SHORTHORNS FOR AROOSTOOK.

W. W. Hubbard returned this morning from up river points and reports that the recent rains have worked wonders on the crop outlook. What is now wanted is warm weather and occasional rains. The hay crop will, except on the lower St. John, likely be considerably below the average, but grain looks well and growing conditions for potatoes and roots are now good.
Although the price of hay is away up and New England reports indicate it will continue high, the interest in Shorthorn stock is not abating. On the 17th inst, sixty head of pedigreed Shorthorns were sold by auction at Fort Fairfield, Maine, and were pretty well distributed over Aroostook county, a few were bought to come to Victoria county as soon as the embargo is lifted. This lot of cattle, Mr. Hubbard says, were nearly all Ontario bred animals and owned by Geo. C. Cary, of St. Johnsbury, Vermont. Some of them were very choice specimens and sold at good prices. A considerable number were very stout after their trip and confinement to dry feed, and did not show to advantage. This militated against high prices, as did also the large number offered. The prices ranged from \$250 down. The average for the whole sale not counting the young calves, was \$107 per head. Had the embargo been lifted quite a number of these cattle would have been purchased by New Brunswick buyers.
Mr. Hubbard reports that he has now orders for a carload of Shorthorns and will leave for Toronto tomorrow evening to bring them down. He will also bring a few Clyde horses.
His address until the 26th inst. will be Rossin House, Toronto.

WALCOTT-JACKSON FIGHT.
PORTLAND, Ore., June 18.—Joe Walcott, of Boston, and Young Peter Jackson, of Baltimore, both colored, fought a twenty round draw at the Fastime Club last night when the referee declared it a draw at the end of the twentieth round. The crowd yelled for Jackson, as it was clearly his fight for the last five rounds. In the last few rounds Walcott clinched repeatedly and hung on with his arms around Jackson's waist, the referee having to pull them apart.

The speckled beauty weighs 7 1/2 lbs., is 34 inches long, and has a girth of 17 inches. The successful angler is Dr. L. A. Langstroth, who hooked the trout last night in Treadwell's lake.

POLICE COURT.
James Carr, a sample of good old Highland blood, was picked up in a dilapidated condition on Water street yesterday and put in cold storage for a night. This morning he was let go from court as his warrant to leave for his home in Nova Scotia. Carr is quite old and partly blind.

Lavina Bantry says that all cops look alike to her, and for this reason she remarks when arrested last night were directed towards the police as a body rather than to officer Marshall, who had her in charge. Miss Bantry went in as an assistant cook for two months. James O'Brien, eighty-two years of age was arrested for lighting a bonfire on Elm street. O'Brien had some objections to accompanying the officer but these were overruled and only resulted in a charge of resistance. He was fined eight dollars but this was allowed to stand.

George Addison appeared to answer the charge of assaulting Robert Love in W. H. Love's stable on Tuesday last. It appears that Addison while somewhat under the influence of liquor went to Love's stable and got into an altercation with a young man there over the birthing of a horse. During the proceedings Robert Love, who came out of the yard, was struck in the eye by Addison. The latter was fined twenty dollars or thirty days in jail.

LOADED FOR FIVE YEARS.
PLOURKEEPSIE, N. Y., June 19.—Dr. John P. Wilson, of this city, removed from his throat last night a bullet that had been in his head for five years. Dr. Wilson felt a soreness in his throat and at a mirror saw the cause of the trouble and removed it with forceps. While examining a rifle in W. H. Love's stable the gun was discharged and the bullet entered the doctor's head near his nose.

HIS OCCUPATION GONE. A Clever Sharpie Arrested by the Chicago Police.

