HALIFAX, N. S., Aug. 9 .- The Gloucester, Mass., fishing schooner Maggie and May, Captain Eric McCatheren, The Maggie and May registered 116 was run down and sunk by the German school ship Freya, Captain Maas, sixty the state, and Mayor Geo. A. Hibbard miles south east of Halifax at 11.30 p. m. on Saturday and Captain McCatheren and eight of the crew of the fishing schooner were drowned. At the time of the collision a dense fog prevailed and the fishing schooner quickly went to

The Maggie and May was under sail reeping along when out of the inist' the lookout on the warship sighted the vessel's lights looming up. The warship was going about eight knots at the time, and the course of the ship was altered as quickly as possible, but a collision could not be avoided. With a fearful crash the big steel prow of the Freya crashed into the side of the fishing vessel, cutting her almost in two.

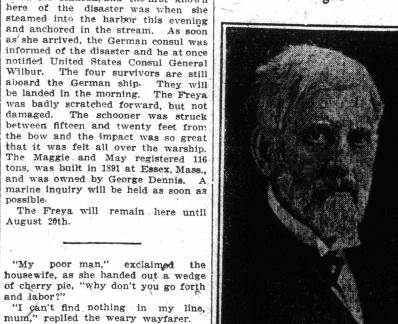

A wild scene followed as the parts of the schooner opened up and the inrushing waters soon sent her to her doom. Human beings, cut and bleeding, scrambled from their bunks, only to drop into the sea and be carried down with their craft. It is believed that many of the fishermen were instantly killed in their bunks, as few were seen struggling in the water after the collision. As the warship backed off from the sinking craft the ship's boats were launched and life lines were thrown to those men who were in the water. The Freya's boats picked up three of them, while the fourth man clung to the life line and was hauled aboard. The ship's searchlight was kept in motion all the time, scanning the waters in the vicinity of the scene of the collision, but only four men out of the thirteen that composed the crew of the Maggie and May were saved. There was quite a heavy sea running at the time, and the work of rescue was attended with the greatest and a national organization for Catho- difficulty. The cabinet ministers will separate this week for a fortnight or so after a final meeting of council on Tuesday

Hon. Messrs. Fielding and Sir Frederick Borden will go to Nova Scotla, Hon. Dr. Pugsley to New Brunswick, Hon. Mr. Templeman to the Pacific coast. Hon. Frank Oliver to Alberta and the Ontario and Quebec ministers will each visit their respective constituencies.

During their absence from the capital it is probable that each of the Ministers will be asked to address political meetings in their provinces.

No announcement has yet been made there will be a general election this autumn. It is unlikely that anything sfinite in that respect will be known until next month. Meanwhile, however, the printing bursau are busy printing the voers' lists for each constituency, and it will take at least six weeks to complete the work. Until the lists are ready and distributed of course no election can be held. printing of the lists is by no means a certain sign of a pending election, as the law provides for periodical print-
