rious Mission

d peace, and
our congrega-
ther Christian
derable success
boro have pro-
otherwise im-
n at large, and

hope their example will be imitated. The great want of the mission is a deeper tone of piety, more regular and devout attendance to the ministry of the word, class meetings, and prayer meetings. We are sorry our special services were productive of so little lasting good; but while we mourn over our failures and defects we are not without hopeful anticipation of improvement. May Heaven smile on us. Amen.

DUMMER.—Through the abundant mercies of God we are safely brought through another year; and though its commencement appeared gloomy, before its close matters assumed a brighter aspect. At the close of the January prayer meeting we commenced special services, which resulted in the quickening of some dead souls. About thirty presented themselves as subjects for prayer, among whom were several of our Sabbath School children. The long contemplated Mission House has at length been built, together with a good stable and driving house; the Lot containing two acres, given by Mr. Thompson, is fenced, and a drain from the cellar dug—all the labor given by the friends; the cost of the house is \$400, of which \$116 have been paid, and \$60 more promised. Owing to the removal of many of our friends, and the death of some, our Missionary receipts are behind last year; still we thank God and take courage.

HUNTINGDON.—This year has been one of unprecedented hardships in a temporal point of view, owing to the parching droughts of last summer. Spiritually, things are brighter and more animating. The meetings, both public and social, have been rich with Divine influence. The Sabbath School at Zion is improving; the Bible class more than meets our expectations. Our protracted meetings did not fully meet our hopes, still we believe good has been done. The Societies are living in peace, and for the most part enjoying, we believe, close communion with God. Four of our members have died in the faith. Our finances present a heavy deficiency, and but for the self denial of many of our friends would be much heavier; while the self-indulgence of others tend to cripple the energies of the church, by turning the funds which might have replenished her coffers into other channels.

HUNGERFORD.—The past year has been one of arduous labor. Special services were held for five months, which resulted in the hopeful conversion of about 40 persons, 31 of whom joined the church. Two places have been opened for preaching. Several things have militated against the progress of the Station, spiritually and financially: 1st, the pressure of the times, owing to the severe drought of last summer. 2nd, the large number of removals. 3rd, Pride, worldly mindedness and covetousness; nevertheless there are some who have the cause of God at heart, and support it to the utmost of their ability. We believe it is necessary to send two preachers to work this mission efficiently.

SEYMOUR.—The present state of this Mission is not as prosperous as we desire. Some of our members do not manifest that interest in the prosperity of God's cause we should like to see; our class and prayer meetings are not so well attended as they might be. The congregations are in most places good. We have two Sabbath Schools, but neither in a very prosperous state. Two public Tea meetings were held in January, which were well attended and proved a decided success. Our Quarterly and Missionary receipts are ahead of last year. But O! how much we need a baptism of Heavenly influence to prepare us for usefulness. May we soon realize it. Amen.
