

THE

STANLEY PIANO

Is the most ATTRACTIVE in the point of Quality and Value that is to-day made in Canada. A SUCCESS NEVER BEFORE EQUALLED CONCLUSIVELY PROVES THIS.

The New Scale

Which has been lately added to our line marks an advance in the known methods of construction of even five years ago, that ought to bring as wide an acknowledgement as was given our pianos when first placed before the public.

Satisfy Yourself

BY SEEING THEM BEFORE YOU BUY. In them will be found the highest grade of workmanship, the best material, and a tone quality unexcelled. The construction is under the direct supervision of our MR. CHAS. STANLEY, whose ability as a scale drawer and tone regulator is unquestioned, thus assuring a perfect satisfaction to buyers.

By Direct Selling

We save our customers a liberal margin that otherwise would go to agents, and we ship to any point on trial at our own expense entirely.