CHICAGO, June 18.—"Prof." A. A. Arthur, a septuagenarian, who was sought by the police of a dozen cities for nearly a score of years, has been caught at Monmouth, Ill., by Chicago detectives. Arthur has operated under many different names, and when he was arrested papers were found in his possession indicating that he was traveling as the vice-president of a bank, a professor in an eastern college, a tourist, a lecturer and a minister. In his satchel was found a full banking outfit, including 500 imitation drafts on the National Park Bank of New York. The police have been working on the case ever since these bogus drafts began to appear, over a year ago. As the Rev. D. A. Postham, it is said that the prisoner professed to be a Methodist preacher. Arthur's latest alleged swindle, by which he is believed to have obtained \$200, is thus described by the police: "He would deliver a lecture and when about to leave would produce a New York draft, sometimes \$25 and sometimes \$100 or more. The paper appeared regular in every way and there seldom was difficulty in cashing it.

CHARGED WITH FRAUD. A Chicago Promoter Goes to Jail for Refusing to Answer Questions.

CHICAGO, June 19.—Charged with fraud in a \$2,500,000 mining deal in which his associates are declared to have been \$300,000, Theodore Gross, a mine promoter, spent last night in the county jail. The immediate cause of his imprisonment was his failure to answer questions of the master in chancery, John J. Healy, Richard Folsom, the Chicago manager of Walter Baker & Co. is Gross' accuser. He declares that Gross fraudulently withheld \$125,000 due him as commission in the sale of the Camp Bird Mining Company stocks from Thomas Walsh, the Colorado millionaire, now of Washington, D. C., to the Venture Company of London. Gross was arrested at the Chicago Athletic Club. He arrived in Chicago on Tuesday evening from London.

A FATAL COLLISION.

ST. LOUIS, June 18.—Shortly before midnight an east-bound Big Four passenger train ran into the rear end of an eastbound Illinois Central train which was standing at the Illinois approach to the Eads bridge. J. L. Dodge of Dallas, Texas, who was in charge of an extra loaded with race horses was instantly killed. Thirteen of the horses were so badly maimed that they will have to be killed. The trotter Heblina, with a record of 2:09 was kept on. The Illinois Central train was standing in the approach waiting for a signal to go ahead and entered the terminal station when the Big Four train, running rapidly, crashed into the rear.

BODIES RECOVERED.

HEPPNER, Ore., June 18.—The number of bodies recovered from the flood ruins one hundred and fifty-three up to tonight. Fifty-one bodies were found today in drifts along Willow Creek. Although the missing list is reduced by the discoveries made today it is likely that the missing and unknown list will be further increased by strangers whose baggage was found today. The number of missing remains from fifty to sixty. A list of valises and trunks prepared today establishes the fact that from fifteen to twenty transient passengers went down in the flood. The number of dead and missing will probably reach two hundred and thirty-five.

The main feature in the situation are that there is every indication of a heavy yield, and an early harvest if the present favorable conditions continue.

His place of business is lightly by acetylene gas burners, and last evening Mr. Chipman, thinking that they were not burning quite as brightly as they should, went in to attend to them. He took hold of a general burner cover, when there was an explosion. People passing saw flames and heard the report, and sent in a still alarm at No. 1 station, but the fire was easily put out without the assistance of the hose reel, which was sent.
Mr. Chipman's face and hands were burned and his moustache, eye-brows and lashes and part of his hair, were charred off, but otherwise he escaped injuries. His burns were attended by Hazen Dick, the druggist, and he was able to attend to business as usual last evening.

THE CATTLE EMBARGO.

It is understood that the quarantine under which Massachusetts and New Hampshire have been since early last fall will be raised on July 1st if no cases of foot and mouth disease among cattle are reported before that time. The bureau of animal industry at Washington offers a large reward to any person who shall first report any case or cases of this disease in the eastern states, and it is believed that the reward will be sufficient inducement to prevent the concealment of any cases. When the quarantine is removed, on July 1st, foreign countries will be asked to receive live stock from New England ports.
The present embargo is now of no further use to St. John, but during the winter it was responsible for the shipment from this port of many thousands of cattle.

AN EXPERT OPINION.

