

	PAGE.
Poetry, in engineering course.....	847
Pole drains.....	22
Political economy, course in.....	163
Political economy for Japan.....	76
Political economy in engineering course.....	944
Political economy, relations to civil engineering.....	966
Pony trusses.....	276, 295, 334, 339, 345, 347, 351, 385, 449, 632, 708, 740
Portals, effects of lack of rigidity.....	446
Portals for highway bridges.....	226, 232
Portland cement, best and cheapest.....	596
Posts, for highway bridges.....	232
Posts, stresses in.....	372
Posts, working stresses in.....	285, 286, 287
Power for moving Halsted Street Lift-Bridge, experimental determination of.....	569
Practical methods, the study of.....	827
Practice combined with theory.....	94
Practice in engineering courses.....	97
Practice, instruction in.....	857
Practice, the teaching of engineering.....	934, 949
Precedent, influence of.....	834
Preliminary survey, beginning of.....	32
Preliminary surveys, organization for.....	31
Preparatory education.....	103, 104, 119, 120, 785, 840
Preparatory schools.....	95
President of graduate school.....	943
Pressed thread bolts.....	615
Prices of materials.....	79, 514
Process of surveying, higher instruction in.....	946
Profession, life of.....	850
Profession, maintenance of dignity of.....	859
Professional life, the narrowing effect of.....	520
Professional jealousies.....	516
Professional work, choice of.....	523
Professional work, importance of picking of.....	520
Professional work, student's idea of.....	505
Professor, Dr. Waddell's work as.....	3
Professor of civil engineering, qualifications for.....	102
Professor's need of experience.....	844
Profile, making of railroad.....	46
Progress in technical schools.....	91
Promptness, importance of to young men.....	853
Proportioning bridges, a matter of judgment.....	495
Proportioning columns for elevated railroad.....	634
Protection of lift-bridge from ship's rigging.....	534
Punching, accuracy of.....	688, 717
Punching, degree of accuracy.....	717
Punching, inaccuracy in.....	594, 717

Q

	PAGE.
Quicksand cuts, drainage of.....	22
Quicksand in drains.....	18, 19

R

Railroad bridges improvements in.....	72, 73
Railroad construction, contracts for.....	49
Railroad construction, literature of.....	29
Railroad construction, methods of.....	40, 71
Railroad crossing swamps.....	45
Railroad curves.....	38
Railroad drainage.....	13
Railroading, method of teaching.....	112
Railroading, notes on.....	27
Rails for elevated railroads.....	601, 712
Railway bridge designing, disputed points in.....	257
Railway bridges, deterioration of.....	412, 413
Railway bridges, proportions for.....	451
Railway bridges, standard methods of designing of.....	453
Railway bridges, State control of building.....	241
Railway location, Japanese.....	71
Railway work, compensation for.....	508
Reading, by young engineers.....	787
Reading, course of.....	512
Reading, nature of.....	512
Reading-room, equipment of.....	93
Reading, style of.....	512
Reamers, character of.....	685
Reamers, types of.....	504
Reaming, advantages of.....	257, 376, 424, 594, 649, 651, 654, 660, 661, 666, 669, 670, 671, 675, 678, 683, 684, 687, 691, 698, 707, 708, 716, 803
Reaming, amount necessary to produce perfect results.....	719
Reaming, cost of.....	653
Reaming, gain in strength from.....	775
Reaming, material requiring.....	292
Reaming, need of, in all steel.....	323
Reaming, objections to, by manufacturers.....	654
Reaming, trouble caused by drillings from.....	657
Reaming, value of.....	652
Recitation system of instruction.....	99
Reconstruction necessitated by bad drainage.....	23
Record, résumé of work for.....	514
Records of railroad work.....	47
Records, the systematic keeping of.....	848
Recreation for engineers.....	832
Recreation, necessity for.....	518
Red Rock Cantilever Bridge.....	5
Reference books, use of.....	159
Reinforced concrete, the instruction relating to.....	946
