## MINERAL WEALTH OF THE BOUNDARY

IT IS A COUNTRY OF GREAT POSSIBILITIES

Something About the Mines Now Being Worked-Progress on the Oro

Boundary country says: "It is astonishing how little the out-

far Northwest, not one man in a hun- ever tested. There are other claims along dred thousand could tell you whether Greenwood were in the States or in Canat transcontinental railroads battling right-of-way all over this section. I for right-of-way all over this section. I can travel from here to Montreal in a palace car on the Canadian Pacific railway and twenty miles from here I can take a palace car on President J. J.

"It is four miles from the Oro Denorous Carlot of the Canadian Pacific railway and twenty miles from here I can take a palace car on President J. J.

"It is four miles from the Oro Denorous Carlot of the Canadian Pacific railway and twenty miles from the Oro Denorous Carlot of the Canadian Pacific railway and twenty miles from the Oro Denorous Carlot of the Canadian Pacific railway and twenty miles from here to Montreal in a palace car on the Canadian Pacific railway and twenty miles from here to Montreal in a palace car on the Canadian Pacific railway and twenty miles from here to busy themselves with lime dykes in British Columbia, even though the palace car on the Canadian Pacific railway and twenty miles from here I can take a palace car on President J. J. Hill's railroad and run right through to New York. President Hill has not yet been able to get any of his lines into Greenwood. He is exceedingly anxious Greenwood. He is exceedingly anxious ground is unprospected, it is to, but Sir Thomas Shaughnessy has for the present out-witted and out-generalled President Hill and on this war of the American and Canadian railroad kings American and Canadian railroad kings ("The Mother Lode is another lime to the control of the American and Canadian railroad kings ("The Mother Lode is another lime to the control of the control o hangs a great story. Neither President nor President Shaughnessy would

tle river branches off to the west. Kettle river is not a very poetic name, but if you have time and leisure and opportunity you can travel along the Kettle river from its junction with the Columbia to its source to the west and north, and during that journey rouse. north, and during that journey you will be constantly in touch with the most beautiful sylvan and river scenery in the world. For 300 miles along this en-chanting river the sportsman can sit upnorth, and during that journey you will chanting river the sportsman can sit up-on the bank and angle for the finest ouse or game, and all the time if he he lover of nature there will be rapture and delight at the sight of so much na-

patch, and the grain field and the log cabin tell you that civilization is advancing and that enchanting natural beauty must give way to the requirements of a greedy and voracious age. The very sight of a steamboat in Venice filled Rus of the virgin forests that crowd the values of the virgin forests that crowd the virgin forests sight of a steamboat in Venice fined russ, in with horror, it broke the spell of the exquisite beauty of the queen city of the Adriatic, and the iron horse of civilization, and the iron horse of civilization and the iron horse of civilization and the iron horse of civilization of the substitution of farms therefore. That means for generations to come active mining, lumbering, farming one industry. It means

le river meets the parent flood at Granby and there a smelter is treating 2,000 tons of gold and copper ore daily.
"Twenty-five miles further west Boundary creek branches off and on that river are two smelters, the Boundary Falls smelter and the Greenwood smelter, each treating 700 tons a day of gold and copper ore.

"There are at present 4,000 tons of old and copper ore being treated daily by the smelters of this country. Within a year this can be increased to twenty or thirty thousand tons a day. "A ton of coke is needed for every

eight or nine tons of ore, that is the only flux needed with this ore of the Kettle River country, and that means that in a little while the railroads will be handling 25,000 tons of ore daily and will be hauling daily into this country 3,000 tons of coke. It also means hauling to New York 300 tons of copper every day for 365 days in the year.
"That is the traffic that President Hill and President Shaughnessy are conending for. When the copper mines of she said:

tana's great mining camp is as idle as
Ninevah, this Kettle River country will
be a teeming hive of industry, enriching
the world with its gold and copper.

"They do not mine for copper here." "They do not mine for copper here, they simply quarry it out from the mountain side. The superintendent of the Granby is tearing out the rock with the Granby is tearing out the rock with the dears of the control of t

"The Mother Lode, the great mine of the B. C. Copper Company, could be made to produce 5,000 tons daily, but its small transfer and the first small transfer and its smelter can only treat 700 tons.

