LONDON, Jan. 22.

The Duily News says that aletter, signed by a large number of the Liberal members of Parliament, was sent to Adams, the Liberal wing, last night, requesting him to call a meeting, at which a leader was to be chosen for the party in the House of Commons. The meeting will probably be held on the 4th proximo. No doubt exists as to a cordial recognition of Lord Granville as the head of Parliament. There is little doubt that the meeting will elect the Marquis of Hartington to the leadership in the House of Commons.

Russia, Austria and Germany have agreed to recognize Alfonso as King of Spain, without waiting for a proclamation by the Cortes.

The prospect of an adjustment of the Montenegria difficulty is more hopeful. It is supposed that Turkey is yielding. Austria, it is said, will send troops to the Basama fron ler. The St. Petersburg Journal has an article which seems to indicate that Montenegro has the support of Russia.

THE invention of the paper collar was of positive benefit to the world, farnishing as it did, a neat, clean, and most economical art cle of apparel. But it never did answer all the purposes for which it was designed, owing to the frail nature of the material. The problem has been to make a cloth collar as cheap as paper that would last longer and could be made always fresh and bright. The new "44" collar, now upon the market, fills these requirements per ectly. It is made entirely of cloth, three thicknesses being used; it so closely resembles the finest linen that it might be sold anywhere for linen; and, no matter how much it may be soiled, it can be cleaned and made as bright as ever by the apptication of a dump spunge or cloth.