What John Hyslop Has to Say About the New Shamrock.
NEW YORK, June 19.—The opinion of an expert, acknowledged to be a past master in judging the capabilities of sailing craft, counts for anything, the view taken by John Hyslop, when he saw the lines of the cup challenger exposed in the dry dock in Erie basin, possesses some significance. Mr. Hyslop was for many years the official measurer of the New York Yacht Club. His tapeline has been stretched over more acuate Queens than any other man in the world. His judgment never has been challenged. Mr. Hyslop said this to any of the challengers.
There is no question that she is an easy boat to drive and does not show all the power she possesses. I am amazed at the difference between her midship section and the midship section of the Reliance. She has tremendous strength forward and is not at all likely to pound in a seaway, so nothing can kill her speed.
The Shamrock II. will heel very easily, but when she does she will sail on a long flow. She is a wonderfully modelled boat, absolutely and beautifully finished.

BOOKER T. DECLINES A JOB

Which Would Take Him Away from Conscientious Hotel Servants.
WASHINGTON, June 19.—Booker T. Washington, president of the Tuskegee Institute has been asked by Lord Grey, Cecil Rhodes's successor at the head of the British South Africa Co., to investigate conditions and recommend a system of industry and education for the African race, upon which that company draws for labor. The British government proposes to give its assistance to such a project.
After talking the president, Mr. Washington announced that he would decline the flattering offer.
"I will devote all my time and efforts to the work at Tuskegee," said Mr. Washington, "trusting that it will indirectly assist in the uplifting of the race in Africa. The work here is such that I do not feel I can leave it even for a few months that would be required by the mission to South Africa."
"I was in correspondence with Lord Grey and W. T. Stead. It appears that the estimates of dominion expenditure for the current year amounted to \$4,152,902, including \$65,000 for immigration purposes. The Intercolonial Railway estimates amount to \$470,235. These include Eastern Extension Railway, New Brunswick, balance, \$1,250; Eastern Extension Railway, Nova Scotia, \$5,132-total, \$470,235.
P. E. I. Railway—Addition to freight house, Mount Stewart; \$200 to straighten on line at Blue Shank; \$4,000; Murray Harbor Branch and Hillsboro bridge, \$450,000; to provide and lay steel rails, \$13,400-total; \$467,400.
The widow of W. G. Robertson, St. John, Intercolonial, gets \$250, and the widow of C. D. Thompson, \$266. There is for St. Andrew's wharf \$850; for River St. John and tributaries, \$7,850. There is an item of \$69,000 for lighthouse and coast service; public buildings, New Brunswick, Marysville public building, \$2,700.
To provide for a steamship service between Canada and South Africa, there is \$109,500; \$28,353 for service between Canada and Australia, and \$22,083 additional for service between Canada and Britain; \$42,000 for fisheries, and \$303,943 for Yukon governments.
The redistribution committee met yesterday for the first time in public. When New Brunswick was taken up Mr. Borden said that it had been suggested to join Albert and Kings. He had suggested joining Albert to St. John Co. instead, to provide for the necessary reduction of one member in the province. This was also favored by Mr. Fowler.
Mr. Hyman pointed out that the community of interests would not be the same between Albert and St. John Co. as between Albert and Kings.
Mr. Fowler showed that as far as population went his suggestion would be better. The matter stood over.

SHAMROCK III IN DANGER.

Trouble With Blocks Prevents Dry Docking at Robbins' Yard, Erie Basin.
NEW YORK, June 19.—The Shamrock III, came very near being treated to another accident this afternoon when she was in the dry dock at Robbins' yard at Erie Basin.
Both Shamrock and her keel had been hauled into the dock and the water was being pumped out. As the water began to fall it was noticed that the Shamrock III started to go down by the head. Capt. Wringe became alarmed and notified the officials of the dry dock, and the dock was flooded again.
In placing the blocks no allowance had been made for the formation of the Shamrock III's keel. It is said by the dry dock people that the blocks were set up according to the plans, which must have been wrong. Those connected with the Shamrock III say the plans were over were those drawn by Pife, from which the yacht was docked on the other side.
No injury was done to the boat, and she will be docked tomorrow.

Among the localities now mentioned are the south side of King square, the vacant corner on Germain street, opposite the Clifton House, the vacant space between Prince William street and Canterbury south of Princess and Chipman Hill.