"The Snowshoe cannot get its ores weighed over 60 ibs. when in the flesh. Referring at length to the Oro Denoro. YOUNG MEN, Become Independent where rich veins drew Smith Curtis out of politics, Mr. O'Farrell continues: "The Oro Denoro was opened up by a fail-poad cut. A vein probably 400 feet wide, running north and south and dipping to running north and south and dipping to

the east was encountered. A mountain rises to the south of the railroad cut and the miners are quarrying the ore from the side of this mountain. This quarry, probably 400 feet wide, is a lime

lyke between granite walls. This dyke s impregnated with iron and gold and copper and sulphur. There is no zinc nor arsenic. There is very little silica and the iron runs to 40 per cent. The ore will run about 35 pounds of copper to the ton and from one dollar to two dollars in gold. It can be mined and put into matte for \$2 per ton. Every ton of ore in that lime dyke, with copper at 12 cents, could be made to tt \$2.50 a ton, but that would reuire an investment of \$1,000,000 in a eduction works to treat say 2,000 tons a day, but that would give a profit of \$5,000 a day. The Oro Denoro needs a great smelting plant that will treat thousands of tons, and when it gets that P. A. O'Farrell in a letter from it will be another Rio Tinto. The eenwood on the great possibilities of Granby is one already. The Granby company own about a mile and a half on this lime dyke, on which the Oro Denoro is situated. The dyke is 400 feet e world knows of this section of the wide and the values are the same wher-Messrs. Mann & Mackenzie are too busy

dyke, parallel to this one and about six be battling for rights-of-way up here in the mountains and glens of British Cothe mountains and glens of British Co-lumbia, but that vast tribute were to be furnace with one ton of coke and a 50 furnace with one ton of coke and a 50 had from operations in progress here.

"Take a new or old map of North America and pick out that spot on the right bank of the Columbia, where the right bank of the Columbia and the right bank of the right bank of the Columbia and the right bank of the Columbia and the right bank of the industry in this country can become. The extraordinary thing is that both capital

"The smelters of this country get their on the bank and angle for the unest mountain trout, or he can wait till the fleetest of deer comes to slake his thirst in the cooling waters of this crystal river, or he can hunt those rolling hills for realize the mining possibilities of this realize the mining possibilities of this wonderful country, and it was he that projected the Columbia & Western raila lover of nature there will be rapture and delight at the sight of so much natural loveliness of hill and dale, of wood and river, of sky and mountain.

"And its loneliness is equal to its loveliness. Sixty-five miles from the Columbia the valley midens out and rich meadows, grain fields, orchards and garist him and he had been derived and provided to the Canadian Pacific in orthe valley narrows again and the sloping forest-clothed mountains come right down to the river, and for twenty miles and line and poplar. Then at Midway the valley widens out again, and for a hundred miles to the west the Canadian pioneer is grabbing out the gedar and pine and planting the peacl of the columbia to Columbia to Okanagan lake 300 miles weet, will grow every kind of fruit and the solutions and the solution of the valley and planting the peacl of the columbia to Okanagan lake 300 miles weet, will grow every kind of fruit and an analysis position among his fellow successed to the columnation of condon of the sain index of his face is an index of his for Canada.

This was not unexpected, as the entry of Arch. McDonald into the contest made the situation a very performent flood at the delegate was confined to contest the riding, has withdrawn. This was not unexpected, as the entry of Arch. McDonald into the contest made the situation a very performent flood at the delegate was confined to contest the question of preferential trade. Opinions differed to the subject. There were not because the entry of the delegate was confined to contest the question of preferential trade. Opinions differed to the entry of Arch. McDonald is road bows in the delevance riding like Lillooet, means that he is in sion to point out that the subject was to ascertain from the local members and a position to sway a dictator's power in election time. It was not Mr. McDonald's intention at first to enter the fight,

Mr. Lugrin was accorded a vote of

Taking up the question of fish traps, upon a resolution approving of them passed by the council of the board, the cretary read the resolution, which was as follows:

That, in the opinion of the council of the Victoria Board of Trade, it is advisable, in

prevention of waste and the wilful and careless destruction of fish life by those engaged in the business.

