

ECONOMIC GEOLOGY— <i>Con.</i>	PAGE.
Ore deposits— <i>Con.</i>	
Gold-silver veins— <i>Con.</i>	
Descriptions of mining properties	106
Mt. Stevens	106
The Hawk-Eye group	106
The Acme claim	106
The Buffalo Hump group	107
Wheaton Mt.	108
The McDonald Fraction	108
The Silver Queen and Gopher claims.....	108
Tally-Ho gulch and vicinity.....	108
The Tally-Ho group	108
Mt. Anderson	110
The Rip	111
The Wolf	111
Gold hill and vicinity	111
The Gold Reef	111
The Legal Tender	112
The Lucky Boy	112
Antimony-silver veins	113
General	113
Classification of antimony ores.....	113
Summary description	114
Detailed descriptions	115
The vein-fissures	115
Distribution	115
Formations in which the fissures occur.....	115
Strikes and dips	116
Persistence	117
Widths of the fissures	117
Faulting	117
Intersections	118
Origin of the fissures	118
Fissure-fillings and mineralogy	119
General	119
Gangue-minerals	120
Metallic minerals	120
Other fissure-filling materials	121
Assay values	121
Synchronous age of the veins in the different formations..	122
Age of the veins	122
Influence on the wall-rocks	123
Oxidation	123
Leaching and enrichment.....	124
Persistence and probable vertical extent.....	125
Genesis	125
Descriptions of mining properties	126
Carbon Hill claims.....	126
The Porter group.....	126
Goddell's claims	128
Chieftain Hill claims.....	129
Morning and Evening	129
