KILLED IN FLY WHEEL. Engineer Crushed Between Wheel and Crank Shaft.

TWEED, July 24.—A fatal accident occurred at the sulphide mines near here last evening. Joseph Chambers, an engineer, had just finished his day's work and shut off steam. The machinery had stopped with the crank...

JAPANESE TROOPS ON WAY TO SEOUL

JAPAN SENDING BLUE JACKETS AND PROVINCIAL TROOPS TO COREAN CAPITAL

SEOUL, July 24.—A message from Chemulpo states that the Japanese war vessels "Kasagi," "Nataka," and "Tsuahimi" arrived there from Genzan at 9 o'clock this morning with many bluejackets and provincial troops on board, the troops will proceed to Seoul. Many agitators from the provinces are arriving here. They are not permitted to assemble in the city, and therefore are meeting in suburban towns, where one hundred soldiers were yesterday detailed to disperse them.

On account of the prevailing heat and drought and the fact that the archives of the government, and also the correspondence of the various government departments have been removed to the Japanese city to insure their safety from destruction by fire.

The wholesale arrests of subordinates leaving the palace commenced at 4 o'clock yesterday afternoon, the object being to intercept possible communications from the former Emperor, which might throw light on alleged plots.

Montreal Markets and Prices

MONTREAL, Que., July 25.—Best cattle on market sold at 5-1-4 per pound, but they were not choice. The best good cattle 3-1-2 to near 5 and common 2-1-2 to 3-1-4 per pound. Milch cows dull at \$20 to \$45 each. Calves \$25 to \$50 each. Lambs sold at \$5 each. Good lot of fat hogs sold at 7 to 7-1-4 per lb., heavy fats, 6-1-2 and old sows at 5-1-4 to 5-1-2 per lb. Sheep sold at 4 per pound.

The local market continued undisturbed by news for the time being, bulk of investment orders were near to have been filled. Stock has shown indications of sagging. There was a sale at 96 and later 95-1-2 Dominion Steel is firm at 22, but there were no sales. Coal which was offered at 57 with 55 half bid. Coal stock seems closely held and offerings at all times are small. Mexican sold at 45 Toronto Railway at 102, Montreal 206-1-2, Detroit 68, Tri-City preferred 32-1-2, Paul Gillett, and General Cable have been added to Montreal street directorate. Rest of business was not worth talking about. Weakness in Richelieu stock forces was appointed showing by "Quebec" on maiden trip, and reports that she may be overhauled before being put on the route presently. The boat according to "Street" rumor had some trouble in getting up steam. The Richelieu stock forces were exceptionally good and it is believed that on season's earnings will equal the record showing of 1906. Butter, townships 20-1-2, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

FORTY MEN FIGHT FOR LIFE IN SEWER

FOREMAN CONNORS SAVES LIVES OF MEN CAUGHT IN FLOODED TUBE IN NEW YORK

NEW YORK, July 24.—Forty laborers ran, swam and fought for their lives when the new sewer in West 46th street was flooded last night, and but for the coolness and determination of foreman Ben Connors, all must have perished. The men were working in a tube which is eight feet in diameter, a block in length, and forty feet below the surface. Suddenly a break occurred in the old sewer above them and the escaping water poured into the open end of the tube. The only exit was opposite where an air shaft led to the surface. A stream first trickled into the tube, a moment later, the flood came, and when the men turned to run the water was up to their knees and rapidly rising. What little light had been swept from the tunnel, and the men were in imminent peril of drowning, then Connors, who led the way to the shaft took a lead, and swinging an ugly club threatened to brain every one of them if they didn't obey him. Then he ordered them to form four abreast and march. Some marched, but more swam, as by that time the water had reached the necks of the taller, while those of lesser height had been swept from their feet. One by one they gained the shaft and climbed a ladder to the surface. Connors was the last to leave the sewer and when he did he rose from six feet of water.

WEALTHY MISER FOUND MURDERED

SMALL FARM DISCOVERED WITH EIGHT WOUNDS

AMSTERDAM, N. J., July 24.—Wm. E. McLachlan, a reclusive living on a small farm in Crain Hollow, a few miles from this city, was found dead on the floor of his home last evening with eight stab wounds in his body. Three of which had reached vital parts. What little McLachlan, who was estimated to be worth \$75,000, lived alone in a miserly way, and made some money out of an income from repairing clocks and guns. Two women, who had a claim to be repaired, but who were unable to get any response to their claims, had been discovered by a neighbor, who entered the house and there discovered McLachlan lying in a great pool of blood, with bloody stains upon a door, and other indications of a conflict. No motive for the crime was ascertained. What little money there was and several watches, which were in the house, were not disturbed. McLachlan was 62 years of age and never married.

TWELVE HUNDRED JAPS REACH B. C.

