

DYSPEPSIA

If there is any person more unhappy than the dyspeptic it would be hard to find him. Dyspeptic people are generally tortured by a constant desire for things they know they must not eat. Dyspepsia is a very common disease; most people, particularly those who do not take enough exercise, are inclined to it more or less frequently. The dyspeptic generally has recourse to various medicines which only offer temporary relief from the distress, but do not effect a cure. What the dyspeptic needs is

Dr. Williams' Pink Pills FOR PALE PEOPLE.

These pills are not a purgative but are tonic and strengthening. They act upon the stomach, nerves and blood, and are particularly good for dyspepsia and all stomach troubles. They give relief, but they do more than that. They remove the cause of the trouble and by strengthening the organs they effect a permanent cure.

Mr. William Birt, Pisiquid, P.E.I., is one who suffered for years, and relates his experience for the benefit of similar sufferers. Mr. Birt says: "For many years I was a victim of indigestion, accompanied by nervousness, palpitation of the heart and other distressing symptoms. My appetite was irregular, and what I ate felt like a weight in my stomach. This was accompanied by a feeling of stupor or sleepiness, and yet I rarely enjoyed a night's sound sleep. When I would retire a creeping sensation would come over me, with pains and fluttering around the heart, and then when I arose in the morning, I would feel as tired and fatigued as if I had worked a day. It is needless to say that I was continually taking medicine, and tried, I think, almost everything recommended as a cure for the trouble. Occasionally I got temporary relief, but the trouble always came back, usually in a still more aggravated form. One day a neighbor, who had used Dr. Williams' Pink Pills with much benefit, advised me to try them, and I decided to do so. To my gratification, I had only been using the pills a few weeks when I felt decidedly better, and things began to look brighter. I continued taking the pills for several months, with the result that my health was as good and my digestion better than it had ever been. One of the most flattering results of the treatment was my increase in weight from 125 pounds to 155 pounds. It is more than a year now since I discontinued the use of the pills and in that time I have not had the slightest return of the trouble. We always keep the pills in the house now, and my family have used them for other ailments with the same gratifying results."

Dr. Williams' Pink Pills make new, rich blood with every dose, and in this way they cure all diseases having their origin in poor or watery blood, such as dyspepsia, kidney and liver troubles, stomach ailments, rheumatism, sciatica, partial paralysis, St. Vitus dance and anemia. They restore the glow of health to pale and sallow cheeks and give renewed health to women whose lives are made miserable by the ailments that afflict their sex.

Refuse all so-called tonic pills that do not have the full name "Dr. Williams' Pink Pills for Pale People" on every box. If you do not find them at your dealers they will be sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

OBITUARY.

Rupert E. Sullivan.

Henry J. Sullivan, of No. 12 Charles street, received a despatch Tuesday bearing the sad intelligence of the death of his son, Rupert, from pneumonia, in Baltimore, Md. During the afternoon a message had come stating that the young man was seriously ill, which in a measure prepared the family for the news of his death. Rupert Enslow Sullivan was the eldest son in a family of five brothers and two sisters. He was born 27 years ago in Boston, but had resided the greater part of his life in this city. A few years ago he was on the editorial staff of the Gazette, and later a worker on the Associated Press in New York. It was in this connection that he went through the Spanish-American war. Later he worked for the C. P. R. at Sand Point here, after which he was transferred to Toronto. From that city, after extensive journeyings through the states, he removed to Baltimore and secured the position of day superintendent on a floating steel dock, which the Louisiana government had purchased for use at New Orleans. Deceased had but lately returned to Baltimore. Mr. Sullivan has wired instructions to have the body brought here for burial.

Mrs. Gertrude Cook Gilchrist.

Tuesday the death occurred of Mrs. Gertrude Cook Gilchrist at the residence of her nephew, W. J. Davidson, Elliott row. Mrs. Gilchrist was the widow of Alexander Gilchrist, of the once firm of Gilchrist & Inghis. She was 78 years of age and had been ill some months.

NO MORE ABOUT IT.

President Roosevelt Shuts Down on the Sampson-Schley Affair.

MAKES LENGTHY REPORT.

Finds the "Loop" Was a Bad Piece of Work on Admiral Schley's Part—Neither He Nor Sampson Entitled to Any Extraordinary Credit.

Washington, Feb. 19.—The report of President Roosevelt on the appeal of Admiral Schley from the finding of the naval court of inquiry was submitted today. The president expresses himself satisfied that on the whole, the court did substantial justice, and continues: "It should be specially commended for the failure to enforce an efficient night blockade at Santiago while Admiral Schley was in command. On the other hand, I feel that there is a reasonable doubt whether he did not move his squadron with sufficient expedition from port to port. The court is a unit in condemning Admiral Schley's action on the point where it seems to me he most gravely erred; his retrograde movement, when he abandoned the blockade, and his disobedience of orders and misstatement of facts in relation thereto. It should be remembered, however, that the majority of these actions which the court censures occurred five weeks or more before the fight itself, and it certainly seems that if Admiral Schley's actions were censurable he should not have been left as second in command under Admiral Sampson. His offences were in effect condoned when he was relieved to assist for them. Admiral Sampson, after the fight, in an official letter to the department, alluded for the first time to Admiral Schley's reprehensible conduct six weeks previously. If Admiral Schley was guilty of reprehensible conduct of a kind which called for such notice from Admiral Sampson, then Admiral Sampson ought not to have left him as senior officer of the blockading squadron on the third of July, when he (Sampson) steamed away on his proper errand of communication with General Shafter."

