Address of the Retiring President Mrs R. V. Jones.

CONTINUED FROM LAST WEEK.

Our benevolent work has changed its character somewhat taking a broader outlook, and seeking to educate to a systematic mode of giving, not only with reference to the finances of the Union, but in all benevolent work.

Some quiet work has been done, we trust, in "Social Purity." Our thoughts go out with almost reverent love, to the heroic leader, Mrs Josephine Butler, who for twenty-eight years has worked for the abolition of the state regulation of vice, all over the world.

I regret that no mention of our Flower Mission appears in the Nova Scotia report, although our Cor. Sec. in her report to this "Provincial Union" wrote particularly about it.

During the last two years two departments of work have been dropped and others substituted in which we thought more might be done.

The great need of the present is a Provincial Organizer. Note the good work done by Mr Blackadder, the Organizer for the Grand Division of the Sons of Temperance, who secures in every way so well qualified to fill the position, and who is meeting with such unmarked success.

During the coming year work in connection with the pledge-cite will be in order. Let us see, as our N. S. president suggests, that the few women who have a voice in the matter exercise that right.

The question is often asked, why are women on whom so many other duties devolve, so much interested in the temperance reform, the work of which so many think, lies outside of a woman's capabilities and activities?

At a meeting of locomotive engineers the following toast was offered: "To our mothers—the only faithful tenders who never misplaced a switch."

The all important thing for nervous, sleepless and run-down people to know is that Paine's Celery Compound builds up the whole physical system, improves digestion and regulates the nerves.

In the winter the majority of men and women have hothouse lives. Thousands of homes are badly ventilated and without proper sanitary arrangements.

Paine's Celery Compound is the medicine needed by every broken-down and diseased mortal at this time.

Dr. A. W. K. Newton, an eminent physician and surgeon of Boston, says: "Paine's Celery Compound is not a patent medicine, and it must not be confounded with the ordinary nervine, bitter and cathartic."

"I had some trouble myself from blood poisoning treated in a very delicate surgical operation. The formula of Paine's Celery Compound led me to try it, and I was much pleased with the result."

"When a man or woman has lost appetite, lost sleep, cannot sleep, and are weak and run-down. For this condition, and for disorders of the blood and nerves, it has no equal."