POWERLESS TO STOP INFUX OF JAPANESE PENDING GOVERNMENT LEGISLATION

VANCOUVER, B.C., July 25.—Twelve hundred Japanese from Honolulu arrived in Vancouver today, on board British tramp steamer "Kumiko." The steamer lay out in stream all day. Mr. McPherson, M.P., shown Ottawa despatch to the effect that the immigration department is powerless to act in the matter, said what he wanted was to have the flood of immigration stopped at the source, pending legislation in Canada. The Japanese government, he said, retained such control over its subjects that it could cut off the influx at a moment's notice, and it is extremely probable that it would do so, did Canada lodge a formal protest. Marpole, general executive assistant Canadian Pacific Railway, this morning denied the statement made in a meeting at the Asiatic club, in the legislative last night, that the Canadian Pacific Railway, and placed contracts with two companies to supply railway with 12,000 Japanese, to be used to replace the members of the International Brotherhood of maintenance of way employees. Hon. Morikawa, Japanese consul, here, asked who he believed the movement, or doing what other duties might have fallen to his lot, police constable W. Rogers appeared in court, a disgraced man, stripped of his uniform, and charged with theft. The case will probably be heard by the magistrate tomorrow, but in the meantime, Chief Magistrate has investigated it with the result that Rogers is a prisoner, and no longer a member of the force. Sunday night Rogers was on patrol on Henry Avenue. He found the door of a residence open, entered the house, and was charged by members of the family who, having confidence in the uniform, did not suspect anything wrong until next morning. Then however, they discovered the loss of a small sum of money and reported the circumstances to Chief Magistrate. Last night Inspector Munro took the man off his beat and had him locked up and searched, the search bringing to light evidence of guilt so clear that the charge was laid at once. The money found in Rogers' pockets corresponded exactly with that stolen from the Henry Avenue house, and an examination of the officer's report book showed that he had made no note of his entering the house as required.

UNTOLD WEALTH OF ATHABASCA

FORMED SUBJECT OF PAPER READ BY DR. BELL TO SOCIETY OF ENGINEERS.

TORONTO, July 25.—One of Canada's many resources of which little has been heard, the tar sands of Athabasca, formed the subject of a paper by Dr. Robert Bell, of Ottawa, read before the American Institute of Mining Engineers. Dr. Bell said he did not know that in any other part of the world there was so great an outpouring of petroleum, as in the valley of Athabasca. He estimated that the sands covered 100 square miles and had an average depth of 150 feet. There would be altogether about eleven million tons of tar substance apart from the sand. He considered the sand would be good material for the manufacture of oil for that purpose. He also mentioned that the tar sands were practically limitless. He also mentioned that the tar sands were practically limitless. He also mentioned that the tar sands were practically limitless.

POLICE CONSTABLE FOUND GUILTY

STRENUOUSLY MAINTAINS HIS INNOCENCE—EVIDENCE OF GUILT CONCLUSIVE

WINNIPEG, July 25.—William Rogers, only a few days ago a member of the Winnipeg police force, was found guilty of stealing \$4.85 from the residence of Eudocio Boraman and was sentenced to three months in the penitentiary. Rogers was doing patrol duty on Sunday morning when he noticed the door of No. 274 stading open. He entered and made his way to a room, where he found a hand bag hanging over the bed. From this Rogers seems to have taken the money in question, which was fully identified by the owners and which was afterwards found in his pocket. His defense was that he had been in search of a woman who had been seen near by, but there was nothing to substantiate this, while the evidence of the constable, an intelligent Italian woman was corroborated by other witnesses. The story of Rogers' arrest and dismissal from the force has already been told. It now seems likely that Rogers is not his real name. At all events there is every reason for believing that he served in the Metropolitan police of London under the name of Munro, and that in Glasgow he was known as Brown.

ARMS FOR AGITATORS SMUGGLED INTO INDIA

FRENCH COLONIAL GOVERNMENT TAKES STEPS TO PREVENT IMPORTATION

CALCUTTA, July 24.—It is believed here that the Indian Government has been corresponding with the government of French India regarding the facilities afforded for the smuggling of arms through Chandernagar and Pondicherry. The French Colonial Government has recently issued a circular regarding the possession of arms by French native subjects. In laying the case before his council, the French government referred to the "anti-European movement which is going on around us in British territory," and he also made a pointed reference to the tendencies to some extent revealed at Chandernagar. The attention lends color to the rumor which has been current for some long time in Calcutta to the effect that arms are being purchased at Chandernagar for use in eastern Bengal.

RUSSIA FEARS JAPAN'S INTRIGUE

LEADING RUSSIAN NEWSPAPER SPEAKS STRONGLY ON JAPANESE DUPLICITY.

ST. PETERSBURG, July 25.—The "Novoye Vremya" today, published details of an alleged anti-dynastic movement in Southern Manchuria, which it attributes to Japanese instigators, who, the paper says, are busy preparing for a Manchurian dynasty in China, the same fate which has just overtaken the Emperor of Corea. Continuing, the paper says that in contravention to supplementary provisions of the China-Japanese treaty of 1905, defining regions where foreigners including Japanese shall be permitted to reside. Japanese agents have worked their way into the most remote corners of the empire, the keynote of Japanese intrigue consisting in the Chinese that Japan is their protector against the nations of the West and at the same time reassuring the Westerners that Japan is their guard against the Chinese peril. The apprehensions of the "Novoye Vremya" regarding the outline of the Russian army circles, where, the steady arming of China and Japan is viewed with alarm. The movement is primarily regarded as menacing to the remnant of Russian possessions on the Pacific.

