

AMENDMENT IS BEATEN BY 10

Division in House Test Was 118-108; Groups Back Government

T. H. Bird, Progressive, Gains Floor and Moves Previous Question

OTTAWA, Feb. 16.—Immediately following the division, T. H. Bird, Progressive member for Nelson, Man., in a short but aggressive speech moved that further amendments to the address be debated and the subsequent debate must be confined to the address itself.

At the conclusion of his speech, C. H. Cahon, Conservative member for a Montreal riding, adjourned the House.

There was considerable difficulty when Mr. Bird rose to speak, as Mr. Cahon had jumped to his feet, too, to move another amendment to the address in the form of a motion of want of confidence and it was only after a struggle of "sit down" to Mr. Cahon from the Liberal seats that the Speaker "saw" Mr. Bird and he was able to proceed.

OTTAWA, Feb. 16.—The Conservative amendment to the address was defeated in the House of Commons tonight by ten votes. With Liberals, Progressives, Labor and Independent members opposing and the Conservatives supporting, the amendment was negated by 118 votes to 108.

The Government received the solid support of all the groups in the house with the exception of the Conservatives. There were no "switches" and only a few pairs.

The amendment which went down to defeat shortly before midnight expressed regret that "resulting from the policy and recent trade agreements made by the present Government, the dairy products industry of Canada is now being subjected to most unfair and unwarrantable competition from other countries, and that the Speech from the Throne gives no indication of any remedial legislation which would remove the discrimination under which the industry suffers."

MOVED BY SUTHERLAND.

It was moved by Donald Sutherland, member for South Oxford, and has been debated exhaustively by members on the Conservative side of the chamber.

Just before the vote Rt. Hon. Arthur Meighen, Opposition leader, made the final attack on the treaty. He declared that it exposed practically all the farming population of Canada to unlimited competition from a country which was almost the largest exporter of meat in the world, and one of the greatest exporters of dairy products. He believed that since the treaty went into effect more butter had come to Canada in a month than had formerly entered this country in a year.

PORPOISE HUNTING

New Sport Seen as Result of French Official's Order

PARIS, Feb. 17.—In the coming summer a new sport of porpoise hunting is likely to be porpoise hunting. The idea has been launched by the Under-Secretary for Merchant Marine, M. Danielou, who has declared war on porpoises as a source of great damage to the French sardine industry, through their wholesale destruction of nets.

Fishermen will be authorized to take "hunters" in their boats all through the summer season. M. Danielou sees no reason why, for example, a "Deauville Porpoise" Hunt and a "Salles d'Olonne Anti-Porpoise League" should not be constituted, and even challenge cups offered for the most successful clubs.

"I'm Slender Because I did this"

That is the story many thousands are telling. They have lost it for 18 years. It is the story of Marmola Prescription Tablets—the easy, pleasant way to reduce. Today their results are known to millions in almost every circle. Now people are taking 100,000 boxes of these famous tablets monthly.

Marmola acts directly on the cause of excess fat. No abnormal exercise, no starvation diet. We state all the ingredients and explain how they act, so no user can have any question about them.

Excess fat is a blight to beauty, to health and efficiency. Anyone who keeps it does injustice to herself.

Why not investigate this treatment which for 18 years has done so much? Whose results you see on every side today? Why not learn how millions are keeping slender in a scientific way? You owe that to yourself.

Marmola Prescription Tablets are sold by all druggists and by mail. Send this simple form, and our guarantee. Clip it now.

Danish Youth Astounds Scientists

COPENHAGEN, Feb. 17.—Scientists in Denmark are amazed at the attainments of Bengt Stromgreen, 16, son of Professor Ellis Stromgreen, director of Copenhagen's astronomical observatory. The boy has constructed an electrical apparatus which automatically registers movements of the stars, thus saving astronomers long and patient watching through the telescope.

Talks With Prince In Spanish Tongue

LONDON, Feb. 17.—At a luncheon of the British and Latin Chamber of Commerce, at the Savoy Hotel mentioned by the Spanish Ambassador yesterday, the Prince of Wales so much relished that he set a personal example by learning it himself.

"I am glad to say," the Ambassador added, "that I have had the pleasure of conversing in my own language with His Royal Highness."

STORMY DEBATE IN S. AFRICAN SENATE

Attempt to Use Paul Kruger's Name to Advertise Brandy Resented

CAPETOWN, South Africa, Feb. 17.—A bottle of brandy was the cause of a stormy debate in the South African Senate.

Senator Serfontein set the ball rolling by a resolution protesting against the use of Paul Kruger's name to advertise the liquor known as "Oom Paul" brandy.

He pointed out that, although the late President Kruger always objected to the use of his name for any kind of intoxicating liquor of any kind, his portrait advertising "Oom Paul" brandy was now exhibited in every bar in South Africa.

This was a deliberate misapprehension of the name of one of South Africa's greatest uncrowned kings. Other senators joined in the demur-

MAIDS THROW DICE

Ruth Claxton Wins \$60 Prize Old English Custom

LONDON, Feb. 17.—A custom dating back to the eighteenth century was observed at Guildford a few days ago, when two servants threw dice for the Mait's Money or How's Charity. The qualifications are length of service and good character.

Miss Ruth Claxton, who has four years and ten months' service to her credit, threw 11 to Miss Elizabeth Dorey's seven. The winner received \$60.

As there were no applicants for the apprentice money, which was \$1 more than the maid's money, this charity was given as a consolation prize to the loser.

Don't Neglect The Children's Coughs and Colds

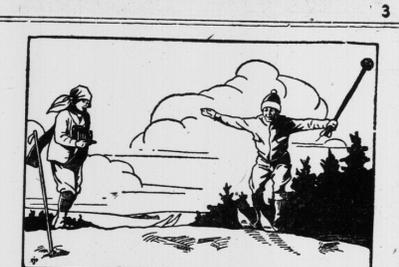

Mrs. Wm. W. Card, Baneroff, Ont., writes:—"Last winter my three children had very bad colds, and they would cough all night long, which was very annoying to the rest of the family."

I could get nothing to help them until one night, a friend who was staying with me, advised me to give them

Dr. Wood's Norway Pine Syrup

I immediately got some, and after I had used four bottles of it my children became quite well again, thanks to Dr. Wood's.

This preparation has been on the market for the past 37 years; you don't experiment when you buy it; put up only by The T. Milburn Co., Limited, Toronto, Ont.

41 King Street

STILL ALARM.

The chemical engine from No. 1 Station, King street east, responded to a still alarm last evening at 7 o'clock for a slight fire in the residence of W. Scullion, 118 Germain street. The blaze was caused from an oil stove and was quickly extinguished, but not before a carpet was badly damaged.

IF RHEUMATIC BEGIN ON SALTS

SAYS WE MUST KEEP FEET DRY, AVOID EXPOSURE, EAT NO SWEETS.

Stay off the damp ground, avoid exposure, keep feet dry, eat no sweets of any kind for a while, drink lots of water and above all take a spoonful of Jad Salts occasionally to help keep down uric and toxic acids.

Rheumatism is caused by poison toxins, called acids, which are generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this poison, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove body waste also to stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.
