W. E. Edwards, B.S.A., of Essex, representative of the Department of Agriculture for Essex county and secretary of the Ontario Corn-Growers' Association, has accepted a temporary leave from Michigan Agricultural College at Lansing, Mich., to become associate Professor of Animal Industry. He has resigned his present position, and will enter upon his new duties about September 26.

I believe the time will come when we will have a recognized standard for poultry and eggs in Canada. I think the poultry people deserve a more recognition, and I believe if the poultry industry in Canada to-day received the encouragement it deserves, it would go along leaps and bounds, and it would not be long until the poultry crop would be one of the big things on our farm.—Prof. F. C. Elford.

Purebred Registered HOLSTEIN CATTLE

Twenty-five cows and one bull, all purebred registered Holsteins, were recently unloaded at Williams, Minn. They were purchased by the Security State Bank of that place, and sold to farmers on easy terms.
Financiers selected purebred registered Holstein cattle because they were sure that it was for the best financial interest of the community. They acted on their knowledge of Holsteins as producers as compared with other breeds. If purebreds were good for them, why not for you?
Send for FREE Illustrated Descriptive Booklets
Holstein-Friesian Assoc., F. L. Houghton, Sec'y
Box 193, Brantford, Ont.

Write for further information to
E. F. OMLER, - BRONTE, ONT.

No Increase in Price of International Stock Food Tonic

Most concerns who are large consumers of drugs have been dealt a sad blow by the war. Many drugs, particularly those used in tonic preparations, are imported from Europe and supplies are now totally cut off.

Manufacturers of stock foods and veterinary remedies, if they have not an ample supply of these drugs on hand, will be forced to either raise prices or substitute drugs of lesser value in their preparations.

International Stock Food Tonic is composed of roots, herbs, seeds, barks, etc., the names of which are plainly printed on the outside label of each package or pail.

The International Stock Food Co. Limited are the largest importers in the country of certain lines of drugs and always have large stocks on hand. At present we have sufficient in stock to last about a year and are able to positively guarantee that the price of International Stock Food Tonic and Remedies will not be increased while present stocks last.

Farmers everywhere realize the value of International Stock Food Tonic as an aid to digestion and a blood purifier and a help to healthier stock, more rapid growth and bigger profits at a cost of only three feeds for one cent. We feel that it is our duty to them to maintain the present price and quality of all our products as long as we can possibly do so. For this reason there will be no advance in any of our prices at present.

International Stock Food Tonic and a complete guaranteed line of veterinary preparations are for sale by dealers everywhere. We have recently published a book entitled "International Veterinary Digest." It gives cause, symptoms and remedies for diseases of stock and poultry. Every stock owner should have one of these books. We will gladly send you one free of cost, postage paid, if you write us and request it, and mention number of head of stock you own.
