Mrs. F. G. Murdoch, Box 433, Portage la Prairie, Man., writes:
"I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

**Big garages do burn**

A garage fire usually results in a frightful property loss. Fine cars are left mere skeletons of a twisted chassis and every bit of wooden coach work becomes a pile of blackened cinders. The presence of gasoline tends to make a garage fire very complete in its destruction.

FIRE WARNING

Fredericton, N. B., April 27.—Final decision to take what is regarded as a most pronounced forward step for the protection of New Brunswick's forest resources has led the Department of Lands and Mines to inaugurate a system of registration for persons entering the forests of the province during the period that hazard from fire is the greatest.

Recently when a proclamation was published in the Royal Gazette announcing that all forest land in New Brunswick had been proclaimed "protected area" and the commencement on May 1st and extending until November 1st all persons entering the forests for the purpose of travelling, camping, fishing or even picnicking must register, it was suggested that because of the extended winter conditions and the delayed coming of spring weather the new regulations might not be enforced until a later date.

However, information which has recently come to the Forest Service branch of the Department of Lands and Mines from its representatives throughout the province indicates that in many sections of New Brunswick the woods are already becoming dry, that the change from season to season has been unusually rapid and that the forest fire hazard is already imminent. These reports have caused officials to rush along the preparations for the introduction of the new regulations and on and after May 1st—Next Tuesday—persons who are in the woods in any part of this province without the necessary certificate of registration will be subject to penalties ranging from \$10 to \$100.

Only persons who are exempt from the provision of the new regulations and who do not require to register and obtain a certificate of registration are licensees and owners of lands entered upon and their employees, fire wardens, fire fighters, land surveyors, holders of licenses for hunting, fishing or mining, registered guides and persons accompanied by registered guides. The name of the applicant, the route, destination, purpose and duration of trip, together with dates, will be required for registration purposes before certificates can be issued and the result of the system of registration will be that when forest fires start in any section of the province the information of the registers of those issuing certificates should show who was in the affected portion of the forests at the time the fire starts. Knowledge that such a system exists will, it is believed, have an excellent moral effect in impressing upon those entering the forests the necessity of exercising the utmost care.

So far 700 fire wardens, county councillors, game license vendors and other persons have been authorized to register applicants and issue certificates, and it is expected that within the next few weeks the number of issuers of certificates of registration will be increased to probably 800. Stores where knives, axes, hunting and camping equipment are sold are applying for and being granted permission to become registrars and empowered to issue certificates.

Seventy five per cent of the forest fires in 1921, when New Brunswick's losses from this source reached a high record, were caused by the carelessness of persons who entered the woods, including the camper, the fisherman and the picnicker. With great quantities of spruce, hemlock, killed lumber increasing the fire hazard, it is essential that the utmost care be taken to protect the forests.

BRISTOL BREVITIES

The rain has come at last, but just a little, too much for this vicinity. The railroad bridge above the station which caused trouble last year, is in a shaky condition, owing to the great rush of water. A crew of bridge men with the pile driver came up from Woodstock Sunday and with the section men are doing all that is possible, but there is little hope of saving the bridge, if the rain continues.

J. R. Gilliland and his private car, D. F. McLean, who owns the Bristol Roller Mill, has lost one dam, while the other is very uncertain.

Ansley Lockhart saved his mill and buildings by dynamiting his dam which will be a very serious loss.

Mrs. George Brittain and daughter Helen of Hartland visited Mrs. G. M. Caldwell part of the week.

Mr. and Mrs. James Thompson of Newburg Jct. are visiting relatives here.

Rev. H. V. Bragdon baptized a convert in the river Sunday morning.

Medamies Geo. Fulton, James Royer, S. N. Banks and Miss Iola McIntosh spent Wednesday in Woodstock.

The old jail house, which has stood for about twenty years, caused a general laugh by sliding into the stream Monday Morning. If it had not been quickly secured it would certainly have made things lively for awhile.

Mrs. D. F. McLean was in East Florenceville Friday.

Mrs. Ruth Miles and Mrs. Thomas Morehouse of Kilburn spent Saturday with Mr. and Mrs. Wm. Morehouse.

Charles Lyons arrived home Thursday after spending the past year in the States.

Mrs. A. O. Phillips, Mrs. Maggie Phillips and Mrs. Thomas Darkie spent Friday in Woodstock.

Miss Esther Jensen of Hartland was a guest of Mrs. N. R. Jensen Thursday and Friday.

Mr. and Mrs. Merritt Stokoe spent the week-end at Plaster Rock.

Mr. Somerville of Robbinston is visiting his brother, Dr. G. W. Somerville.

James McClary and Mrs. Bertie Saunders, of Lower Brighton are visiting Mrs. Earl Don.

Thackeray and the Pantomime. It is recalled that William Makepeace Thackeray was a fervent admirer of pantomime and he never missed viewing one if he could help it. He admitted, though, that "very few men could expect to see all the pantomimes of one season."

GRAND FALLS AND HYDRO

That Grand Falls will be developed as rapidly as the Hydro Commission can reasonably get all the bearings in the case, the estimates for the various things which will have to be done, in short to get all the facts and figures arrayed, is beyond doubt.

That the Government has handled the matter with a great deal of wisdom cannot be gainsaid. That the Hon. J. E. Michand has had a much larger share in the pushing through of the scheme for the Government taking over the development of the Falls, than has appeared in the papers is believed by many. He has been indefatigable in his efforts along this line for months past, and has co-operated with the delegations from municipalities and public bodies, so that they were gladly heard by the Government. A member of the Hydro Commission is the Hon. L. A. Dugal, and he has always been in favor of the development of Grand Falls. Looking back over the work of the past few months, we think it can be said with fairness, that Edmundston men did their part in bringing the Grand Falls Hydro question within the realm of practical and immediate politics, and for that we have every reason to be proud.

And now we are told that a great French firm are negotiating for power from the Government as soon as ever the Falls are developed. And when the Falls are developed watch Madawaska County grow.

The bureau of mines says that when heating hot air furnaces to a very high temperature the iron will not melt but is repeatedly heated to redness, the iron will "grow"—get larger and may break some other part of the furnace that has not "grown."
