

Contest Warms Up in Australia

Premier Bruce Campaigning in New South Wales—Critiques the Labor Party and Its Pronounced Policy Regarding the Social System—The Reply of Labor Leader Charlton.

[The Canadian Press.]
Sydney, Australia, Oct. 31.—Both the Premier of the Commonwealth, Rt. Hon. Stanley M. Bruce, and the Labor leader, Matthew Charlton, have been campaigning recently in New South Wales, and the federal election contest is warming up noticeably as the polling date, November 14, draws nearer. It is becoming more apparent daily that the chief issue in the election—at least so far as the coalition government composed of members of the Nationalist and Country Parties, led respectively by Premier Bruce and Hon. Dr. Page, Treasurer, is concerned—is the question of Communism.

Premier Bruce continues in his speeches to associate the Labor Party with the Communists, and he criticizes Labor Leader Charlton for not stating definitely, if Labor came into power, what it would do against those who are "trying to subvert the present economic and social system."

In a recent speech in Sydney Premier Bruce, replying to a speech made by Mr. Charlton in Sydney a few nights previously, said that every constructive suggestion which the Labor Leader had made was culled from the policy of the Government. Mr. Charlton's defence policy, he claimed, was fundamentally unsound, and it showed such a lack of appreciation of the problems of Australia that, in the Premier's opinion, "it must cause consternation to the whole people."

Charges of Labor Leader.
Mr. Charlton, in his speeches, charges Premier Bruce and Treasurer Page with misrepresenting Labor's attitude towards Communism. He declares that the sole stock-in-trade of these two political leaders consists of fables of social and sectarian horrors which would arise if Labor were to come into power in Australia. He denounces Mr. Bruce's immigration policy on the ground that Australia has a large excess of labor and there are no vast empty spaces except in the desert. It is in the expansion of the home production of articles now imported that ways and means of maintaining a new population must be found, Mr. Charlton says. Labor would co-operate with the State Labor Governments in order to break up large estates for new settlers.

Further outlining his attitude on defence, Mr. Charlton says Australia

Daily Lessons In English

By W. L. Gordon

Words Often Misused: Use "later" when referring to two persons or thing. Use "last" when referring to three or more.
Often Mispronounced: mauve. Pronounce mauve, the o as in "no."
Often Misspelled: catarrh. Note the rh.
Synonyms: busy, active, industrious, employed, assiduous, diligent, sedulous, enterprising.
Word Study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: Inimitable; that cannot be imitated; matchless. "His inimitable portrayal of the character delighted the audience."

HAD PROHIBITION PLAN DURING WAR

Lloyd George Dissuaded by Whiskey Magnate From Action

London, Oct. 31.—England came near following the example of the United States during the war by introducing prohibition, it was revealed for the first time to-night by John Walker & Sons, the distillers. He held important official positions with the Ministry of Munitions during the war.
"It was significant," Lord Stevenson said, "that Lloyd George had nailed his flag to prohibition."
"I must confess that it surprised me greatly, and I will let you into a secret. In the early days of 1916, Lloyd George told me that it was the intention of the Government to stop distillation and introduce prohibition for the period of the war."
"I said, 'Oh, then you expect the war to last a week?'"
"He said, 'What do you mean?'"
"I said, 'I want you to realize what is involved. If we stop distillation there'll be no anesthetic for the wounded; there'll be no solution for the dilution of TNT; there'll be no bread, since it takes the distillation of 25,000,000 gallons of spirits a year to produce the yeast from which the bread of this country is produced.'"
Later on in the war, Lord Stevenson said, though the distilleries were working day and night, they could not supply enough alcohol for the high explosive shell, and he was told the stocks of whiskey in bond would be requisitioned by the government.
He was willing, if necessary, he said, but no steps were finally taken.
"One would think," concluded Lord Stevenson, "that looking back on those days, the man who won the war would at least realize the debt he owed to the Scotch whiskey trade."

FERGUSON MEETS HON. MR. MEIGHEN

Many Successful Candidates in Ontario Seek Interviews With Leader.

