

The Elastic Fence

The greater the elasticity the longer the life.

No fence equal in elasticity to Dillon Hinge-Stay Fence, therefore no fence is as lasting.

The beginning of the Dillon superior elasticity is in the laterals themselves.

They are made of High-Carbon Hard Coiled Wire.

These Dillon Coiled laterals have one-third more elasticity—one-third more tensile strength than the hard steel wire used in ordinary fences—will stand

THE DILLON Hinge-Stay Fence

one-third more weight and pressure before breaking.

Then, the elasticity of the Dillon is increased ten-fold by the use of the Hinge-Stays.

When heavy pressure is brought to bear on the fence these Hinge-Stays act as shown in the picture.

They make the Dillon capable of withstanding strains that would break the stays and snap laterals on ordinary fences.

Your cattle can match their weight and strength against the Dillon—your horses can press down on

the top wires—you can climb all over the Dillon—but, thanks to the Hinge-Stays and the quality of the laterals, no damage or even disfigurement will result.

Why not buy the Dillon Hinge-Stay Fence and get the most elastic fence in the world?

Made in both heavy and medium weights.

Ask us to mail you catalogue showing the different styles.

THE Owen Sound Wire Fence Co., LTD., Owen Sound, Ont.

Monarch Stiff-Stay Fence

The Monarch is not by any means an ordinary fence.

It is manufactured entirely of high-grade No. 9 wire.

The lock is applied in a different manner to those on ordinary stiff-stay fences. The wires are not bruised in the making of the fence. There is no undue kinking of laterals. Just write for catalogue explaining difference between the Monarch and other stiff-stay fences.

AGENTS WANTED

in every district in Canada. You will be wise to get our proposition. Write us to-day.

THIS IS THE SHEET METAL AGE.

Galt Steel Siding
