

FOR SALE AND WANT ADVERTISING

TWO CENTS A WORD

READ BY 15,000 PEOPLE WEEKLY

THIS DEPARTMENT is one of the most valuable in the Paper. At a cost of only Two cents a word, you can advertise anything you wish to buy or sell, or situations wanted or vacant.

THE ADDRESS must be counted as part of the advertisement, and each initial or a number counts as one word. The minimum cost is 20 cents each insertion. When replies are to be sent to a box at our Office, extra is charged for post postage on replies to be sent to advertiser.

COPY must accompany each insertion. Payment must be received Friday to guarantee insertion in issue of the following week.

NO BLACK-FACED TYPE or display of any kind will be allowed under this head, thus making a small advertisement as noticeable as a large one.

HOGS WILL BE SCARCE

The hog business is well in this section. Feed is high, hogs are cheap, and farmers are not raising many. We will, therefore, be scarce this summer. Farmers are not feeding as much as other years because of the low price of hogs. Wm. Smith, Brant Co., Ont.

THE HORSE TRADE

One of the chief markets for Ontario horses at this season other years has been in the west. This spring the demand is there all right, but the people have not the ready money to pay for them. There are many Eastern dealers, who are to-day carrying Western pairs, who are to-day a year ago. They could do so large a business this year, but they would accept payment on the same terms and wait for their money till the financial situation eased up. But they are looking for cash business, and as it can only be had in limited quantities, extra is charged for it elsewhere. And they must be getting it as a great many horses are sold and shipped out of Ontario every week.

Leaving out the western demand, trade generally is in a healthy condition. Farmers are safe in continuing to raise horses. But they must be good ones—whether heavy draft, delivery, driver or carriage breed, the very best. A poor horse is as unprofitable an animal as a farmer can raise. It will be three years before he is of any use and during that time he is a loss to the farmer. He must be a good one, and when offered for sale will not bring half as much money.

So long as the extensive railway building continues in this country, and that will be for some years yet, there will be a demand for good heavy horses. It will pay the average farmer to raise these.

HOG TRADE IN THE WEST

The trade in pure bred hog stock in this section is very active. The barley feed wheat and mill feed are so high, that the price in Canada offered for sale will be in feeding hogs at \$4.25 a cwt. for choice quality.

We are told by manufacturers to patronize home industries. But we find that the farmers have almost attained this means. If they can buy live or dressed hogs in the United States at or near the price paid in Canada, they will bring them in order to depress the market.

This is a wild goose but a fact. The packers' excuse is that he cannot get enough hogs at home to keep his establishment running. But why have such a

A PAPER FOR FARMERS

The Canadian Dairyman and Farming World is a paper rapidly increasing its circulation to the farmers. It is printed each week and contains the most modern and original information on all phases of the farm. It is a paper of a similar nature, and is a most valuable and attractive. The clever staff deserve a great deal of credit for the success they have almost attained in connection with The Dairyman and Farming World.—The Peterboro Examiner.

uneasily market? There is no need of it, except to bleed the producer.

If the market were not so erratic, more hogs would be raised. But farmers know that as soon as they have a fair price of hogs readily made, the price of corn I have not noticed that the price of corn would vary much. It rates at from 17c to 18c a lb. The latter is the present price, and with pigs at \$4.25 a cwt. who makes the most profit?

GOSSIP

FOR SALE—A number of imported Clyde dalemares in foal. Thomas Condy, Claremont, Ont.

If you have a McCormick binder you know you have a right working machine.

There is no question about it. It was among the first successful binders in the field. Today it is called "the standard" of the line. Farmers everywhere bear testimony to its good work and durability.

You have no trouble with its knoter.

It is exceedingly simple and positive working, having only two moving parts.

Its adjustable reel enables you to handle the grain in all conditions—tail, short, down, or tangled.

The bundles are squarely butted and tightly bound. The least twist is used and the two section handles if it were there is no kinking and no breaking. The binder is of a strong main wheel frame. Yet the machine is of light drive.

All shafts carrying heavy loads run

on roller bearings. There is great range of adjustment everywhere. The draft is low and direct. Machine balances perfectly, no neck weight or side draft. Machine is easily mounted on trucks for transporting.

Binders are made in both right-hand and left-hand, in standard and wide (8-foot) cut. The McCormick line also includes binder twine, mowers, tedders, sweep rakes, side delivery rakes, hayloaders, stackers. Also a complete line of tillage implements and seedling machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers, also gasoline engines, cream separators, hay presses, wagons, sleighs and manure spreaders.

For particulars about binders or any other machine call on local McCormick dealers, or write the nearest branch house for catalogue.

Canadian Branch Houses: Calgary, London, Montreal, Hamilton, Regina, St. John, Winnipeg, Ottawa.

INTERNATIONAL HARVESTER COMPANY OF AMERICA, Chicago, U.S.A.

(Incorporated)

reserving space should communicate as early as possible with A. P. Westervelt, Secretary, Toronto.

The last shipment which left for the West, on March 15th, was made up of three cars containing 12 pure bred cattle, 10 sheep, and 5 pigs. These animals were received from 27 different breeders and were distributed to 30 points in the West between Fort William and New Westminster.

Messrs. Kelly Bros., breeders of Yorkshire swine, who live near Hagersville in Hamilton Co., Ont., write: Our breeding stock never was in better shape, or of finer quality than at the present time. The spring litters are all coming strong and good, so we will have plenty of hogs

for this spring and the next fall trade. We have sold nine young boars and three sows this month. In fact we have only one more boar to spare that is old enough for service. He is a right good one, on which we intend to raise a large number of sows as we need the room for the young pigs. We will pay anyone wanting a good boar to write us before having elsewhere. Mr. C. K. Geary, manager of the Canadian branch house, for John Chambers & Sons, of Holdenby, England, expects a large shipment of three stallions and mares very shortly. If these are the quality of former shipments of this firm to Canada, they will add greatly to the value of the home industry of this country.

Tuttle's Elixir
The Horse Remedy of the Age

No stable is now well equipped without this incompressible liniment on the shelf. It has cured more lameness than any other remedy in the world. It never fails to locate lameness.

\$100 Reward

Our offer is always open. Some cases have passed the curable stage. But whenever a cure is possible we will pay \$100 for any failure of Tuttle's Elixir to cure Spavin, Curb, Splint, Sprain, Colic or Lameness.

It is the main dependence of Veterinaries, Express, Livery and Transfer Stables as a

Leg and Body Wash

Beware of all blisters; they give only temporary relief, if any.

Tuttle's Hoof Ointment, Worm Powders, Condition Powders, White Star Liniment and Family Elixirs are other excellent specifics. "Veterinary Experiences," an infallible guide for horsemen, is free. Every disease and symptom made plain. Write for copy. Postage 2c.
