Dividend Prizes

Make Them Worth What You Please

How to Enter

This contest is open to any person residing in the Maritime Provinces and to all others who may be within reasonable reach of The Standard office by mail.

A payment on subscriptions to the Standard, Daily or Semi-Weekly, of from \$1.00 to \$6.00, entitles the contestant to submit a solution of the puzzle.

The amount of money paid in will cover the subscription price for the paper according to the regular rate whether the rate be for city delivery or by mail.

AS MANY DIFFERENT SOLUTIONS MAY BE SUBMITTED AS THE CONTESTANT DESIRES, UPON MAKING AN ADDITIONAL PAYMENT WITH EACH ONE. BUT NOT MORE THAN \$6.00 CAN BE PAID WITH ANY ONE SOLUTION.

It is not necessary to pay the same amount with each solution if more than one be submitted.

As the prizes have an added value according to what is paid in on subscription with the winning solutions contestants should familiarize themselves with the dividend schedule before sending in their subscriptions and their solutions.

Remit by check, money order or registered letter.

Whatever is paid, whether on the one or on a number of solutions will apply on one continuous subscription to The Standard.

Solutions not accompanied by cash subscriptions will not be registered.

This contest is open to both old and new subscribers.

The Puzzle

The problem is to ascertain the total of the figures in the puzzle chart.

Just add them up as if they were in one long column under each other.

The figures run from 2 to 9. THERE ARE NO DOUBLE FIGURES and no characters which are not figures. The tail of the "6's" is a decided curve, while the tail of the "9's" is straight. All the other figures have their usual characteristics. So there is no intent to allow any question to arise over the identity of a figure.

In the event that no one ascertains the exact total, the prizes will be awarded for the nearest correct solutions.

Special Notice

Contestants are hereby instructed that no amount greater than \$3.00 will be accepted for one continuous subscription to the Semi-Weekly Standard. If any competitor desires to send in a greater amount of money than \$3.00 it will be necessary to have the amount apply on a subscription to the Daily Standard. It is not desirable that any subscription to the Semi-Weekly Standard shall be paid for more than three years in advance.

What's the Total of These Figures?

Here is The Prize List

120 prizes are offered which together form a total of \$1310.00. The amount of each individual prize will to some extent depend upon the amount of money sent in by the individual winners. The prizes are as follows:

FIRST PRIZE

\$100.00 in gold to which will be added twenty-five times the amount paid in by the subscriber with the winning solution. This prize may be worth \$250.00.

SECOND PRIZE

\$50.00 in gold to which will be added twenty times the amount paid in by the subscriber with the winning solution. The value of this prize may be \$170.00.

THIRD PRIZE

\$30.00 in gold to which will be added ten times the amount paid in by the subscriber with the winning solution. The value of this prize may be \$90.00.

FOURTH PRIZE

\$20.00 in gold to which will be added ten times the amount paid in by subscriber with the winning solution. This prize may be \$90.00.

FIFTH PRIZE

A fixed amount of \$30.00 in gold without any additional dividend.

FIVE PRIZES

Five prizes of \$10.00 each to which will be added two times the amount paid in by the subscribers with winning solutions. Each of these prizes may be worth \$22.00.

TEN PRIZES

Ten prizes of \$5.00 in gold to which will be added the amount paid in by subscribers with the winning solutions. Each of these ten prizes may be worth \$11.00.

FIFTY PRIZES

50 prizes of \$1.00 each to which will be added the amount paid in by the subscribers with the winning solutions. These prizes may be worth \$7.00 each.

FIFTY PRIZES

Fifty other prizes of \$3.00 each without any additional dividend.

This Whole Prize List Makes a Total of \$1,310.00 Divided Into 20 Prizes.

Contest Closes Saturday, November 8, 1913

Always use the solution blank and read it carefully before filling out. Write your name and address plainly.

The payment of from \$1.00 up to \$6.00 on your subscription allows you one solution; but the payment of \$6.00 or your subscription gives you one solution and six times as much in dividends.

An additional payment of from \$1.00 up to \$6.00 entitles you to another solution. Remember, the larger the amount you pay on your subscription the larger will be your dividends should you win one of the dividend prizes.

Study the first prizes and dividends offered and send in your solution today. No one associated with The Standard in any way will be allowed to enter this contest.

Deciding Ties

In case there are ties, as many prizes will be reserved as there are contestants tied, before any prizes are awarded for less correct solutions.

For instance, if two people tie on the absolutely correct answer, they would have to solve a second puzzle to determine which was entitled to the first and which to the second prize. Then the one who sent the next best answer would be entitled to the third prize. This rule will apply generally.

If there should be more ties than there are prizes offered, a second puzzle will be presented. No money will have to accompany the solution of this second puzzle. It will be practicable and solvable, and only those who send in correct solutions to the first puzzle will be permitted to solve puzzle No. 2. The second puzzle will be printed only three times and those eligible to solve it will have a week in which to prepare their solutions.

