The Daily Planet

SATURDAY, AUGUST 3, 1907.

THE ENGLISH IMMIGRANTS.

It is a matter of considerable satisfaction and pleasure to The Planet to realize that the strong protest entered by this Great Home Journal against the manner in which English immigrants have been treated upon their arrival in the Maple City, will to all present appearances bring about an improvement in the present mode of treating these strangers within our gates.

A short time ago, it was incorrectly announced that the Ontario Emigration Department was responsible for the bringing of these Engments and recent reports published, however, completely disproves this stituted by Ald. Austin, an account origin in the intelligence and indusof which appears in this issue, shows of which appears in the Dominion au-clearly that it is the Dominion au-thorities who are entirely to blame. It is hoped that the publicity given to the present loose methods of the Dominion officials will have the re sult of compelling them to devote more care to the performance of their

The marked contrast between the methods of the two governments in their management of this emigration question is plainly evident. In Toronto every care is taken to see that a class is brought out and properly taken care of when they arrive, while in the case of the Dominion authorities it has been shown that no such precautions exist, or if any attempt is made along this line it is very, slovenly managed.

The complaint has been referred to Ottawa, and it is hoped that this action will cause a little stirring up among Dominion officials, who evidently are at present either negligent or incompetent.

MARS.

Mars is now a conspicuous object in the eastern sky about nine o'clock and as it is some millions of miles nearer to the earth than commonly, many telescopes are trained upon it. Even with a field glass, the astronomical authority of the Brooklyn Eagle reports that it presents the aspect of a circular disk, while the big tubes at the observatories reveal to those who look through them many of the geographical conditions that have so long piqued mundane curiosity, and that include so many of the features of our own globe-the continents, the seas, the icy poles and the belts and patches of vegeta-随順 爾 山下 1/1

Especial study will be given by observers who are favored with powerful telescopes and clear air, such as those at Flagstaff, Arizona, and those in the Andes, to the so-called of Mars, first mapped by Schiaparelli, and even yet denied by some astronomers, who declare them to be freaks of the imagination. That the photograph has copied some of these lines-no easy task considering these lines—no easy task considering Kmpress of Britain, of the distance through which the light by exactly two hours. must pass-should place the matter beyond debate, even if it were not easy to accept the findings of the scientists who have p existence.

natural phenomena; to a cracking of the surface of the planet, such as we see, apparently, in the moon, we see, apparently, in the moon, where even broader lines radiate from the volcanoes. But Mars is not blood is rich and pure she will be strong, healthy and happy. Bad blood is the cause of nearly all the

creating rainfall, or they may be the boundaries of arbitrary political

may be runaways for forms of marine life. They may afford water power for industries of a vastness incomprehensible to us. Who knows if they may not have been created for beauty and salubrity, and that their shores may not be lined with palaces that would make the Chicago and St. Louis fair buildings trivial in comparison?

Mars is so immensely far from us, as we reckon distances, that we shall never know much of its life. Its people may know far more of us than we can know of them. may have been signalling to us for centuries; as it has been proposed to signal to them with aggregations of searchlights of enormous power. But while we must remain forever ignorant of much that pertains to the be the means of revealing more of its geography than has been learned by the predecessors of the scientists planet, its present contiguity may who are now observing it. It may ion will attribute to its canals an et, and such a view should humble universe and a human supremacy.

AIMS AT GERMANY.

Great Britain Said to Be Showing Antagonistic Attitude.

Antagonistic Attitude.

The Hague, Aug. 2.—The American and British delegations are exchanging views on their respective projected propositions relating to periodical meetings of the conference, and they may agree to combine the two propositions.

The general attitude of Great Britain, which in all the propositions regarding naval warfare, particularly seemed only preoccupied in protecting herself against Germany. is causing many comments. On the question of contraband Great Britain, therefore, found herself supported only by small countries. Germany and the United States again were in line against Great Britain on this subject, strengthening the belief that their co-operation in the conference may lead to more important matters outside the conference.

Famous Novelist Dead. London, Aug. 2.—David Christie Murray, the novelist, died here yes-

He was born in April, 1847, in Staf-ordshire. He become He was born in April, 1847, in Staffordshire. He began his career in fournalism as a reporter on The Birmingham Daily News. Coming to London in 1873, he served on The Daily News and The World and was correspondent of The Times in the Russo-Turkish war. He then began to travel and in 1889-90 lectured in Australia and in 1894-5 in Canada and the United States. In 1880 he published his first novel, "A Lite's Atonement," and his publications thereafter were many, many being in collaboration with Henry Herman. His recreation was landscape painting.

landscape painting. Boy of 15 Suicides, Ochours, Aug. 2.—John Jones, an immigrant boy, who was living with John Bright near Burnley, Northumberland County, took his own life with Paris green. Coroner withdrew the Paris green.

The boy was about 15 years of age, and had been in the employ of Mr. Bright for about a year.

Two Hours Ahead. Rimouski Wharf, Que., Aug. 2.—The Empress of Ireland, arrived here at 9.40 a.m., making the voyage from Liverpool to this port in the record time of five days and 16 hours, eclipsing the run of her sister ship, the Empress of Britain, of two weeks ago, by greatly two hours.

