Scott's Emulsion

is an emulsion of cod-liver oil,

Which contains the whole oil, all of it.

- It is not a mixture of wine or alcohol with a little iodine and bromine.
- It will not intoxicate nor lead to the alcohol habit.
- It does not depend upon a stimulant for its therapeutic power.
- It is, however, precisely what it claims to be:

The Best Norwegian Cod-Liver Oil. The Hypophosphites and Glycerine.

Scott's Emulsion is a Food—not a stimulant. Scott's Emulsion is a Fact—not an experiment. Scott's Emulsion contains Fat—not a drop of alcohol.

Whenever cod-liver oil and the hypophosphites are indicated, we ask you to prescribe "Scott's Emulsion," always permanent and palatable.

SCOTT & BOWNE. Toronto