In the event of ties on the second puzzle, a third puzzle will be presented. The second and third puzzles will be used only in the case of ties and their purpose will be merely to decide those ties, so that it may not become necessary to divide the prizes. However, not more than three puzzles will be presented and in the seemingly impossible event of still another tie, the prizes will be equally divided.

IF THERE ARE NO TIES, THERE WILL BE ONLY ONE PUZZLE.

No prizes will be distributed until the contest is finally decided.

Solution Coupon

Cut out this blank smoothly around the border and send it in as soon as possible with your solution and money.

REMARKABLE SIMP CHARACTERIZE R

Prince Arthur of Connaught
be United in the Chapel
at Noon Today—To be a

London, Oct. 14.—Remarkable simplicity for a royal ceremonial will characterize the wedding of Prince Arthur of Connaught and the Duchess of Fife in the Chapel Royal of St. James's Palace tomorrow (Oct. 15). With such a setting of ornate decorations and richly painted ceiling as the quaint old room presents, with the uniforms of the men of the royal family and court officials, and the jewels worn by the ladies, the ceremony it-

PRINCE ARTHUR.

self must have a tinge of the spectacular. But compared with the recent wedding of the daughter of Emperor William, and devoid of all processions and military display, the ceremony will be as simple as adherence to traditions will permit.

Partly because of mourning for the recent tragic death of the Duke of Fife, whose fatal illness was brought about by hardships suffered in being shipwrecked on the coast of Morocco, and partly because both the bride and groom are constitutionally averse to display, it was decided to have the wedding a family affair. There will be a large group of royalties from other countries present—including the Kings and Queens of Denmark and Norway, Prince Henry of Prussia, the Dowager Empress Marie of Russia, and the Crown Prince and Princess of Sweden—but they will attend as relatives, and there will be no guests of state from abroad.

The King will give away the bride, while the Princess Royal, mother of the bride, will also support her at the altar. The bridegroom's supporters will be his father, the Duke of Connaught and the Prince of Wales. The Archbishop of Canterbury, the highest dignitary of the Church of England, will conduct the marriage service, assisted by the Bishop of London and Canon Edgar Sheppard, who are Dean and Sub-Dean of the Chapel Royal. During the ceremony the King and Queen will occupy gilded chairs on a raised dais directly facing the altar and close behind the bride and bridegroom.

St. James's chapel is a small room, accommodating about 300 people. The ceremony will begin at noon and will be finished before one o'clock. Prince Arthur, the bride and other persons ages who take part will be driven from their palaces and residences in royal carriages, and the whole company, including the Ambassadors and Ministers of foreign powers, will be marshalled to their seats by high state officials in their regalia.

Every step of a royal function is timed to the minute. Prince Arthur arrives at five minutes before twelve wearing his uniform as a Captain of the Royal Scots Greys and the ribbon of the Garter, the highest order of nobility in Europe. The uniform of the Prince of Wales will be that of a lieutenant of the navy, while the Duke of Saxe-Coburg will wear the kilt and tartan of the Seaforth Highlanders, of which he is Colonel in Chief.

There will be three semi-state processions from St. James's Palace to the Chapel, by way of the State Apartments and the Grand Stairway into Colour Court. These processions will be composed of the clergy, the bridegroom with his suite and the bridesmaids and pages. When the three processions have taken their stand before the altar railing the young King and Queen, supported by the Duke and Duchess of Norway, followed by five bridesmaids and a bevy of pages. The bridesmaid will be Princess Mary, daughter of the King and Queen; Princess Maud, only sister of the bride; Princess Victoria and Princess Helena of Teck, daughters of the Duke and Duchess of Teck; and Princess Mary, the little daughter of Prince and Princess Alexander of Teck.

The pages will include Prince John, the King's youngest son; and Prince Olof of Norway. After the bride will enter an interesting procession of royal relatives, foremost among them Queen Alexandra walking with the Princess Royal, the Duke and Duchess of Connaught, and last of all the King and Queen with the officials of the household around them. The King will wear the uniform of a Field Marshal as the groom is attached to the army and the Duke of Connaught and other royal participants who are entitled to wear military uniforms will do so. Each of the leading personages, including the Queen and Queen Alexandra, will wear the broad blue sash of the Order of the Garter.

The simple service of the Church of England will be performed, beginning at noon, and the Archbishop will address to the young couple will be very brief. Upon the Prince of Wales devolves the important duty of carrying the wedding ring, which is of twenty-two carat gold from the mountain of Wales.

The ceremony will be finished within three-quarters of an hour. The royal procession will be reformed with the King and Queen directly after the wedded couple, and will withdraw to the historic picture gallery of St. James's Palace, where the registry is to be signed by all the
