

- Umbilicus, peritoneum of, fatty fringes, 54  
 variations in relationship of, to umbilical  
 cicatrix, 45  
 peritonitis with escape of pus at, 298. See  
 also *Peritonitis*.  
 piecemeal removal of suppurating ovarian  
 cyst through, 306  
 polyps of, 118, 120, 144. See also *Polyps*,  
*umbilical*.  
 relation of outside of, to peritoneal side, 60  
 remnants of vitelline duct. See *Polyps* and  
*Omphalomesenteric duct*.  
 round, 35, 36  
 round-cell sarcoma of, 457  
 sarcoma of, 449. See also *Sarcoma of um-*  
*bilicus*.  
 sensory nerve-supply of, 66  
 septic pyemia of, in new-born, 93  
*skin*, 67  
 spindle-cell sarcoma of, 453  
   cases reported as, 454  
 syphilis of, 278  
   at or shortly after birth, 279  
   in adults, 283  
 syphilitic chancre of, 283  
 thoracic abscess opening at, 288  
*transverse*, 35, 36  
 tuberculi of, atrophic, 286  
 tuberculosis of, 250, 285  
 tumors of, 120, 247, 351  
   classification, 351  
   consisting chiefly of sweat-glands, 369  
   containing remnants of Müller's ducts, 373  
   uterine mucosa, 373  
   sebaceous, 253  
   typical, of Catteau, 35  
 ulcer of, in new-born, 87  
 urachal cavities, communicating with, 578.  
   See also *Urachal cavities*.  
 urinary fistula at. See *Fistula, urachal*.  
 varieties of fibrous ring, 47  
 various forms of, 35, 37, 47  
 vascular cords, disposition of, 48  
   tumor of, hemorrhage associated with, 113  
*vertical*, 35, 36  
 worms escaping from, 328  
 wound infection of, in new-born, 85
- Urachal cavities, communicating with bladder  
 or umbilicus or both, 578  
   age incidence, 578  
   bladder symptoms, 579  
   cases illustrating, 585-605  
   differential diagnosis, 583  
   discharge of urine from umbilicus in,  
   581  
   pain in, 580  
   sex incidence, 578
- Urachal cavities, communicating with bladder,  
   symptoms, 578, 582  
   treatment, 584  
   umbilicus in, 581  
 concretions, 482, 620, 621  
 fistula in animals, 523  
 remains, 545
- Urachus, 481  
 bleeding from, into bladder, 647  
 calculi of, 482, 620, 621, 622  
   associated with urachal remains, 620, 621  
 carcinoma of, 628  
   age incidence, 628  
   developing years after closure of congenital  
   patent urachus, 629  
   sex incidence, 628  
 carcinomatous cyst of, multilocular, 637  
 contents of, 518  
 cystic sarcoma of, case illustrating, 635  
 cysts of, 481, 517, 539, 578  
   cases illustrating, 547-565  
   communicating with bladder or umbilicus  
   or both, 578  
   in pig, 525  
 infection of, abscesses of abdominal wall  
 due to, 567. See also *Abscess of ab-*  
*dominal wall*.  
 large, 539  
   abscess of appendix and, differentiation,  
   541, 539  
   age incidence, 540  
   differential diagnosis, 541  
   fluid in, 540  
   historic sketch, 539  
   necrotic lymph in, 540  
   neuroma of bladder and, differentiation,  
   541  
   non-infected, cases illustrating, 547  
   ovarian cysts and, differentiation, 541  
   pain in, 540  
   peritonitis and, differentiation, 541  
   sex incidence, 540  
   size of, 539  
   symptoms, 540  
   thickened bladder-wall and, differentia-  
   tion, 541  
   treatment, 546  
 multilocular carcinomatous, 637  
 small, 526  
   cases illustrating, 528-538  
   treatment, 546  
   Wutz's cases, 528  
 suppurating, case illustrating, 622  
   treatment, 546  
 diseases of, 481  
 embryology of, 16 (allantois)  
 fistula, urinary. See *Fistula, urachal*.
