Vancouver, B. C.
September 18, 1941.

Dear Sir: Re: Water Supply, Squamish (Chekwelp) I.R.#26

A communication from Indian Commissioner D. M. MacKay of August 15, indicates that Indian Agent Ball has suggested that some arrangements be made with Mr. Rhodes, owner of Lot "E" to discontinue using water from the Indian system by connecting with the Grantham's system.

As Mr. Ball is familiar with this whole situation and the changes are being made primarily at his request, I have written the Indian Commissioner under date of August 16, as follows:-

"Reference your letter August 15th enclosing a communication of August 14th from Mr. Ball regarding proposed change in pipeline for the domestic water system on Chekwelp I.R. # 26.

We take it Mr. Ball suggests securing an easement for the pipeline from the owner of Lot "E", Mr. Rhodes, but does not mention securing any right of way agreement with the owner of Lot "D", Ruth Paine.

Any feasible route which is satisfactory to Mr. Ball should be acceptable and if he will indicate to us his proposals and secure the necessary easements, we will endeavour to have them implemented."

As soon as Mr. Ball has secured the necessary easements we will plan to have the work carried out.

Yours truly,

C.E. Webb
District Chief Engineer

T. S. Mills Esq.,
Chief Engineer,
Department of Mines and Resources,
OTTAWA.

cc to D. M. MacKay, Indian Commissioner.