VOLCANIC OUTBURST IN TONGA ISLANDS

STONES THROWN A DISTANCE OF THIRTY MILES—NEW LAND FORMING

SIDNEY, Australia, July 25.—Reports from Tonga islands state that seven columns of volcanic eruptions were visible at sea for two weeks recently from the islands of Tonga, Tabu. The eruption has been accompanied by a continuous roaring noise and frequent explosions. Black pumice stones in large quantities were thrown as far as Nukunaloa, a distance of 20 miles. The Tongan government gazette states that land is forming around the scene of the eruption and it is believed that a new island is in process of formation. Tonga, on the Pacific coast, lying southwest of Fiji. In October, 1885, a violent submarine volcanic eruption took place about 15 miles northwest of Nukunaloa, resulting in the submerging of an island nearly three miles in length by one mile in width.

KING LEOPOLD TO LOSE CONGO STATE

KING WILL HAVE TO HAND OVER HIS PERSONAL INTERESTS TO BELGIANS

BRUSSELS, July 25.—The close of King Leopold's long struggle to save off the annexation of the Congo State to Belgium, and to retain his personal sovereignty over this rich and extensive African state is foreshadowed in the agreement reached on July 12 between the Belgian and Congo governments. Elaborating the terms on which the Congo Free State shall pass into the possession of Belgium, this transfer will mark an important epoch for the Congo. Hereafter the entire conduct of affairs has been under the personal direction of King Leopold, and a cabinet of Congo officers—entirely separate from and independent of Belgium, whereas the new regime will make the Belgian government responsible for the conduct of Congo affairs.

POLICE CONSTABLE IN CUSTODY

POLICEMAN STRIPPED OF UNIFORM AND LOCKED UP CHARGED WITH ROBBERY

WINNIPEG, July 24.—Instead of patrolling his beat yesterday morning, or doing what other duties might have fallen to his lot, police constable W. Rogers appeared in court, a disgraced man, stripped of his uniform, and charged with theft. The case will probably be heard by the magistrate tomorrow, but in the meantime, Chief Magistrate has investigated it with the result that Rogers is a prisoner, and no longer a member of the force. Sunday night Rogers was on patrol on Henry Avenue. He found the door of a residence open, entered the house, and was charged by members of the family who, having confidence in the uniform, did not suspect anything wrong until next morning. Then however, they discovered the loss of a small sum of money and reported the circumstances to Chief Magistrate. Last night Inspector Munro took the man off his beat and had him locked up and searched, the search bringing to light evidence of guilt so clear that the charge was laid at once. The money found in Rogers' pockets corresponded exactly with that stolen from the Henry Avenue house, and an examination of the officer's report book showed that he had made no note of his entering the house as required.

HAYWOOD TRIAL

Clarence Darrow Begins Closing Address for Defence

BOISE, Idaho, July 24.—Clarence Darrow began his closing address for the defence to the jury in the Haywood case at the opening of court today. The court room was crowded to its capacity. In opening Mr. Darrow impressed the chief case upon the twelve men in the box and declared that the defendant was in Idaho as an alien and was brought 1,600 miles from his home into a community and before a jury which does not view the industry as the man accused of murder of the former Governor Steunenburg, have been taught to look at it.

TO QUELL RIOTS IN MESSINA

FEARING RIOTS IN SICILY, ITALIAN BATTLESHIP LANDS 300 MARINES

ROME, July 25.—Three hundred marines were landed at Messina, Sicily, today, from the battleship "Sardagna." The authorities are thus preparing to cope with any further disorders, which may arise from the recent arrest of Nunzio Nasi, ex-minister of public instruction, on a charge of embezzlement. Nasi is popular in Sicily, and his arrest has been followed by several demonstrations. Artillery has been mounted in the streets of Palermo, and other warships will be sent down.

NEW ARRIVAL KILLED AT CAMP

Young Scotsman Just Out From Old Country Killed by Falling Rock.

KENORA, Ont., July 25.—A young Scotsman named Munro, lately out from the Old Country, was instantly killed at No. 1 Camp of Chambers and Munro, contractors on the transcontinental railway, crossing down Winnipeg river about fourteen miles from here. It appears that Munro, who was a blacksmith, was in charge of some men working in a cut when the rock above showed signs of moving. The others got out of the way, but Munro did not take warning in time and was instantly crushed to death by a heavy load of rock. It required a hoist to lift the immense piece of rock before the body could be removed.

The Modesty of Women

Naturally makes them shrink from the medical questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating trains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle wrapper, contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those eminent in the several schools of medical practice. Some of these eminent and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request by Dr. R. V. Pierce of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is thrust upon them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are carefully and promptly answered. Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.
