BILIOUSNESS

—OR—

LIVER COMPLAINT.

The liver secretes bile, the natural cathartic; it also filters and purifies the blood. When torpid or inactive, the bowels become costive; when too much bile is secreted the subject becomes bilious and has diarrhoea; when the bile overflows into the blood, we have jaundice, with sallow skin and yellow eyes. Signs of liver complaint: Foul, coated tongue, sleepy, weary feeling, aching shoulders, headache, nausea, irregular bowels, depression of spirits, dull, yellow eyes, bad breath, and general prostration, burning feet and hands, etc. Regulate the diet; take ripe fruit and vegetables, with simple, plain diet; avoid all stimulants; take Burdock Blood Bitters, the great antibilious vegetable compound, that acts at once upon the stomach, bowels, liver, kidneys, skin and blood, opens all the sluiceways or outlets of disease, and at the same time strengthens the entire system. Burdock Blood Bitters thus cures even the worst forms of chronic liver complaint, from which relief often seemed impossible. Many thousands of bottles have been used for liver diseases, and we have yet to hear of a single complaint.

Bilious for Years.

DEAR SIRs,—I was troubled with biliousness for years, and after trying many medicines I was advised to try Burdock Blood Bitters. I did so, and ever since I began its use I have enjoyed splendid health.

Yours,

ANN STUART,

Muskoka Falls, Ont.

History of 15 Years.

DEAR SIRs,—For fifteen years I had been troubled with biliousness, and had consulted physicians and used different medicines. Finally I used one bottle of Burdock Blood Bitters, and though it is nearly five years since I used it I have never been troubled since.

MRS. WM. MAGUIRE,

Charlottetown, P. E. I.
