressed wishes of its many patrons is evidenced in the welcome return of Miss Annie Edwards, St. John's sweetest soprano, who commences a second engagement tonight in a lovely number, Miss Edwards has just returned from an extended visit to her home in England and is in better voice than ever. She brought a lot of charming English songs with her too. The Star's picture list includes the educational-industrial film "The Honey Industry," by Edison Co., the domestic comedy "Hester, the Angel Child," and the social drama "If Her Love Be True." Extra reel at every show, chiefly western pictures and scenic selections.

THE GEM WATERLOO STREET

Don't fail to see "A Red Cross Heroine," a story of the Spanish-American war, a film story that is sure to please, a story which we have all heard about during this war. This picture will be featured tonight at the Gem. Four other subjects, comedy-drama and scenic films, Mrs. Gibson in illustrated song. An up-to-date programme, come early.

NO ROUGH WORK IN HOCKEY

Ontario Association Announcement That They Will Nip It In Bud.

HALIFAX SNEERS

Our Players Jeered at by Newspaper—Bowling, Baseball and Other Sport News of Local and General Interest

The following from the Halifax Herald on the Wanderers-All St. John at the sister city on Friday:

"It would be wrong to say that the hockey season opened in a blaze of glory last night, for without doubt the affair was very ordinary. The contesting teams were simon-pure aggregations with no one to sling mud at them. That is something that has to be noticed in these days of wandering puck chasers. Just think of supposedly senior calibre and not a man against whom the finger of suspicion can be directed.

"But then the game. It was a very tame affair, as before stated, with a score of five to nothing in favor of the local Wanderers. The visitors were called an All-St. John team. When a city the size of St. John gets together a hockey team and sends them forth with the prefix of "All" before the name of that city, it makes a big noise. Then one might expect the hockeyists to be a big noise; one looks for an aggregation made up by brilliant individual stars of fast skaters and of artistic stick handlers. One can picture the process of cutting out a septet from myriads of hockey players to be branded with a name that essentially means the best. But then St. John cannot help it. It is not a hockey town, and never was. Baseball and checkers are their game, and their wielding of hockey sticks suggests more of the former idea than of the puck chaser."

This would seem to suggest that it is well always to take away a good team.

The Montreal Star says:—"Hockey is being run a little more businesslike than it was in the past, and the proof is that when Rolin Norton, desired to take advantage of the advance in wages which the All-Montreal team at his request gave him a businesslike release, and treated him very nicely in the matter."

"As such a release and the terms of it are rather a novelty, it is published herewith."

"All-Montreal" Hockey Club. (Registered.) Montreal, 8th January, 1910. As requested by you verbally today, as regards your contract with us, The All-Montreal Hockey Club hereby release you from all obligations from said contract. We might add that you have been entirely satisfactory and would recommend you to any club needing your services. G. W. Sheehan, Secretary.

"If Russell Bowie will only consent to turn professional he can name his own price to play with Cobalt. They have intimated this to him and his friends several times, but up to now he has turned a deaf ear to them."

The Ontario Hockey Association executive committee announces that they intend to nip the rough work in the bud, and players that go to the fence too often will be suspended without further notice. The O. H. A. stands for clean hockey, and there is no room for the rough house players in the association. The referees' reports will be closely scanned, and players that have unenviable reputations as far as rough work is concerned will suffer the extreme penalty. There will be no halfway measures.

Amherst, Jan. 8.—(Special)—Saturday night witnessed the first game of the Cumberland County Hockey League Series. There are five teams in the league, the immediate Ramblers and Regals, both of Amherst, and the Oxford, Pigeon and Sprucehill teams. The Intermediate Ramblers and Regals opened the ball on Saturday night.

The game was one of the roughest ever witnessed on Amherst ice. Ill-feeling was evident from the first, and notwithstanding the efforts of the referee, tripping, shoving and shoving characterized the game from start to finish.

Locke, who played point for the Ramblers, received a severe blow in the face, inflicting a serious wound, injuring the face bone. He was taken to the hospital at the conclusion of the game. Lovther, of the Ramblers, also received a nasty cut in the face, necessitating stitches in the wound.

