

## ENJOYED THE TRIP ON RIVER

St. Omer Commandery Party Have Good Outing

### A HAPPY INCIDENT

Reception To Wedding Party at Sheffield Followed by Present From Knights—The Visit To Fredericton

The excursion of the Sir Knights and ladies of Saint Omer Commandery of Knights Templars to Fredericton yesterday on the steamer Victoria was a most successful one in every way.

Leaving Indiantown at 8 a.m. in a heavy envelope of fog, did not in the least disconcert the party, for all were in high spirits over, and greatly appreciated the attentions paid them by the St. John fraters, not only on Monday morning on arrival, but particularly at the reception in the Masonic Hall on Monday evening. It was, in fact, a jolly party, one which conditions of the weather could not affect.

But before the steamer reached Oak Point, the fog passed away and soon the sun came out in all its brilliancy and warmth, thus rendering the rest of the trip the more enjoyable.

At all the landings the people there gathered were regaled with more or less music, and greetings were exchanged, if not by speech, by the waving of handkerchiefs and flags. The large beausant of St. Omer Commandery displayed on the staff at the bow of the steamer gave ample notice of what happy party was aboard.

The Saint Omer band, Sir Knight Caldwellhead leader, gave several concerts, which proved an additional attraction as the steamer steamed onward.

At Sheffield occurred an exceedingly interesting incident, for which, as it was previously announced was to happen, all were prepared, even to a generous supply of rice. There a bridal party came on board the steamer amid a hail of rice and confetti, not only showered upon the bride and groom by their friends on the landing, but by the Sir Knights and ladies on the steamer. The bride, who stood on the upper deck welcomed the happy pair with several appropriate selections.

After the steamer left the landing, the Sir Knights and ladies in column, extended personal congratulations to the bride and groom, besides extending many courteous attentions during the trip to Fredericton. Later, while en route to St. John by rail, a handsome wedding gift was presented, contributed by the party.

Arriving at Fredericton about five o'clock, the commandery was met at the landing by Sir Knight, Sir John A. Morrison and James H. Hawthorn, and by their escorts, proceeded by the band, to the Queen Hotel, where dinner was served.

Pending the call to refreshments, the before-named fraters had automobiles in readiness and took the visiting Sir Knights and ladies out to view the city and suburbs. After dinner the band gave a concert on the band stand in front of the parliament buildings, their patriotic airs being liberally applauded by a large and appreciative gathering of citizens.

Under the guidance of Sir Knight Hawthorn many visited the parliament building. Conveyed to the C. P. R. station in autos the party took the 7 p.m. train for St. John, all grateful for the unexpected courtesies rendered.

Sir Knight LeBlanc, who accompanied the commandery and gave personal attention to every detail of the trip, greatly enhancing the pleasure of all.

**DID NOT OBEY POLICE ORDERS, SAYS RANKINE**

In the case of James Moore, charged with singing and shouting in King square and also interfering with the police, Policeman Rankine testified today that the defendant had been asked three times to move on. The last time he had persisted on an explanation as to why he should be stopped singing, and as he would not move away, he was locked up.

Moore said that he was singing the National Anthem with many more people gathered at the band concert, and that he had asked Rankine why he wanted him to stop. The case will be resumed this afternoon. U. J. Sweeney is representing Moore.

## From The Newspaper Side

"There is a common and not unusual scepticism among newspaper readers in times like these," says the New York Sun. "They weigh what they read with distrust which is quite justifiable, even commendable, and not a few of the shrewder sort are very ready to attribute the greater part to the fertile imagination of the newspaper makers."

"This latter tendency is perhaps, no less natural, but it is certainly less just and intelligent. It is due in reality to a curious want of imagination in such readers themselves; for the slightest exercise of that useful faculty must convince any one, however little he knows of the trade, of the enormous difficulty in such emergencies of getting at the real news, of interpreting the ambiguous, of distinguishing between realities and appearances, of sorting the significant and insignificant—in a word separating truth from falsehood."

"Over all the principal sources there is a rigid official censorship. If this implied, as it possibly may in some simple minds, that nothing but bare facts were transmitted hither, the burden of the editor would be wonderfully lightened. What it means in effect is that he is at the mercy of the sundry supereditors who are obviously neither impartial nor disinterested, and that out of a mass of matter, usually fragmentary, often contradictory and sometimes grossly misleading, he is obliged to pick and choose to the best of his judgment in the hope of securing an approximation of truth."

A resolution was also adopted requesting the national officers to grant \$1,000 towards the cost of erecting a memorial to the Irish victims of ship fever buried at Chatham, N. B.