As to whether Sampson or Schley was in command and which of the two was really entitled to unusual commendation, says: "Technically Sampson commanded the fleet and Schley, as usual, the western division. The important fact is that, after the battle was joined not a helm was shifted, not a gun fired, not a pound of steam was put on in the engine room aboard any ship actively engaged, in obedience to the order of either Sampson or Schley, save on their own two vessels. So far as the actual fight was concerned, neither one nor the other in fact exercised any command. Sampson was hardly more probable than Schley to have been in command for credit rests upon his work as commander-in-chief; upon the excellence of the blockade; upon the preparedness of the squadron; upon the arrangement of the ships and the standing orders in accordance with which they instantly moved to the attack of the Spaniards when the latter appeared. Admiral Schley is rightly entitled—as is Comdr. Cook—to the credit of what the Brooklyn did; but I agree, on the whole, she did well; but I regret that the unanimous finding of the court of inquiry as to the 'loop' is seriously narrowed by the Brooklyn's otherwise excellent record, being, in fact, the one grave mistake made by any American ship that day."

He says that after the loop Schley handled the Brooklyn manfully and well. The president finds it evident "that it was just to Admiral Sampson that he should receive a greater commendation in numbers than Admiral Schley—there was nothing done in the battle that warranted any unusual reward for either."

He concludes: "Both Admiral Sampson and Schley are now on the retired list. In concluding their report, the members of the court of inquiry unite in recommending that no further action be had in the matter. With this recommendation I most heartily concur. There is no excuse whatever from either side for any further agitation of this unhappy controversy. To keep it alive would merely do damage to the navy and the country."

EASING THE CHEST.

It is the cold on the chest that scores people and makes them sick and sore. The chest cold, which is the chest cold, is a real enemy. When the cold is a hard one and the cough correspondingly severe, every coughing spell strains the whole system. We feel sure that if we could only stop coughing for a day or so we could get over the cold, but we try to get over it by the use of cough lozenges or other things that do not touch the chest. We take big doses of quinine until the head buzzes and roars; we try to sweat it out; and we don't get any relief. If the irritation that makes us cough could be stopped, we could get better promptly, and it is because Adams' Homeo-Cough Balsam is so soothing and healing to the inflamed throat, that it is so effective a remedy for coughs and colds. This really great remedy is a very simple preparation, made of extracts of bark and ginseng of root, and it never deceives. It heals the throat and the chest to cough is gone. When the cough goes the work of cure is almost complete. All druggists sell Adams' Homeo-Cough Balsam. Try this famous Balsam for your sore chest and you will find prompt relief.

SPORTING EVENTS OF A DAY.

CURLING.

Truro Defeats St. John's. Truro, N. S., Feb. 19.—(Special)—Truro 2, St. John's 1, was the result of one of the hardest fought hockey matches Truro has witnessed. Both teams scored in the first half. In the second there was no score. In the play off Truro scored in five minutes. The St. John's men average a little heavier than the home team and are much faster skaters. The Truro excel in combination work. The ice was too soft for Truro to shine in combination and the scores made were largely individual work. Just before the end of the second half J. Vinnicombe was disabled to the satisfaction of all. He put off four and the St. John's played the game out one man short. G. G. Archibald refereed the game. The St. John's players were: Woodley; goal, Parsons; point, Marshall; cover point, J. Vinnicombe; forward, Herder; Simms, Munro, forwards. The Truro players were: Mair, goal; Smith, McKenzie, cover point; McDonald, rover; D. Smith, Hay, Thomas, forwards.

HOCKEY.

Thistles Win from Woodstock Team. St. Stephen, N. B., Feb. 19.—(Special)—The Woodstock team, defeated here this evening by the Thistles of St. Stephen, 8 to 3. The teams were: Thistles—Holt, goal; Drysdale, point; D. Connell, cover point; Saunders, Loane, Connell, Picketts, forwards. Thistles—Holt, goal; Wall, point; Chipman, cover point; Moore, McGarvey, McWha, Ganong, forwards.

Schooner on Beam-ends for a Week.

St. John's, Nfld., Feb. 19.—The schooner Annie E. Larder, 131 tons, Captain Chislet, from Oporto Jan. 4, for Newfoundland, went ashore off St. John's harbor last night. She was floored this morning with trifling damage. The Annie E. Larder had a terrible passage from Oporto. She encountered hurricane weather and was on her beam ends for a week. She lost her spars, sails, rigging and gear.

Feared Firemen Were Killed.

Salem, Mass., Feb. 19.—It is feared that one member of the local fire department, and possibly more, are buried in the ruins of a falling building as the result of a fire which broke out at 1 o'clock this morning in the stable of Rupert Wheelock, in the rear of 15 Front street. There were two explosions the second of which blew out one side of the building, on an alley. This side of the building fell in turn, on the city fire market building, knocking in the side and roof and completely destroying the fire alarm and police signal systems of the city and a storage battery system which cost \$2,000. City Electrician Ashby and his assistants and several newspaper men and the city marshal, who were in the latter building at the time, had narrow escapes. The fire loss will not exceed \$2,000.