The weak woman can depend up it that her blood is out of order, for where even broader lines radiate from the volcances. But Mars is not a burned out cinder, like the moon, and its shrinking is not yet so rapid as to induce visible surface changes. We have nothing like them on the earth, unless, by a wrench of the limagination, the Mississippi and Amazon can be so regarded. Yet it is not to be supposed that in its geology Mars differs radically from the earth. It contains no minerals nor chemical elements that are not present in our soil, nor does any other celestial body. It is lighted by the same sun as ourselves; it has its clouds and snows—why should it not have its organic life?

It may be, hints the Eagle, that Mars has developed a race of beings as far beyond the rape of men in strength, stature, wisdom and command over the forces of nature as men believe themselves to be beyond quadrupeds. It may be that they were made for irrigation and earry the waters of the occans for thousands of miles across lands otherwise desert, or it may be that they merely facilitate trade, or it may be that they were made for irrigation or social or racial divisions. They

In Scotland a farmer

On Friday last a most singular nd nearly fatal accident occurred in the Township of Raleigh, concession 10, lot 22. It seems that Messrs. B. Evans, John Early, and A. Mc-Cready and son, were engaged in sinking a well, and having reached a depth of 115 feet Mr. McCready sinking a well, and having reached took a light near the mouth of it for the purpose of finding a lost augur. Instantly the gas from the well ignited with a loud report and burned Mr. McCready, also his son, who was nearby, in a most frightful manner. The lad was knocked completely senseless, besides having his head and face badly scorched. Mr. McCready's hands, face and head were very seriously injured, and his hair completely burned off. Father and son are both doing well, however, under their painful injuries. From this it is manifest that all the gas is not to be found above ground.

Charles Dickens is making a tour of Western Ontario and Southern Michigan.

Labor has got so cheap in Detroit

New York has a lady physician whose income is \$15,000.

Mr. Tennyson received \$10,000 for twelve poems for "Good Words."

One day last week a young man by the name of Wood drove into town with a pair of horses, one of them a young colt, and whilst standing with them at Mr. Taylor's mill on Colborne street, he rather uncautiously went round about their him quarters, when the colt kicked Wood in the face, cutting an open man across the left cheek to the bone. He was taken to Dr. Bray, who speedily sewed up the fearful gash, and nature will do the rest of healing. Had the stroke been in a more vital part, Wood would have been killed on the spot. He will bear the mark for life.

Labor has got so cheap in Detroit that in many cases where boys have heretofore applied for the job of cleaning the sidewalk, men have of-fered to do it for less.

"Dolly" Davenport, the actor, having received fifty notices of his own death, has come to the conclusion that he must really be dead, and now signs himself "Yours truly, A. H. Davenport, deceased."

11. What handicaps most beginners is the desire to keep the head stong as you can endure it without pain or inconvenience.

6. Directly you will find that, as the arms start to come back, they will elevate the head out of water, so that the mouth is clear. Then take a good, deep breath.

And all the treess are green;
And every goose a swan, lad,
And every lass a queen;
Then hey, for boot and horse, lad,
And round the world away;
Young blood must have its course,
lad, And every dog his day.

When all the world is old, lad,
And all the trees are brown;
And all the sport is stale, lad,
And all the wheels run down;
Creep home and take your place
there,
I'm going t obe a retired merGod grant you find one face there
You loved when you were young.

WHEN WOMEN SUFFER.

Look out for weakness or disease. See if there is not a sideache, headache, restlessness and the "blues." These symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. They are women's greatest relief, prevent functional derangements, renew the life of the blood, purify and clean the system throughout. No tonic so potent, no results so marked as follow the use of Dr. Hamilton's Pills. Price 25c. per box at all dealers.

THE RIDE FOR THE MASSES.

The auto is my trolley car,
It nicely fits my pile,
My chauffeur is the motorman
Who takes me round in style.
I hand my nickel to the man
Who comes to take the fare,
And off we whis for miles and miles
Without a thought of care.

Sometimes he hurries me along
Down through the busy street
Where all is bustle, life and stir
And hurrying of feet.
At other times our path is where
The country stretches wide,
Where fields of grain and pasture
lands
Lie fair on either side.

We never with a sudden stop
Lie dead along the way
And have to patch a punctured tire
And think of things to say.
We never have to crawl below
An acting up machine.
Nor worry over our supply
Of precious gasoline.

Of course I do not occupy
All by myself a car,
For others come and others go—
There is no social bar.
And that's the beauty of the thing.
The rids to all is free
Who have the very modest price
And want to go with me.

Wouldn't Have Taken Chances "Gerald is "A poet! Why didn't you tell me before?"
''I supposed

POLICE REBEL.

Soldiers Summoned to Belfast to Awe-Constabulary.

Belfast, Aug. 2.—Constable Barrett, a leader of the disaffection among the police, has been dismissed and five other constables who have taken a prominent part in the agitation have been suspended.

ottawa, Aug. 2.—Joseph and Jack Fidler, the chief and medicine man of the Sandy Lake Crees, are under arrest at Norway House, about 200 miles from Kenora. They will be tried for the murder of a squaw.