D. W. Higgins said he had just required from the West Coast, where he went in the interests of fish traps. (Laughter.) He said that there was apparently abundance of fish there. It is abundance of fish there is a result of the same thing. parently abundance of fish there. It be regarded as was quite apparent that as a result of ing introduced.

the minister's visit. Mr. Higgins approved of this latter

J. J. Shallcross opposed the suggestion ew of the fact that Premier Mc-Bride had expressed himself against fish traps. If that was Premier McBride's private opinion, he had no objection to his holding it, but he wanted to know if he was voicing the sentiments of the government of which he was the head, in making that statement. He thought it would be wise to take action and assubject, so that they might know where

they stood. This was a business propo-sition, and they must consider it as such Mr. Helmcken, seconding the resolu-tion, said that he had for three years worked for the introduction of fish traps. He still was in favor of them. It was a question of vital interest to Victoria Yesterday afternoon the board of trade met for the purpose among others of dister they should have the right to use

Mr. Helmcken read the remarks of Premier McBride, in which the latter there was a very large attendance.

Many of the members showed a disposition to continue to oppose the introduction of fish traps." Mr. Helmcken dependent of its political significance: then added that he had a fixed determination are caused by bad blood. Paleness and pimples, blotches and boils, ugly

months.

Worse and soon developed into an aggraworse and soon developed into an aggravated case of eczema, causing a great months.

F. ELWORTHY.

Senator Templeman had sent the following reply:

F. Elworthy:

Mr. Prefontaine will visit Victoria on fish coming to a hasty conclusion. The subject had been strenously opposed in the past, and the minister might well be excused from coming to a hasty conclusion. The will be not only record that the rest in the subject had been strenously opposed in the past, and the minister might well be excused from coming to a hasty conclusion. The will be not only record that the record that the rest is not my life—to the past, and the minister might well be excused from coming to a hasty conclusion. The will be not only record that there was a declaration of the better, and as time ed change for the better, and as time were only the change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and as time were only to change for the better, and the minister will be the minister might well be a change for the better. coming to a hasty conclusion. The division of opinion was shown in the ex-benefit as I have done." pressed avowal of Premier McBride that he would oppose the introduction of poor blood—and most diseases are due traps.

J. L. Beckwith favored leaving it on Pills will not cure. You can get these the table. There could be nothing accomplished this season in the matter.

They should be prepare to work together without introducing politics in this matter, so that matters should be satis- ber that substitutes cannot possibly factorily settled for next year's salmon cure.

season. Mr. Higgins wished the resolution la'd over. He was sorry that Mr. Hayward, who was generally so diplomatic, should who was generally so diplomatic, should have attempted to attribute delay to the Federal minister. He did not want politics introduced. He approved of the prompt manner in which the message Vancouver city has the distinction of Canada, in case of need, would place at prompt manner in which the message having the largest number in the field with her sixteen candidates, from which sources of the country. that the minister meant business. He did not wish at the present time to pass

been endorsed by the Liberals, and is receiving the unanimous support of the party there.

The greatest debate was confined to the minister of fisheries would have

government and all the candidates of Vic-

T. M. Henderson did not approve of localizing this subject. They should get the opinions of the candidates on Van-

couver Island at least.

H. Munn thought it useless to approach the local government on the subject. It had no power in the matter, the interest of the fishing industry, that the government hatcheries should be enthe government hatcheries should be enlarged and improved, and that fish traps should be allowed in the British Columbia waters, due regard being paid to the enforcement of proper restrictions for the prevention of waste and the wilful and provinces destruction of fish life by those

was quite apparent that as a result of the fish traps used by the United States, British Columbia was hatching salmon which was intercepted on their way back by these traps, and the United States canneries fattened upon our labors. He like was undoubtedly a strong point in the statement he cid.

Mr. Higgins also put in a strong plea for taking action in this matter, and aid-ing the facilities for navigation on the West Coast.

The matter was referred to the council to take action in the matter. J. G. Bostock was received as a mem-

ber of the board. The president was given until to-day to name a delegation to wait upon the local government and the legislative candidates on the matter of fish traps. The meeting then adjourned.

## Skin Diseases.

INVARIABLY DUE TO POOR AND WATERY BLOOD.

Sept. 29 and 30, Oct. 1 and 2. \$20,000 IN PRIZES AND \$20,000 OPEN TO THE WORLD.

A Round of Pleasure for Four Whole Days. British Columbia was hatching salmon which was intercepted on their way back by these traps, and the United States cameries fattened upon our labors. He thought it was lamentable that, through the negligence of governments; the life blood of Victoria should be sapped. He blood of Victoria should be sapped. He noved the adoption of the resolution, but the chairman announced that Mr. Kingham's named appeared as the seconder.

J. Kingham suggested that the resolution should lay on the table, in view of the announcement that Hon. R. Prefontaine was to visit the province and
