## BOOST NEW BRUNSWICK THEN WATCH RESULTS

**New Brunswick Tourist and Resources Association  
Making Drive For Membership—Plan to Reach  
2,000 Mark—Baby Drafts Again Feature.**

The New Brunswick Tourist and Resources Association is away to a grand start this year and intends to keep the ball rolling. President C. C. Avar and the whole Association are working tooth and nail to bring the membership of this worthy and public-spirited organization of business men of the Province up to the 2,000 mark. Last year a drive was made to increase the membership to 1,700 and this mark was reached and passed with very little effort. The novel method of using baby drafts for the amount of the membership fee met with approval everywhere. This year it is planned to use these drafts more extensively and the result will be most gratifying no doubt. The aims and objects of this organization are the advancement of the Province and making it better known to the summer tourists. It is estimated that the tourists left \$5,000,000 in the Province last summer and the executive of the Association are confident that if they have the support of the people of the Province they will be able to increase this sum to at least 50 p. c. this coming summer and if this can be done by joining the organization that is at the head of the publicity work, then it is the bounden duty of every one in the Province that receives notice of the arrival of a baby draft to immediately pay it and thus aid this work.

The beauties and advantages of this Province of ours are only beginning to be made known to the people across the lines. They were absolutely ignorant for the most part of the beauty that abounds throughout the entire Province; they did not know anything about our magnificent roads; they were certain that this was a desolate dreary waste; they were scared to venture across the border for fear of being held up by savages; and it is only recently that

they have come to realize that there are beauty spots in abundance in this fair province of ours that rival the everlastingly advertised and much talked-of attractions of various sections of the States. If the Tourist Association has been the means of this enlightenment then it deserves our support. It has the support of a large majority of the big men of the Province and they are behind the work. We cannot allow them to do all the work and then sit back and pull in the profit of their labors. We must help the work; we must also push on the spokes of the wheel in order that our concerted effort will help swell the coffers of OUR organization that is attempting to boost OUR Province in order that in the future we may have a better place to do OUR business and live on the fat of this beautiful country. All that we need is the publicity and if we all help then the burden will not be heavy and we will all eventually benefit.

Last year 70 p. c. of the money obtained from all purposes was spent in advertising in Canadian and United States papers. Last year Prince Edward Island was with us, and we worked together, they are with us again and we are going to pool the monies and work harmoniously and efficiently to further the name and prestige of the Province that we live in and that will be among the greatest in the years that are to come.

This year the Association is planning to use the draft system in every town and city in the province and the results that are shown at the end of the season in the tourist business will be directly proportionate to the money that we invest. So if you love your country and appreciate the work that the Association has already done, then—pay the draft that will be made on you for membership fees.

## DEATH OF CHILD

Deepest sympathy is extended to Mr. and Mrs. Bonnie DeLong and family in their recent sad bereavement, when their youngest child, Harold passed from this life to the great beyond on March 27 at the age of four years and seven months, leaving his parents, one sister and two brothers to mourn their loss.

His death was due to hemorrhage following an operation for appendicitis at the Woodstock Hospital on March 21. The end was very sudden and unexpected as he was, to all appearance recovering nicely.

He was a child of exceptionally bright and lovable disposition and bore his severe illness with wonderful patience endearing him to all who cared for him.

Everything that skilled hands and kind hearts could do was done but to no avail. The funeral service was conducted by Rev. G. F. Bolster on March 29, at the United Baptist Church, Waterville, the following hymns being sung by the choir, "Over the River," "Sometime He'll Understand," and "Solo, "Baby Hands," by Mrs. Frank Hendry.

Interment was made in the cemetery adjoining the church.

## 10,000 BARRELS OF MAINE SPUDS GOING TO CUBA

Augusta, Me., April 9—A shipment of 10,000 barrels of Maine grown potatoes has been inspected at Stockton Springs prior to shipment to Cuba aboard the Danish steamer, Kristen Maersk. Erlon L. Newdick, chief of the division of plant industry, State Department of Agriculture, and R. S. Bacon, also of the Department, have just returned from the inspection. C. A. Powers and Company of Fort Fairfield are shippers.

## The N. B. Potato Trade

The farmers of New Brunswick should be very greatly concerned over the news that comes from Cuba regarding an agitation to give the sanitary authorities full power to refuse entry to any Canadian potatoes supposedly of bad quality. Under such a regulation, very grave damage might be done to the New Brunswick potato trade. The shipper would be entirely at the mercy of inspectors, who might on the merest pretext refuse to permit the landing of a cargo. As our potatoes are inspected before they are shipped there does not seem to be the slightest excuse for giving inspectors in Cuba full power which might be exercised to the great injury of our trade. The business has grown to large proportions and it means much, not only to the farmers but to the ports of shipment. This is clearly a case where the Dominion Government should take a hand in the interests of Canadian trade. The people of Canada have a right to be protected from having worthless stock landed on their wharves, but they are protected by the careful inspection at the point of shipment; and the shipper, having taken his precaution, is entitled to a square deal from the Cuban authorities when a cargo arrives in Havana or any other Cuban port. The farmers of New Brunswick should join the shippers in an effort to secure proper representations from Ottawa in the interests of this very important Maritime Province trade. Harsh treatment in Cuba, following the British embargo, would be a severe blow to the potato export business.—Telegraph-Journal.

## RECENT MARRIAGES

## Bates-Marr

A very pretty wedding took place on April 8th at the Union Church, Millville, when Arthur L. Bates of Pinder and Eveline Marr of Millville were united in marriage by Rev. P. J. Quigg.

The church, which was crowded with guests, was prettily decorated with potted plants and ferns. The young couple were married under an arch of evergreen and ferns. The bride was given away by her brother Eldon and her little sister acted as flower girl.

The bride and groom left for Presque Isle and other American towns on their honeymoon. On their return they will reside at Millville.