It is a case of a savage tribal custom. The woman became ill last spring and grew delirious. These Indians hold that when a person died delirious an evil spirit, one Wendigo, escapes from the body to the weeds, frightens away the game, and a famine ensues. The band. according to custom appointed their chief and medicine man to choke the sick squaw, so that the spirit might not escape with the breath, but remain secure in the dead body.

Before the whole band the chief and the medicine man did the deed. A rope about the squaw's neck was tightened by the two leaders of the band until the ravings of the woman were stopped and the evil spirit was imprisoned and the game preserved.

The Fidlers asked the officials not to be too severe with them, as they had no idea that they were doing wrong. They were merely doing their duty by the band and followed the custom of their fathers. The execution of this duty was a high honor, and, according to custom, the execution of the victim.

The authorities here are trying to be too severe of the victim. prominent part in the agitation have been suspended.

At Dublin yesterday the Lord Lieutenant of Ireland, the Earl of Aberdeen, replying to a petition from members of the Belfast constabulary, declared that is was impossible for the Government to entertain a petition presented under such circumstances, and the last paragraph of which was threatening in character.

Troops continue to pour into the city, emphasizing that the authorities are fully determined to grapple promptly with rioting by the striking dock laborers, or the mutinous police, who are demanding more pay because of the extra work the strike entails.

The fourth battalion of the Middle-

entails.

The fourth battalion of the Middlesex Regiment, bringing a Maxim gun, and a section of the Essex Regiment, arrived yesterday, making the military strength about 7,000 men.

This imposing display of force is producing a reassuring effect on the general public, which early in the trouble was somewhat panic-stricken. The police have issued a manifesto declaring their intention to ignore the inspector-general and communicate tioners were handsomely fed by the parents of the victim.

The authorities here are trying to decide whether it will be easier to send a judge to Norway House to try the case, or have the prisoners and witnesses sent to Edmonton for trial.

The police have issued a mannesse declaring their intention to ignore the inspector-general and communicate directly with Mr. Birrell, Chief Secretary for Ireland.

Constabulary Mutiny.

London, Aug. 2.—Defending the action of the Government in rushing 7,000 troops into Belfast for strike duty, Chief Secretary for Ireland Birrell declared in the House of Commons yesterday that the mutinous action of a portion of the constabulary and the continuation of the strike necessitated decided measures.

Mr. Birrell added there was good reason to believe that the strike would soon end.

SCORED CARON.

Justice Clement Says He Should Be Stripped of Royal Honors.

Stripped of Royal Honors.

Vancouver. B.C., Aug. 2.—"I haven't the slightest hesitation in saying that Sir Adolphe Caron should have the insignia of royal favor which has been conferred upon him, stripped from him for writing such a letter," said Justice Clement to the jury in the libel suit by former Commissioner of Lands and Works R. F. Green, against The Vancouver World, the end of which came half an hour later in a verdict for the newspaper.

The letter the court referred to was one of the features of the case, written by Sir Adolphe Caron from Ottawa in January, 1905, on the completion of the Telqua Valley leases, and addressed to Green, then B. C. Minister of Mines. Welland Farmer Suffers Loss.

Welland, Aug. 2.—Andrew Hoover, whose farm adjoins the Town of Welland, has suffered the loss of his large barn and the season's hay crop, amounting to about fifty tons.

It is thought that the fire was started by his daughter Margaret, a woman of 34 years, who is demented. The men were all in the fields at the time. about 3.30 in the afternoon, and by the time they reached the barn it was impossible to save anything. The contents included a quantity of grain and a bull and all were lost.

Minister of Mines.

"That matter now being closed," said the letter, "I wish to say that if you care about some friend of yours, and selected by you, joining our syndicate, we should be only too glad to have him as one of us."

Green, while declining himself to accept the offer, named Neil McKay then private secretary to Premier McBride, later deputy commissioner of lands and works, now Conservative M.P.P. for Kaslo, Green's former constitutency.

M.P.P. for Kaslo, Green's former constituency.

"That letter reached Green," continued the court, "and I say Green at once should have resented the dishonor done him in making him such a proposition. Either Green must be a most innocent man, unable to see a proposition of that sort was dishonorable, or elgo he must have thought that in the long run possibly some benefit would accrue to himfrom it."

ANOTHER GREAT DISCOVERY.

A well known gantleman in Black Bay, Ont., Mr. John Cowan, has discovered an absolute specific for Rheumatism, and writes: "I was affected with Sciatica and chronic Rheumatism, which I contracted years ago. The disease had a greathold in my blood, and it was hard to make any impression on it. Reading of Ferrozone I was convinced of its merit and it's certainly the best I have ever tried. Why, it just drove away the Rheumatism. Even stiffened old sufferers will experience quick results. The reason is that Ferrozone acts through the blood and thereby destroys the cause of the disease. Price 50c. perbox, at all dealers'.

A man is soon forgotten after he is dead, unless you happen to mar ry his widow.