## WAR NOTES

Italy has cancelled her participation in the Panama Pacific Exposition on account of the gravity of the situation. England has notified Washington that two American observers will gladly be permitted to go to the front with the British troops.

The announcement that the Montenegro occupy Mount Tarabosh, dominating Scutari, is confirmed. A German aeroplane flew over Brussels yesterday at a height of two thousand feet, and escaped.

The precautions taken by the British government to safeguard the country against aliens do not affect Americans landing in Britain.

War risks have reached a point where a Canadian shipper from Montreal must pay in extra rates \$37,000 on a cargo valued at \$180,000.

## SERIOUS EFFECT ON LABOR MARKET

Marked Falling Off In Steerage Business To States

## WAR KEEPS MEN AT HOME

Fearful That Unskilled Labor Will Be at Premium if the War Keeps up Long—Many European Ports Now Closed

New York, N. Y., Aug. 12.—The falling off in steerage passengers from abroad for this year up to last week, as compared with the same time a year ago, was 800,000, which, according to steamship agents and contractors, means a corresponding decrease in the supply for the labor market. Should the war continue for any length of time, the depression prevails that unskilled labor will be at a premium for some time to come.

Already the heads of corporations employing large forces of laborers, contractors and city officials engaged in public works, are worried over the effects of the European war on the labor market. It is generally conceded that immigration for a year or more will be seriously affected by the war. The men are bound to suffer, it is said, because the war will close industries, and without wages the peasants cannot save the money necessary to pay their passage to the United States.

Of the immigration to this country last year more than a third came over in the steerage. The immigrants represented all nationalities, the greater number coming from those ports in France, England, Germany, Belgium and Holland, which are now practically closed to sea travel. The difficulty in reaching that city from other parts of Europe is being increased by the war.

## THE SIDEWALK PROBLEM

The city sidewalk problem is not becoming less acute. Complaints are being made constantly regarding the condition of sidewalks in streets where new pavements have been laid and curbing placed. The curbing is being laid at a corrected grade, which seldom agrees with the lines of the old sidewalk, and as the walk in several streets is being raised, the result is unsightly and dangerous.

The new work bordering Queen Square is to include permanent sidewalks as the property owners have agreed to pay half the cost, but complaints are being made that no provision for sidewalks has been made for the section of Orange street, which is to be paved.

This morning Commissioner Potts said that he could not provide sidewalks without money and that was the position in which he found himself, as the estimate prepared before he took office was not sufficient even to do the repair work required, much less lay sidewalks of the kind he desired. He had asked for the bond issue to cover permanent work, but this had been refused and an estimate of the kind of repair asked for. This had been furnished but no action was taken and he was no nearer a solution of his problem.

## P. E. ISLAND TO SEND SEVENTY OR EIGHTY

The appeal for contributions to a hospital ship for the British navy in Canada is being pushed, and ready response here. About \$350 has been collected so far.

## VOLUNTEERS AS NURSE

## WHOLE BODY A SOLID RASH

Thick, Fine and Red. Agony of Itching and Burning Frightful. One Case of Cuticura Soap and Box of Cuticura Ointment Cured.

Lower Onslow, N. S.—"At first we thought my child's trouble was his teeth. The whole body was a solid rash and at the time he was a Red Cross nurse. Miss Wandless is a daughter of Thomas Wandless of Fredericton."

The skin on every finger split down on each side and looked like a ruff. His toes broke out in little yellow pimples and the bottom of his feet felt raw and he would say he could not walk. That there were pins sticking in his feet.

"The agony of itching and burning was something frightful. If he got a chance he would scratch the skin right off and make sores, but to prevent that I made mittens for him out of cotton. Every night from seven o'clock until three in the morning he would have to be taken up out of bed and rocked, his sufferings were so bad."

"With no permanent cure in sight I got the Cuticura Soap and Ointment. The first night the child slept for four whole nights, the first night for four months. I am thankful to say the cure was complete and I just got one box of Cuticura Ointment." (Signed) Mrs. Samuel Higgins, May 17, 1913.

Cuticura Soap and Ointment sold everywhere. For liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

CUTTING OF CABLES A BLOW TO GERMANY; APPEAL TO STATES

Washington, D. C., Aug. 12.—Secretary Bryan has transmitted to Great Britain formal representations made by Germany on the subject of cable and wireless communication to and from a neutral country, such as the United States, to belligerent countries.

"Should Great Britain continue to prevent Germany from sending cable messages through London to the United States, it is believed Germany will make a vigorous effort to have the United States remove its censorship on German wireless stations. The state department is considering. The Hague convention states that it is not obligatory upon a neutral power to exercise censorship over either wireless or cable communications."