The teams were well matched, and both of them have material to play good hockey but unfortunately there were offenders against all rules on both sides. The Regals at one time had a lead of two, the score standing 5 to 3 in their favor, but in the last twenty minutes of the second half, the Ramblers carried war into the enemy's territory and won out with a score of 8 to 6.

George Daily, the young pitcher John McGraw secured from the Springfield club of the three I league, won 23 out of 34 games last season. The St. Louis American club has bought the release of Bill Abstein, the Pittsburgh first baseman of last season, probably for the waiver price of \$1,500. Roseman and Abstein will fight it out for first baseman. Tommy Madden has signed for 1910 with the Boston Americans.

Patry Donovan's practice, when he was scouting of putting on a uniform and working out with any prospective purchase was a decided innovation. He did not believe in gymnasium methods, but preferred coming in close contact with the players he was signing up. That's the way he got a line on Charlie Hall.

Skating For the sports in the Victoria rink Wednesday evening under the auspices of the LaCrosse Rowing Association are fast coming in and several speedy ones have already entered. A fine night's sport is expected.

The following have entered so far: 220 yards—L. Coleman, W. Riley, E. Wright, M. Bell, H. Belyca. 440 yards—W. Riley, M. Bell, H. Belyca, E. Wright, L. Coleman, E. Ingraham. Three-mile—L. Coleman, H. Belyca, E. Wright, M. Bell, H. Belyca.

Boys under 16 years—Gordon Nuttall, Herbert Barr, H. L. Collins. Senior boys under 19 years—Harry Garrett, L. Coleman, E. Ingraham. Half-mile—H. Belyca, E. Wright, D. Riley, L. Coleman, M. Bell, E. Ingraham.

One mile—L. Coleman, W. Riley, H. Belyca, M. Bell, E. Ingraham. The entries close tomorrow evening.

Bowling In the City League games on Black's bowling alley, Saturday night, the score was as follows:

Player	Score	Total	Average
Lunnery	87	105	82
McKiel	84	100	78
A. Bailey	82	98	78
F. Bailey	74	90	75
Total	413	499	448

Phinney . . . 78 83 76 240 80
Griffith . . . 84 103 88 275 91 1/2
McDonald . . . 94 101 72 267 89
Cronin . . . 88 71 84 243 81
Crowley . . . 100 86 70 256 85 1/2
Total . . . **444** **447** **390** **1200**

The Interscholastic League games this week are tonight—St. John the Baptist vs. A. O. H.; Tuesday—L. and B. vs. A. O. H.; Thursday—C. M. B. A. vs. St. Joseph's. If the change from Wednesday to Thursday in the C. M. B. A. St. Joseph's game is not satisfactory, the captains of the two teams are requested to meet and endeavor to come to some satisfactory understanding.

The weekly roll off at candlepins is the attraction at Black's Alleys this evening.

Sport Briefs The opening games in the Independent Basketball League will be played in the Algouquin Club room tonight. The first game will be between the Algouquin and Exmouth Street Y. M. A., and the St. Andrew's and Portlands will clash in the second game.

Time When Laborer Will Live Like \$200,000 Income Man—Some Problems of Future—The Power of Tide and Wave—Full Value From Fuel

THOMAS A. EDISON

Thomas Edison, in an article in the Independent, making a number of remarkable prophecies concerning inventions of the future.

"There is much ahead of us," he says. "We don't know what gravity is; neither do we know the nature of heat, light and electricity. We are only animals. We are coming out of the dog stage and getting a glimpse of our environment. We don't know; we just suspect a few things. It will take an enormous evolution of our brains to bring us anywhere. Our practice of shooting one another in war is proof that we are still animals. The makeup of our society is hideous.

"In two hundred years, by the cheapening of commodities, the ordinary laborer will live as well as the man doing now with \$200,000 annual income. Automatic machinery and scientific agriculture will bring about this result.

The following are some of the suggestions of future development made by Mr. Edison:

"The most important problem of the future is to get the full value of fuel. A pound of coal has enough energy to carry itself around the world. We are only able to extract a small fraction of its heat and power."

"Radium is the cause of the earth's heat. The possibility of harnessing this force for our use is somewhat of a speculation. A radium clock has been made that will go several hundred years without winding.

"Tidal and wave power, of course, immense. Consider the force that jogs up and down a steamship like the Mauretania. More practically, however, are windmills connected with storage batteries, to lay up the energy of the winds in electrical form. Sun engines are very promising machines.