Ottawa, Oct. 31.—Rt. Hon. Arthur Meighen and G. Howard Ferguson, Premier of Ontario, are in conference to-day.
Mr. Ferguson arrived from Toronto early to-day. At 11 o'clock Mr. Meighen went to the Chateau Laurier, where the Ontario Premier is staying. Mr. Meighen and Mr. Ferguson met alone and both declined to say anything for publication.
Several of the Conservative victors in the election are in town to-day and are seeking interviews with Mr. Meighen. Sir Henry Drayton, who was re-elected in West York, has returned to his home here. Hon. Hugh Guthrie, who will again represent South-Wellington in the House of Commons, is in the capital with Mrs. Guthrie and Miss Guthrie. Fred W. Bowen, who defeated Hon. Vincent Massey in Durham, arrived in Ottawa this morning with Col. T. H. Lennox, the victor in North York. W. F. Garland, who was returned again to the Conservative ranks from Carleton, is also in the city.
On the Liberal side the only ministers in Ottawa to-day were the Premier and Hon. Thomas A. Low, Minister of Trade and Commerce, who went down to defeat in South-Wellington. Duncan Marshall, Liberal organizer, arrived this morning and called at the Premier's office. Mr. King was not in. W. T. R. Preston, who campaigned extensively in Western Canada in the interests of the Liberal party, arrived here this morning also.

TEMPERANCE VALE, N. B.

Temperance Vale, N. B., Oct. 29.—Miss Mina Corey is recovering nicely from an operation for appendicitis. Mr. and Mrs. Charles Munner and family, Madison, Me., have returned home after visiting relatives. Miss Gertrude Finnamore and Rus-

FUNERALS.

Late Prof. E. Cadwallader.
The remains of the late Professor Edward Cadwallader, who died in Yonkers, N. Y., on Thursday, arrived here at noon Saturday, accompanied by Mrs. J. E. Estabrook, of Yonkers, N. Y. Mr. and Mrs. Arthur Cadwallader, of Toronto, and Miss Maud Fisher, of Montreal.
The funeral took place Saturday from the home of the deceased's nephew, Frank P. Cadwallader, University Avenue, and was attended by many old friends of deceased. Very Rev. Scott Neale, Dean of Christ Church Cathedral, conducted the service and interment was made at Marysville beside the remains of his wife who predeceased him a few years since. The funeral was under the auspices of Hiram Lodge No. 6, F. & A. M., of which deceased was a member, and the members of the lodge were present at the funeral and carried out the Masonic ritual at the grave. There were many beautiful floral tributes from friends here and elsewhere.
The late Professor Cadwallader was for some years organist of Christ Church Cathedral in this city when the late Bishop Medley was Bishop of the Fredericton Diocese, later he was organist of the Gibson Methodist Church at Marysville and afterwards of the George St. Baptist Church.

needs shore guns within whose range no enemy vessel would appear, and needs an aerial fleet that could not be outnumbered, and also a formal means of production and maintenance. He claims that the Nationalist Party and the Country Party are bent, not on the defence of the Commonwealth, but on forced contributions to Imperial expansion masquerading as defence. They are Jingo and anti-Australian in their defence policy, the Labor leader declares.

Australia's Foreign Policy.
On the question of Australia's foreign policy Mr. Charlton says that Premier Bruce has urged that Australia should have a voice in foreign affairs, which in the Labor leader's opinion would mean that Australia would be committed to any overseas war that Great Britain decided to enter. Mr. Charlton states that Labor stands for an Australian foreign policy developed in the light of day for a people determined to uphold their national rights and honest enough to admit that other nations have co-equal rights.
Mr. Charlton defines the Labor Party's general policy as embracing co-operation and government aid in marketing, agricultural and pastoral research, rural credit banks, extension of the Commonwealth Shipping Line for the cheapening of freight, the establishment of Commonwealth agricultural implement factories, and a comprehensive scheme of water conservation and irrigation.

The Labor party, Mr. Charlton says, believes that a compulsory wheat pool is necessary and it would pay a cotton bounty of 2d. a pound.
Mr. Charlton states that if the Labor Party came into power it would make provision for motherhood endowment. It would seek an alteration of the constitution in order to bring about uniformity of the workers' hours throughout Australia, and it would also seek other enlarged powers with a view to benefiting the people of the Commonwealth in general.

EXCEPTIONAL RIDING COMFORT

The riding comfort of a motor car is not dependent upon its length, weight or cost, any more than the comfort of a home depends upon its size.

If the seats are deep enough and the proper distance from the floor; if the seat backs are correctly pitched for relaxation; if the upholstery is sufficiently stuffed and there is plenty of leg room; above all, if the springs are rightly designed and of proper length, you will have exceptional riding comfort. Otherwise, you will not.

Dodge Brothers, with characteristic thoroughness, studied and experimented with these details for years. Their findings were ultimately incorporated in the design of Dodge Brothers Motor Car—without question now a vehicle that ranks with the first in this vitally important feature.