"In steam volcanoes there is a source of power which might be obtained and sent out by electricity.

CHILDREN

In disorders and diseases of children drugs seldom do good and often do harm. Careful feeding and bathing are the babies' remedies.

Scott's Emulsion

is the food-medicine that not only nourishes them most, but also regulates their digestion. It is a wonderful tonic for children of all ages. They rapidly gain weight and health on small doses.

Read the name of Scott's Emulsion on the wrapper. Beware of cheap imitations. Scott's Emulsion is the only one that is pure and safe. Scott's Emulsion is the only one that is pure and safe.

125 Wellington St., West, Toronto, Ont.

the Royal Bank of Canada at Hockey in the Queen's Rink Saturday night, by a score of 4 to 2. The game was a fast one, Ralph Parker was referee.

The Thistle Club has received notification that the club has been affiliated with the Royal Canadian Curling Club of Scotland. The local club will now be entitled to send a full rink to Scotland with any Canadian team, and as a matter of right will be entitled to a match with any Scotch team that comes to Canada.

In the basketball series in the Y. M. C. A. on Saturday, Harvard defeated Yale 10 to 6. Yale and Oxford are tie for first place. In class B the Athletians won from the Egyptians 16 to 2. A meeting of the Y. M. C. A. Harriers will be held this evening. A special meeting of the Harriers and other Y. M. C. A. members interested in hockey will be held tomorrow evening.

Los Angeles, Cal., Jan. 10.—Barney Oldfield, driving his Benz racer over the Ascoo Park track, broke the world's circular track records for 2, 3, 4 and 5 miles. His time for the five miles was 4:24 1/5. The previous record of 4:26 was held by Ralph de Palma.

KILLED ON SPOT WHERE UNCLE MET A VIOLENT DEATH

Boy's Life Lost in Coasting Accident—Fifteen Others Hurt in Another Collision

Pawtucket, R. I., Jan. 10.—Wilfred Barabec, 12-year-old son of Louis Barabec of Berkeley, a village five miles from here, lost his life in a peculiar coasting accident here yesterday. While the boy was in full career down a steep hill, the hat of a passerby blew off and across the course of the speeding lad. While trying to catch the head-piece the boy lost control of his sled and dashed into a tree, dying almost instantly.

Less than a month ago, Joseph Miner, Pawtucket, R. I., Jan. 10.—Joseph Miner, 12-year-old son of Louis Barabec of Berkeley, a village five miles from here, lost his life in a peculiar coasting accident here yesterday. While the boy was in full career down a steep hill, the hat of a passerby blew off and across the course of the speeding lad. While trying to catch the head-piece the boy lost control of his sled and dashed into a tree, dying almost instantly.

For strains, sprains, swellings, colic, diarrhoea, coughs and colds, no liniment will prove so efficacious in the stable as "Nervine"—it's good for man or beast, for internal or external use. Whenever there is pain, Nervine will cure it. Release substitutes. Large bottles 50c, trial size 25c, at all druggists, or The Carr-Saunders Co., Kingston, Ont.

Nervine Cures Quickly

an uncle of the boy, was killed by a train within a few rods of the same spot. Alton, Ill., Jan. 10.—Fifteen persons were hurt, six seriously, in two coasting accidents here yesterday.

A ball-thrower, carrying eight persons collied with an ambulance en route to the home of a suicide and the horses fell on the sled. James Coleman, fifteen years old was scalped and every other passenger suffered minor injuries. Another sled on the hill collided with an automobile with disastrous results.

Horse Distemper Prince Edward Farmer Solemnly Declares Nervine is a Specific. "After fifty years' experience in raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nervine." Thus opens the very earnest letter of J. J. Pryanston, who lives near Wellington, P. E. I. "I had a very valuable horse that took distemper a month ago, and was afraid I was going to lose him. His throat swelled and hard lumps developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse of his pain and suffering till I started to use Nervine. I mixed a bottle of Nervine and sweet oil and rubbed the mixture on the throat and chest three times a day and you would scarcely believe the way that horse picked up. Nervine cured him. I also have used Nervine for colic in horses and cows, and earnestly recommend it to every man that is raising stock."
